AUDIT FINDINGS

NARRATIVE:

The audit of the Western Kentucky Correctional Complex (WKCC) was conducted on November 4-6, 2014 by Gary Peitz, Certified PREA Auditor, assisted by Dale Higgins in order to determine compliance with the Prison Rape Elimination Act (PREA) standards. An entrance meeting was held to introduce the audit team to facility staff. WKCC staff in attendance included but not limited to: Warden Steve Woodward, KDOC PREA Coordinator Bryan Henson, PREA Compliance Manager Davis Meeks, Deputy Warden DeEdra Hart, Deputy Warden Duke Pettit, KDOC Assistant PREA Coordinator Joe Martin, KCI Assistant Director CA Martin, Investigations Captain Tim Grimes, Investigations Sargent Lori Cordes, Lieutenant Jon Tangerose, UAI Mike McAlister, UAI Bobbi Jo Butts, UAI Roger Mitchell, DON Medical Robbie Beach, HAS Medical Monique Jones, UAI Chris Hatton, Mental Health Director D. Gene Reaney, UAI Steve Herring and Procedures Leann Lasters.

Following the entrance meeting, over five (5) hours was spent touring the facility. Areas included the living units to include segregation unit, inmate support building, laundry, gym/library/chapel, dining hall/kitchen, SAP/mental health building, yard, education building, health services, visiting rooms, shift supervisor areas and the minimum unit and the recycling center outside the fence. Also visited was a barn area where an allegation of an attempted staff on inmate sexual assault took place. Informal interviews were done with both staff and inmates while in the various areas throughout the facility.

An inmate roster was obtained and a random sampling of inmates was chosen. Attention was paid to special populations within the facility and those inmates who had reported sexual assault/harassment. Information in regards to zero tolerance for sexual abuse and harassment is easily accessible for the inmates. All inmates understood PREA and how to report allegations of sexual abuse and sexual harassment.

Formal staff interviews were completed with the Agency Head, PREA Coordinator, PREA Compliance Manager, Warden, Human Resources, Health Services, Shift supervisors, PREA investigators, Officers/Sergeants, Classification Treatment Officer (CTO), and Unit manager. Staff from all three shifts was interviewed. All staff is knowledgeable of KDOC/WKCC policies and their responsibilities if an allegation or incident occurs.

PREA case log/data and investigative files were made accessible for the audit team to examine prior investigations. Administrative investigations are handled by WKCC investigative staff and criminal investigations are handled by the Kentucky State Police and are done promptly, thoroughly, and attention is given to details. Investigative decisions are based upon evidence gathered.

PREA Standards and policies were reviewed for compliance. Questions were clarified and suggestions were made for procedural changes to bring WKCC into compliance with standards. WKCC staff made the appropriate changes while the auditors were on site.

WKCC complied with all applicable standards. Some practices/procedures were beyond requirements and received exceeds expectations.

DESCRIPTION OF FACILITY CHARACTERISTICS

The Western Kentucky Correctional Complex (WKCC) is located at 374 New Bethel Road, Fredonia, Kentucky 424117. The mission is for WKCC to provide a medium security institution for the citizens of the Commonwealth of Kentucky; this is within the organizational framework of the Corrections Department, Division of Adult Institutions. This institution will provide housing, care, and safety for adult female felons while delivering resources to the inmate, staff and Commonwealth which are

designed to measurably reduce the probability of inmate re-incarceration.

The facility houses special management, medium and minimum level inmates. It is divided into two compounds; the medium compound located inside the secure perimeter and the minimum compound outside the secure perimeter. The entire complex has 76 total buildings. The housing units consist of three (3) open bay/dorm style housing units inside the fence and two outside and one (1) Special Management Unit which has forty-six (46) segregation cells. The designed facility capacity is 693 inmates. The inmate population was 653 on 11/4/14 when we started our on site audit. The age range of the population is 20-74 years of age. WKCC does not house youthful inmates under the age of 18. There is 209 staff working throughout the facility. There are 177 total cameras throughout the facility utilized to enhance the staff coverage.

All inmates that are initially admitted to WKCC will enter through the visiting building where they receive intake information to include PREA information. By law, the facility encourages appropriate behaviors through Meritorious Good Time which is based upon their programming and behavior. The facility also encourages appropriate inmate behavior by offer beauty shop availability based on inmate behavior. WKCC offers a wide variety of jobs for the inmates including off site work assignments for inmates in minimum custody. Recreational activities are available to inmates on both compounds.

All construction and redesigning of exiting units/areas have PREA considerations taken into account; this was evident during our tour when WKCC staff were able to show us the newly remodeled laundry area and the thought that went into it.

Based on policy 9.8 WKCC does meet this standard.

WKCC does not conduct cross-gender strip searches or cross-gender visual body cavity searches except in exigent circumstances or when performed by medical practitioners. WKCC does not conduct cross-gender pat searches of female inmates. In the event a cross-gender search is conducted, the search must be documented explaining the deviation from policy. No incidents occurred during this time period.

WKCC does not restrict inmates from accessing programs in order to meet the requirements of this standard.

The facility requires staff to be aware of the inmate's state of undress. The presence of staff of the opposite gender shall be announced "Male officer on duty" prior to entering a housing unit where an inmate could be undressed. This procedure was witnessed during the tour of the facility as signs are posted at the Officer's stations when male staff is on duty in the dorms. During the tour of the facility and again during the interview process it was determined that supervisory staff of the opposite gender was not announcing their presence in dorms when making rounds. This issue was resolved while the auditors were on site by the Security Director issuing a memorandum to supervisory staff that they must announce "Male on the Unit" or "Male on the Walk" when entering living units.

Inmates are allowed to shower and perform bodily functions without nonmedical staff of the opposite gender viewing them, except in exigent circumstances or when the viewing would be incidental to routine security checks. The showers were single stalls with half walls so that inmates could only be seen from the shoulders up.

WKCC does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. (9.8)

There were no noted inmates that identified as transgender or intersex in the complex.

There are two (2) observation cells in the Special management unit that have video cameras in them. The Warden assured auditors that the video feeds are not viewed live. He also agreed to issue a directive that any viewing of the video from those cameras would be by same sex staff only.

Based upon institutional plan of action.
WKCC has written institutional plans to coordinate actions taken in response to an incident of

sexual abuse, among staff first responders, medical and mental health practitioners, investigators, and facility leadership.

The facility has a written action plan that can be used for reference when an incident or allegations are reported. It encompasses steps to follow for ensuring all areas are notified and documentation is completed.

Although incidents are all different with varying components/circumstances to them, WKCC has a very inclusive approach to responding to and managing aspects of a reported incident/allegation through their incident report form. Staff has received good training and was well versed in this area. They are prepared should they encounter an allegation or incident. The facility leadership is notified and is involved right from the start which is an essential part of their response. WKCC staff has good communication among each other.

Based upon 14.7 and 3.22, retaliation monitoring worksheet, staff offender relations checklist and memos.

Based on interviews the investigative department will monitor decisions and incidents regarding inmates who report sexual abuse or harassment or who cooperate with investigations. The investigator will consider and review housing, disciplinary reports, record notes, internal classification checklist designation, behavioral health level changes, behavioral health referrals, staff offender relations checklist and grievances in order to determine if retaliation has or is occurring.

The investigator will monitor retaliation twice a week for at least 90 days unless there is a concern or further information to indicate the need for further monitoring. In the case of inmates, periodic status checks are conducted.

Appropriate measures will be taken for any individual who expresses a fear of retaliation.

In inmate interviews there was cause for some concern by the auditors that retaliation monitoring

was not as comprehensive as reported. In discussions with facility leadership, auditors were assured that this was an area that would be looked at. Prior to the auditors leaving there had been follow-up conducted into concern areas.

Based on policies 15.2 and 14.7, staff and inmate interviews.

WKCC holds inmates accountable and will impose disciplinary sanctions following an administrative or criminal finding that the inmate engaged in inmate-on- inmate sexual abuse.

Disciplinary sanctions will occur and will be based upon the circumstances of the incident, inmate's disciplinary history, and similar sanctions imposed on other inmates with comparable offenses.

WKCC will consider the mental health of an inmate prior to imposing discipline. (14.7, E.5)

WKCC will refer to inmates to mental health staff to address any underlying reasons or motivations for sexual abuse and will determine if the inmate's participation is a condition for access to programming or other benefits.

Inmates may be disciplined for sexual contact with staff only upon a finding that the staff member did not consent to such contact.

Reports of sexual abuse made in good faith will not constitute false reporting of an incident even if the investigation doesn't establish sufficient evidence to substantiate the allegation.

WKCC prohibits all sexual activity between inmates. They will take the appropriate action when incidents of sexual activity that are not coerced or considered sexual abuse occur.
