EMERGENCY PURCHASES

I. DEFINITIONS

“Emergency condition” is defined by KRS 45A.095.

"Emergency condition" means a situation which creates a threat or impending threat to public health, welfare, or safety such as may arise by reason of fires, floods, tornadoes, other natural or man-caused disasters, epidemics, riots, enemy attack, sabotage, explosion, power failure, energy shortages, transportation emergencies, equipment failures, state or federal legislative mandates, or similar events. The existence of the emergency condition creates an immediate and serious need for services, construction, or items of tangible personal property that cannot be met through normal procurement methods and the lack of which would seriously threaten the functioning of government, the preservation or protection of property, or the health or safety of any person.

II. POLICY and PROCEDURES

This policy shall provide guidelines for all employees regarding the purchase of any item in reaction to or to remedy an emergency condition.

A. Authorization

1. All budget heads and directors shall gain verbal approval for any emergency purchase on a case-by-case basis from the appropriate Deputy Commissioner. If approved, the Deputy Commissioner shall send documentation of their approval to the Director of Administrative Services. This shall serve as documentation necessary for submission to the Finance and Administration Cabinet.
2. If verbal approval has been obtained, the budget unit head or director shall authorize the business manager of his unit to make the emergency purchase for replacement or repair.
