Audit Findings

Audit Narrative

The audit of the Blackburn Correctional Complex was conducted on March 28th – 30th, 2018 by Ian Rachal, Department of Justice certified PREA auditor. Prior to the commencement of the on-site audit, supporting documentation was delivered to this auditor by agency officials for review. Documentation reviewed included agency and facility forms, policies, training curricula, educational materials, and other PREA-related documents demonstrating compliance with the PREA standards.

Upon arrival to the facility, an introductory meeting was held with agency leadership to answer questions and provide expectations for the audit process. I was afforded the use of a private conference room to interview facility personnel.

The on-site audit of the BCC facility lasted for two and one-half days. A comprehensive tour was conducted of the facility physical plant by this auditor, escorted by numerous facility and agency officials. Observed was the facility configuration, location of cameras and mirrors, staff supervision of residents, dorm layout including shower/toilet areas, placement of posters and PREA informational resources, security monitoring, resident entrance and search procedures, and resident programming. Showers and bathrooms were outfitted with partitions for privacy.

The tour of the compound commenced with a visit to each of the four (4) inmate housing units, the inmate library, academic classrooms, inmate food service area, medical clinic, commissary, chapel, and inmate gymnasium. Each area was adequately supervised by security personnel. There were multiple staff members present in all areas with numerous cameras and mirrors to assist in supervisory efforts, mitigating any potential blind spots.

Inmate housing units were mostly open dormitory environments, with a large central inmate living area. Some of the units featured a combination of individual cells and small, open dormitories. All areas had numerous cameras which are remotely monitored. Inmate phones were checked to ensure reporting capabilities.

The restrictive housing area featured five (5) temporary holding cells for transfer. BCC is a minimum custody facility. No inmates were currently housed in the area.

Facility Characteristics

Blackburn Correctional Complex serves as the Division of Adult Institutions' largest adult male minimum-security institution providing care, housing, custody, control, and governmental services jobs to inmates. This facility is located near Lexington, Kentucky. BCC has a current bed capacity of 594 inmates. The institution currently consists of 538 general population minimum-security inmates with 5 temporary special management beds.

Non-Infirmary Medical services are located on site (Correct Care Solutions). Cameras are located throughout the facility to assist staff in monitoring the inmate population. Technical programs including prison industries operations include the production of mattresses, panels, signs, and t-shirts.

Additional programming includes the Blackburn Canine Companion Program, Fathers and Children Together (FACT), and Anger Management. There are numerous educational classes and religious activities.

Summary of Audit Findings

All BCC staff interviewed displayed basic knowledge of PREA responsibilities and could articulate the meaning of KDOC's zero tolerance policy. BCC staff understood their roles and responsibilities in the prevention, reporting and response to sexual abuse and sexual harassment. BCC staff adequately articulated reporting mechanisms for inmates and staff to use to report sexual abuse or sexual harassment.

Inmates interviewed responded that BCC personnel treated them with respect. Inmates were familiar with BCC's reporting mechanisms and efforts to protect them from sexual abuse and harassment. BCC and KDOC has numerous mechanisms in place for inmates, their families, and the general public to report allegations and receive information in regard to PREA and receive assistance for underlying issues of sexual victimization or predatory behaviors.

This auditor was allowed to speak freely with all offenders and staff during my visit and was treated in a very hospitable fashion. Facility leadership was responsive and knowledgeable.

\boxtimes	Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
	Does Not Meet Standard (Requires Corrective Action)

BCC conducts investigations promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports.

Where sexual abuse is alleged, BCC uses investigators who have received special training in sexual abuse investigations.

Investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; and review prior complaints and reports of sexual abuse involving the suspected perpetrator.

When the quality of evidence appears to support criminal prosecution, BCC conducts compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.

The credibility of an alleged victim, suspect, or witness is assessed on an individual basis and is not determined by the person's status as inmate or staff. No BCC official requires an inmate who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

Administrative investigations include efforts to determine whether staff actions or failures to act contributed to the abuse; and are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

Criminal investigations are documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible.

Substantiated allegations of conduct that appears to be criminal are referred for prosecution.

BCC retains all written reports for as long as the alleged abuser is incarcerated or employed by BCC, plus five years.

The departure of the alleged abuser or victim from the employment or control of BCC does not provide a basis for terminating an investigation.

There were no substantiated allegations necessitating criminal referral at BCC in this auditing period.

BCC staff are subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies. Termination is the presumptive disciplinary sanction for BCC staff who have engaged in sexual abuse.

Disciplinary sanctions for violations of KDOC policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories.

KDOC policy requires that all terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies.

BCC terminated one employee for violation of BCC sexual abuse/harassment policies.
