### Physical Plant

| Number of buildings: | 14 |

Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.

| Number of inmate housing units: | 28 |

Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.

Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

Roederer Correctional Complex, a Kentucky DOC facility contracted with Lori Fadorick, a U.S. Department of Justice Certified PREA Auditor, through the American Correctional Association (ACA) on August 3, 2021 to conduct a Prison Rape Elimination Act (PREA) Audit of the facility. The purpose of this audit was to determine Roederer Correctional Complex’s level of compliance with the standards required by the Prison Rape Elimination Act of 2003. This is the third Prison Rape Elimination Act Audit for RCC. They were previously audited in March 2015 and January 2019.

I spoke with Shannon Butrum, PREA Coordinator, via email several times over the weeks leading up to the audit. We discussed the documents that will be required for review and outlined the agenda for the on-site audit. The auditor answered any questions from the PREA Coordinator and discussed submission of the PAQ, as well as additional documentation. On October 18, 2021, Ms. Butrum emailed to say that she was taking a different position and that Pamela Clayton would be taking over the role of PREA Coordinator. Ms. Butrum will be supervising the PREA Coordinator position and both she and Ms. Clayton would be present at the onsite review for this audit.

The Auditor requested for the PREA Coordinator to assist in identifying and, if possible, make the following available for targeted staff and inmate interviews during the on-site portion of the audit:

INMATES:
• Inmates with a physical or cognitive disability
• Inmates who are Limited English Proficient
• Transgender and intersex inmates
  • Lesbian, gay, and bisexual inmates
• Inmates placed in segregated housing for their own protection from sexual victimization
• Inmates who reported sexual abuse that occurred in the facility
• Inmates who reported prior sexual victimization during risk screening

STAFF:
• Agency contract administrator
• Intermediate or higher-level facility staff responsible for conducting and documenting unannounced rounds
• Medical and mental health staff
• Non-medical staff involved in cross-gender strip or visual searches
• Administrative (human resources) staff
• Sexual Assault Forensic Examiner (SAFE) and Sexual Assault Nurse Examiner (SANE) staff
• Volunteers and contractors who have contact with inmates
• Investigative staff
• Staff who perform screening for risk of victimization and abusiveness
• Staff who supervise inmates in segregated housing
• Staff on the sexual abuse incident review team
• Designated staff member charged with monitoring retaliation
• First responders, both security and non-security staff
• Intake staff
• Warden or designee
• PREA Coordinator

The Auditor requested that all documents be provided electronically, if at all possible, and that the PAQ and associated documents be provided on a removable storage device, and sent via certified mail.

On September 14, 2021, Mr. David Haasenritter, ACA Standards and Accreditation Director emailed Ms. Butrum the PREA Audit notices in both English and Spanish, which is the prevalent non-English language spoken in their area. Ms. Butrum sent these via email to the facility’s PREA Coordinator on the same day. The Audit Notices contained contact information for the Auditor and information on how offenders could confidentially contact the Auditor prior to the onsite portion of the audit, as well as limits of confidentiality of the auditor in accordance with the law.

Audit notices were posted on September 20, 2021 in all inmate living areas, as well as public areas, including the lobby and visitation areas announcing the upcoming audit and containing the Auditor’s contact information. Documentation was submitted to the Auditor demonstrating the timely posting of the audit notices. Audit notices were present and observed at the time of the on-site audit. The Auditor received no communications from any inmates at RCC prior to the onsite audit at the PREA Audit Post Office Box. The facility was requested and agreed to keep all notices posted for four weeks following the on-site audit. As of the date of this report, the Auditor has received no letters from any offenders at Roederer Correctional Complex at the PREA Audit Post Office Box.

On October 18, 2021, the Auditor received a removable storage device from PREA Compliance Manager Kevin Hayes containing the Pre-Audit Questionnaire (PAQ), as well as supporting documentation and policies, including forms, staffing plan, reports, floor plans, training outlines, and assessments. In the weeks leading up to the on-site evaluation, the Auditor performed a comprehensive review of the agency policies, operational procedures, forms, training materials and other related supporting documentation submitted by the facility to demonstrate compliance with the standards. On October 29, 2021, the Auditor spoke with PCM Kevin Hayes via email to discuss the tentative schedule for the audit, as well as additional documentation that would be requested for review. During and prior to the onsite review, the Auditor had several follow-up conversations with the agency staff. All requests for additional documentation and clarification were provided promptly and reviewed by the Auditor during the on-site portion of the audit.

The Auditor reviewed the KYDOC website. The website includes a link to access information on PREA, including the agency’s zero tolerance policy, resources for counseling, reporting information and the annual report.

During the Pre-Audit phase, the Auditor did not identify any current pending litigation or federal consent decrees related to sexual misconduct.

Onsite Audit Phase:

The Prison Rape Elimination Act (PREA) on-site audit of the Roederer Correctional Complex in LaGrange, Kentucky was conducted on November 1-3, 2021 by Lori Fadorick, a U.S. Department of Justice Certified PREA Auditor for Adult Facilities from Salem, Virginia.

An entrance conference was conducted with facility administration on the morning of November 1, 2021. Present were Auditor Lori Fadorick, Compliance Assistant Director Shannon Butrum, Statewide PREA Coordinator Pamela Clayton, Warden Jessie Ferguson, PREA Compliance Manager Kevin Hayes, Deputy Warden of Operations Jessica Durrett, Deputy Warden of Security Arnold Chisolm, Jeremy Mellick, Training, Andrew Byrd, Training, Brandon Miller, Locksmith, Lisa Wegner, CTO and backup PCM. The Warden gave a very informative briefing and overview of the facility. After brief opening remarks by both the Auditor and Administrators, the discussion focused on the schedule for the audit and a review of the audit process. The Auditor asked if there were any questions regarding the on-site portion before proceeding.
The Auditor was given a secure conference room in the administrative area of the facility in which to work and perform confidential staff interviews. Inmate interviews were conducted in several different secure locations within the facility and away from the inmate housing areas. The population on the morning of the first day of the audit was 988. The auditor briefed the PREA Compliance Manager and administrative staff on the audit methodology, the proposed audit schedule and provided him with a list of documents that would be reviewed during the audit. In addition, the auditor informed the PCM that there may be additional documents requested depending on any findings during the on-site portion of the audit.

The PREA Compliance Manager provided the auditor with a roster of all inmates currently housed in the facility alphabetically and by housing unit, as well as staff rosters by shift for the three days of the onsite portion of the audit. The auditor was informed that there had been 22 total PREA related investigations conducted during the audit period. Of the 22 total allegations during the previous twelve months, 10 were sexual abuse allegations and 12 were sexual harassment allegations. There were 5 substantiated allegations (one sexual abuse and four sexual harassment), 10 unsubstantiated allegations (five sexual abuse and five sexual harassment) and 7 unfounded allegations (four sexual abuse and three sexual harassment).

Following the entrance conference, the Auditor toured the facility escorted by Warden Jessie Ferguson, PCM Kevin Hayes, Deputy Warden Jessica Durrett, Deputy Warden Arnold Chisolm, Major Thomas Harper, Locksmith Brandon Miller, CTO Lisa Wegner, PREA Coordinator Pamela Clayton and Compliance Assistant Director Shannon Butrum. The Auditor toured all areas of the facility, including the following areas:

1. Administrative Offices
2. Central Control
3. Training Building
4. Captain’s Office
5. Laundry
6. Housing Areas/Units 1-5
7. Receiving Area/ID
8. Kitchen
9. Chapel
10. Law Library
11. Recreation/Multi-Purpose Building/Library
12. Visitation
13. Academic
14. Medical
15. Maintenance
16. Farm Building
17. Horticulture

Due to COVID related precautions, housing units on lockdown due to COVID related safety precautions (RCC5B3, AC2E, AC2H, AC2F, AC3M) were not toured. All inmates received at the facility are quarantined upon arrival. In addition, inmates from the housing units were not selected to be interviewed due to the inability to remove them from the housing unit.

The Auditor had full, unimpeded access to all areas of the Roederer Correctional Complex. Throughout the facility tour, the Auditor spoke informally with both offenders and staff. Some of the informal questions asked of the offenders included their perception of the safety of the facility, information they had received at intake, if they knew the various reporting methods, and whether or not they had seen the PREA orientation video. Some of the informal questions asked of staff included their perception of the safety of the facility, their awareness of the first responder duties and their awareness of the various reporting methods. The Auditor heard consistently from the offenders that RCC was “the best” facility and everyone wanted to stay there.
The Auditor observed and made note of the video monitoring system and camera placement throughout the facility, including reviewing the monitors in the control rooms. During the review of the physical plant, the Auditor observed the facility layout, staff supervision of offenders, security rounds, interaction between staff and offenders, shower and toilet areas, placement of PREA posters, observation of availability of PREA information located adjacent to and in the inmate housing areas, observation of communication in general population housing areas, as well as restrictive housing cells, search procedures, and availability and access of medical and mental health services. The Auditor noted that the shower areas in the offender housing areas are appropriately private, but not so secluded as to present a security issue. Security staff regularly monitor the showers during their rounds to ensure this is not a safety issue. Throughout the tour, the Auditor was observing for blind spots in the facility and the overall level of offender supervision. Due to COVID related restrictions, programs were not being conducted yet in order to minimize movement and help minimize the spread of the virus. However, they are scheduled to restart soon and staff is in the process of re-educating the volunteers on facility policy, including PREA.

After the completion of the physical plant review and tour, the Auditor began interviewing random and specialized staff, as well as reviewing additional documentation on site. The Auditor observed and spoke with staff on the evening shift on the second day of the onsite portion of the audit. On day two, the Auditor conducted additional specialized staff interviews and completed the random and specialized inmate interviews. Final document and file review were conducted on day three, including training, personnel and offender files. The investigative files were reviewed on day three and an exit conference was conducted with the following staff to discuss the audit results, questions and any needed follow-up:

- Warden Jessie Ferguson
- PCM Kevin Hayes
- CTO Lisa Wegner
- Deputy Warden Arnold Chisolm
- Deputy Warden Jessica Durrett
- Major Harper
- Captain Josh Mellick
- Lt. Hartman

- Jeremy Mellick, Training

- Locksmith Brandon Miller
- Scott Miller, Business Office
- Tabitha Nichter, Business Office
- Shannon Butrum, Assistant Director of Compliance
- Pamela Clayton, PREA Coordinator

**Staff Interviews:**

The Auditor began conducting random and specialized staff interviews on day one of the onsite audit. The Auditor was provided a private space to conduct the confidential interviews. All staff were made available in a timely manner. No staff refused to be interviewed when requested by the Auditor. Overall, a total of 33 staff were interviewed during the on-site review. Included in the interviews was 13 random staff representing two shifts over three days, 0700 to 1900 and 1900 to 0700. The Auditor was provided a roster for each shift working the days the interviews were conducted, as well as a roster for daylight staff not included on the shifts. Specialty staff interviewed included medical, mental health, investigators, intermediate level supervisors, staff who perform risk assessments, classification, intake staff, and staff on the incident review team. Also interviewed were the Warden, Human Resources, Training and The PREA Compliance Manager and Coordinator. Due to Covid related protocols, most programming was not being held at the time of time on-site audit and some staff, including volunteers were not available to interview in person. The Auditor did speak with two volunteers via telephone. All interviews were conducted using
appropriate social distancing and masks by both the auditor and interviewee. All staff interviews were conducted using the established DOJ interview protocols.

Inmate Interviews:
The Auditor began conducting inmate interviews on day two of the on-site portion of the audit. Based upon the inmate population on day one of the audit (988), the PREA Auditor Handbook required that the auditor interview a minimum of 30 inmates, 15 random and 15 targeted. All interviews with inmates occurred in a secure area away from the inmate housing units to ensure privacy. All interviews were conducted using appropriate social distancing and masks by both the auditor and interviewee.

There were 988 male offenders housed in the facility during the on-site review. The Auditor was provided an offender roster and randomly selected offenders from each housing area to be interviewed. A total of 34 offenders was interviewed. On the morning of day two of the on-site portion of the audit, the staff provided the Auditor a list of inmates arranged by housing unit as well as a list of inmates who were identified as the targeted populations. Inmates in all of the targeted categories were identified with the exception of Inmates in Segregated Housing for High Risk of Sexual Victimization and Inmates Who Had Reported Sexual Abuse. The facility does not move inmates to restrictive housing for sexual victimization unless they request to be there. RCC does not have restrictive housing cells. If a sexual assault victim requested RH, they would be moved to the adjacent facility. In addition, there were no inmates identified as having reported sexual abuse. Any inmates that had reported sexual abuse during the audit period had been transferred. The facility does not hold Youthful Offenders. The facility did not have any Youthful Offenders at the time of the on-site review and have not had any during the audit period.
If a randomly selected inmate refused to be interviewed, an additional inmate from the same housing area would be selected in an attempt to get a cross section from the entire general population. There were four inmates selected to be interviewed that refused. Other inmates in the same housing area were randomly selected to replace the ones that refused. Due to COVID related precautions and protocols, inmates from quarantined housing areas were not selected to be interviewed. These inmates were not able to be moved out of the housing units at the time.

Offender interviews were conducted using the established DOJ interview protocols. Offenders were also asked about their perceptions of the sexual safety of the facility and whether they felt the staff would take reported allegations seriously. The offenders felt that the facility staff took their sexual safety seriously and made PREA compliance a priority.

On-Site Document Review:

On all three days of the on-site portion of the audit, the Auditor conducted a document review of employee and inmate files, and a spot check of documents that were previously provided to the auditor along with the PAQ. The Auditor reviewed a random sampling of personnel files to determine compliance related to standards on hiring and promotion and background check procedures for officers and contract staff. The Auditor reviewed a random sampling of staff training files to determine compliance with training standards. The training coordinator explained the process for relaying the mandated PREA information to new hires, as well as the procedure for annual refresher training. The training staff provided a roster of all PREA related training for the year. Random offender case files were reviewed to evaluate intake procedures, including screening and subsequent housing decisions, and verify offender PREA education. In addition, the intake and receiving procedures were observed and intake screenings are conducted in private.

The Auditor requested additional supporting documentation to include: training records for randomly chosen staff, randomly chosen inmate medical records, randomly chosen inmate classification records, volunteer records, contractor records, and staff personnel files including PREA disclosure forms for hiring and promotions, if applicable.

Employee Files: The Auditor randomly selected employee files by using the employee roster. The files were separated into two types, personnel and training.
Inmate Files: The Auditor selected inmate classification files without regard or notice of housing type, housing location, conviction status or time of incarceration. Inmate files are kept electronically in KOMS (Kentucky Offender Management System), with each staff member having a unique logon and credentials with varying degrees of access depending on job title and clearance level. There are a limited number of staff including classification staff, records personnel, and facility administration that have access to the records. In addition, all medical records are maintained electronically, and only medical personnel and certain jail administration have access. The Auditor reviewed 15 inmate files to ensure initial screening, re-assessment and inmate education was completed. All files were found to be in compliance.

Training Rosters: The auditors reviewed the annual PREA training rosters maintained by the training staff and cross referenced the staff files with the training rosters to ensure training was verified. The auditor received and reviewed training records for all facility staff.

Investigative Files: The Auditor reviewed the investigative files for the 22 allegations of PREA related misconduct during the previous 12 months.

The Auditor reviewed the investigative files, which included interview notes, medical as well as mental health records and findings. There was one investigation that resulted in a finding of criminal activity and was referred to the KSP for review and investigation.

The Auditor verified the availability of SANE/SAFE services at University of Louisville Hospital.

Exit Interview:

The Auditor was treated with great hospitality during the entirety of the visit and was given unimpeded access to all areas of the facility during the review. The Auditor conducted the exit conference on the afternoon of the third day, November 3, 2021. Present were Auditor Lori Fadorick, Warden Jessie Ferguson, PCM Kevin Hayes, CTO Lisa Wegner, Deputy Warden Arnold Chisolm, Deputy Warden Jessica Durrett, Major Harper, Captain Josh Mellick, Lt. Hartman, Lt. Wilson, Jeremy Mellick, Training, Andrew Byrd, Training, Locksmith Brandon Miller, Scott Miller, Business Office, Tabitha Nichter, Business Office, Shannon Butrum, Assistant Director of Compliance, Pamela Clayton, PREA Coordinator. The facility administration was open in the discussion of the PREA program at the facility and receptive to the feedback received from the Auditor. The Auditor highlighted the success of the audit and outlined a plan to move forward. There was no corrective action noted by the auditor.

Post On-site Phase:

The Interim report has been completed. As there was no corrective action measures required, the interim report is considered the final report.

Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Roederer Correctional Complex is situated approximately 3 miles south of LaGrange, Kentucky and approximately 20 miles north of Louisville, Kentucky. Roederer Correctional Complex opened on August 28, 1976, originally as a 150 bed minimum-security "work camp" institution to operate a 3,000 acre prison farm.
On December 1, 1987, RCC was converted to a medium/minimum security institution with 100 medium and 152 minimum custody inmates. The institution underwent another major transition on May 1, 1989, when it was transformed to the Assessment and Classification Center for the Kentucky Department of Corrections for all incoming state prisoners, excluding inmates that received the death penalty.

The physical plant consists of a total of 1238 beds, 930 of which are medium security beds within the fenced perimeter. There are 200 of the medium custody inmates that are permanently assigned inmates, which provide support services for the institution. These inmates proved the basic services to the institution such as Food Service, Laundry, Legal Aide Office, Grievance Office, Janitorial, etc. The remaining 730 medium security beds are utilized to house inmates entering the system as part of the Assessment Center for the Department of Corrections. There are 200 minimum custody beds for inmates participating in the Substance Abuse Program. Additionally, there are 108 minimum custody beds located outside the fence. These minimum custody inmates also provide support services for the institution such as Maintenance, Warehouse, Horticulture Program, and the Farm Operation.

Roederer Correctional Complex has 3 distinct purposes:

1. The Assessment and Classification Center processes all incoming male felons with the exception of those sentenced to death row. In 2021, so far (as of the date of the onsite review) the facility had processed 1652 new intakes. The assessment Center is also responsible for all sentence calculations of felons in Controlled Intake and for classifying felons for the Class D Program.

2. Roederer Correctional Complex permanent inmates provide support services for the institution including inmates who work in the Maintenance Department, Kitchen, Laundry, Legal Office, Grievance Office, etc. There are 108 minimum custody inmates that maintain the 3,000 acre farm and currently 703 head of cattle. The permanent inmate population at this institution totals 308 at full capacity.

3. The Substance Abuse Treatment Program is a 200-bed intensive in-patient treatment unit for minimum and community custody inmates. Treatment is facilitated through inmate mentors (former program graduates), treatment staff, security staff, community mentors and volunteers.

RCC offers a variety of educational and work opportunities for inmates. There are vocational programs, as well as Adult Basic Education programming which offers high school equivalency diploma (GED) literacy and life skills to students who have not earned a traditional high school diploma. RCC’s academic programming is held to the same high standards as the state of Kentucky’s public educational programs.

Video monitoring systems are strategically placed throughout the facility to enhance security and surveillance. There are 220 installed cameras in the facility, of which 213 are operational. Security rounds are conducted at a minimum twice hourly.

The facility currently employees 233 staff members who have contact with inmates. The facility currently has 85 total vacancies, which is a 51% correctional officer vacancy rate. Mandatory posts are covered and a preferred staffing level is mandated and monitored by the Deputy Warden and Warden. Deviations from the staffing plan are documented.

The RCC offers various types of programs and religious services for inmates and promotes rehabilitation that gives inmates knowledge, skills, and abilities that aid in a productive life. The RCC provides for onsite mental health and medical services, which includes 24/7 medical personnel on site.

The facility’s chief executive is Warden Jessie Ferguson. The RCC, through the KYDOC has an MOU with Kentucky Association of Sexual Assault Programs (KASAP) to provide advocacy and support services for victims of sexual assault. The Auditor has verified the agreement with KASAP.

All staff, contractors and volunteers undergo a criminal records check and background investigation and orientation which includes PREA training prior to assuming any duties requiring contact with inmates.
The Roederer Correctional Complex has more than 200 cameras monitoring all areas of the facility. They are in the process of updating the camera system. RCC has 20 cameras that will be installed at the back of each housing unit, pointing forward in order to give more coverage and better clarity of the views of the housing areas. The cameras can be accessed from the Central Control, the Captain’s office and each unit can view their cameras.

Food services is provided by Aramark. All inmates are required to work in the kitchen for 90 days unless they have a medical exemption. There are approximately 87-89 workers assigned to the kitchen.

The facility has both inside and fresh air recreation areas for inmates and other multipurpose areas for use as classrooms and other programming. There are inmate work programs such as laundry services, food service, maintenance, housekeeping, outside detail and vocational programs. The working conditions consist of detention officer supervision and monitoring by recording CCTV devices. All inmate movement is controlled by staff and observed by CCTV. There are three towers that monitor the outside activities. Inmates in work programs are supervised by detention officers and pat searches are conducted by officers of the same gender, absent exigent circumstances. There are private areas provided for conducting strip searches. The facility has a newly acquired body scanner, but has not begun using this yet. RCC will begin using this after staff is fully trained.

The auditor conducted an inspection of the physical plant and observed that there is a large number of recording CCTV cameras in place throughout the facility. However, their presence provided adequate privacy for inmates to perform bodily functions and change clothes. The shower areas were appropriately private, but not so secluded as to create an area for potential abuse. The common toilet areas are appropriately private. The lighting around the facility was bright and there were no obvious blind spots. There were very few areas where staff and inmates would be isolated, and in those areas, there was recorded CCTV coverage. Overall, the administration has taken steps to assure that the sexual safety of both staff and inmates is a priority.

As of the first date of the onsite review, RCC had 12 Covid positive inmates and 103 inmates on quarantine status. The facility has a very impressive 96% vaccination rate. There were 2 Covid positive employees and 2 employees on quarantine status. The facility was on a full institutional lockdown from 12/23/20-2/12/21.

### Summary of Audit Findings

*The summary should include the number and list of standards exceeded, number of standards met, and number and list of standards not met.*

**Auditor Note:** No standard should be found to be “Not Applicable” or “NA”. A compliance determination must be made for each standard.

**PREVENTION PLANNING**

**Standard 115.11: Zero tolerance of sexual abuse and sexual harassment; PREA coordinator**

All Yes/No Questions Must Be Answered by The Auditor to Complete the Report

115.11 (a)

- Does the agency have a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment? ☒ Yes ☐ No
- Does the written policy outline the agency’s approach to preventing, detecting, and responding to sexual abuse and sexual harassment? ☒ Yes ☐ No

115.11 (b)

- Has the agency employed or designated an agency-wide PREA Coordinator? ☒ Yes ☐ No
- Is the PREA Coordinator position in the upper-level of the agency hierarchy? ☒ Yes ☐ No
- Does the PREA Coordinator have sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities? ☒ Yes ☐ No

115.11 (c)

- If this agency operates more than one facility, has each facility designated a PREA compliance manager? (N/A if agency operates only one facility.) ☒ Yes ☐ No ☐ NA
- Does the PREA compliance manager have sufficient time and authority to coordinate the facility’s efforts to comply with the PREA standards? (N/A if agency operates only one facility.) ☒ Yes ☐ No ☐ NA

☒ Exceeds Standard *(Substantially exceeds requirement of standards)*

☐ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 3.22, 14.7
3. RCC Organizational Chart
4. Interviews with Staff including the following:
   a. PREA Coordinator
   b. Warden
   c. PCM
5. Interviews with Inmates
6. Observations during on-site review

The Auditor reviewed the KYDOC Policies. The Department has a comprehensive PREA policy which clearly mandates a zero-tolerance policy on all forms of sexual abuse and harassment. The language in the policy provides definitions of prohibited behaviors in accordance with the standard and includes notice of sanctions for those who have been found to have participated in prohibited behaviors. The definitions contained in the policy are consistent and in compliance with PREA definitions. The policy details the agency overall approach to preventing, detecting and responding to sexual abuse and harassment. The culture of “zero tolerance” is apparent throughout the facility as evidenced by informational posters and interactions and interviews with both offenders and staff. The zero-tolerance mandate is taken seriously by the staff at the facility and this is reflected in the offender interviews.

The KYDOC designated Shannon Butrum as the PREA Coordinator as of November 13, 2019. Under Ms. Butrum’s leadership, she streamlined and standardized many of the processes and forms for the Department, making reporting, tracking and data collection much more efficient. She is a dedicated professional who has the respect of her peers, subordinates and supervisors.

On October 18, 2021, Ms. Butrum was promoted to Assistant Director of the Compliance Division and Ms. Pamela Clayton assumed the role of Statewide PREA Coordinator. All 14 PREA Compliance Managers report to Ms. Clayton. By virtue of her position, she has the authority to develop, implement and oversee the Department’s efforts to comply with PREA standards. There appears to be an open line of communication between all levels of staff at the Department and facility levels. Ms. Clayton is involved in the implementation efforts, as well as handling and reviewing individual offender issues.
She has already been working in the Compliance Department, assisting Ms. Butrum and will continue all the processes put in place.

The RCC has designated Kevin Hayes as the PREA Compliance Manager. Kevin is a Correctional Unit Administrator II. A review of the organizational chart reflects this position in organizational structure. Mr. Hayes reports that he has sufficient time and by virtue of his position as PCM, the authority to develop, implement and oversee the facility’s efforts to comply with PREA standards. There appears to be an open line of communication between all levels of staff at the facility and Mr. Hayes indicated he is involved in the implementation efforts, as well as handling and reviewing individual offender issues.

Interviews with inmates indicated that they felt safe in the facility and feel that the staff take sexual assault and sexual harassment seriously. The offenders reported that every incident was investigated thoroughly and efficiently. The majority of the inmates felt comfortable reporting to staff at the facility and stated there was staff members that they trusted that they could go to and were confident any allegation would be handled appropriately and promptly.

Interviews with staff indicated that they were trained in and understood the zero-tolerance policy established by the RCC. They understand their role with regard to prevention, detection and response procedures.

In addition to the designated PREA Compliance Manager, KYDOC has designated a back-up PCM to assist in overseeing PREA compliance efforts at the facility.

A targeted interview with the Warden indicated that she felt that one of RCC’s strengths was that they are very good at being proactive with corrective action.

After a review, the Auditor determined the facility exceeds the requirements of the standard.

Corrective Action: None

Standard 115.12: Contracting with other entities for the confinement of inmates

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.12 (a)

- If this agency is public and it contracts for the confinement of its inmates with private agencies or other entities including other Policy for government agencies, has the agency included the entity’s obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) ☒ Yes ☐ No ☐ NA

115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) ☒ Yes ☐ No ☐ NA

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. Memo
3. Interviews with Staff including the following:
   a. PREA Coordinator
   b. Contract Monitor

The KYDOC has included language in all contracts (Master Agreements) to ensure that all contracted facilities comply with provisions of PREA. Targeted interviews with both the Contract Monitor for the agency and the PREA Coordinator confirm that all related contracts include language requiring compliance with PREA standards.

The Roederer Correctional Complex (RCC) does not house inmates contracted by other entities or contract with other entities to house RCC inmates. RCC only houses state inmates and the Kentucky Department of Corrections contracts with halfway houses through Master Agreement to house state inmates.

After a review, the Auditor determined the facility meets the requirements of the standard.

Corrective Action: None

Standard 115.13: Supervision and monitoring

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.13 (a)

- Does the facility have a documented staffing plan that provides for adequate levels of staffing and, where applicable, video monitoring, to protect inmates against sexual abuse?

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Generally accepted detention and correctional practices?
☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any judicial findings of inadequacy? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any findings of inadequacy from Federal investigative agencies? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any findings of inadequacy from internal or external oversight bodies? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any findings of inadequacy from internal or external oversight bodies? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: All components of the facility's physical plant (including “blind-spots” or areas where staff or inmates may be isolated)? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: The composition of the inmate population? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: The number and placement of supervisory staff? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: The number and placement of supervisory staff? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any applicable State or local laws, regulations, or standards? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: The prevalence of substantiated and unsubstantiated incidents of sexual abuse? ☒ Yes ☐ No

- In calculating adequate staffing levels and determining the need for video monitoring, does the staffing plan take into consideration: Any other relevant factors? ☒ Yes ☐ No

115.13 (b)

- In circumstances where the staffing plan is not complied with, does the facility document and justify all deviations from the plan? (N/A if no deviations from staffing plan.) ☐ Yes ☐ No ☒ NA

115.13 (c)

- In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The staffing plan established pursuant to paragraph (a) of this section? ☒ Yes ☐ No
- In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The facility’s deployment of video monitoring systems and other monitoring technologies? ☒ Yes ☐ No

- In the past 12 months, has the facility, in consultation with the agency PREA Coordinator, assessed, determined, and documented whether adjustments are needed to: The resources the facility has available to commit to ensure adherence to the staffing plan? ☒ Yes ☐ No

115.13 (d)

- Has the facility/agency implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment? ☒ Yes ☐ No

- Is this policy and practice implemented for night shifts as well as day shifts? ☒ Yes ☐ No

- Does the facility/agency have a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility? ☒ Yes ☐ No

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 3.22
3. Staffing Plan Guide
4. Staffing Plan Review 11-6-2020
5. Interviews with Staff
6. Interviews with Inmates
7. Unannounced rounds
8. Observations during on-site review

Interviews with the following:
Observation of the following:

- Observation of unannounced rounds by supervisors as well as auditors during the site review
- Observation of supervisors documenting rounds in the daily logbooks on the duty post during the site review

The RCC has a comprehensive staffing plan that addresses all required elements of the standard. The staffing plan addresses staffing in each area, staffing ratios, programming, facility layout, composition of the inmate population, video monitoring and other relevant factors. The most recent review of the staffing analysis was completed on November 6, 2020 at the PREA Staffing Plan Meeting. The facility staffing is based upon a multi-faceted formula to determine the number of staff needed for essential positions. There were no deviations from the staffing plan during this audit period due to mandated overtime.

The average daily population since the last PREA Audit is 1061. The auditor reviewed the facility’s current staffing plan as well as the most recent staffing plan review. In that review, they have documented that they have considered all of the elements from standard 115.13 (a) (1-15) as part of the review. During a targeted interview with the Warden, the auditor verified the review of the annual staffing plan. In addition, during the targeted interview with the Warden, she stated that she does consider the use of CCTV in considering the staffing plan. There are additional upgrades planned in the future. They have 20 cameras to be installed at the back of each housing area. The Warden told the auditor during the targeted interview that constantly review operations and will add cameras where needed.

If there is an instance where the facility did not comply with their staffing plan, that instance would be reported to the Deputy Warden and/or the Warden and it would be reviewed. There has been one instance notated where they were out of compliance with the staffing plan. This occurrence was documented. During the on-site portion of the audit and review of the on-duty personnel, the auditor found them to be following the staffing plan.

The auditor reviewed the most recent annual review, and the facility’s review was in compliance with the elements of 115.13(a). In addition, during the on-site review, the auditor reviewed the deployment of CCTV monitoring. The facility has a camera surveillance system comprised of multiple monitors located in the control room. These screens are monitored by staff at all times. The cameras are accessible from multiple locations in the facility, including the Captain’s office. Each unit control can view the cameras in that area. These cameras have zoom capability. The most recent review of the staffing plan indicated the video monitoring system and placement of cameras were reviewed. RCC continually adjusts and reallocates cameras, and installs new cameras throughout the year. RCC currently has 213 operational cameras. A new server was installed which will allow the increase and capability of having additional cameras and longer recording times. RCC continues to monitor and prioritize where additional cameras will be installed.

The staffing plan does require any deviations be documented and justified. Notations and daily deviations from the regular staffing plan are notated on the shift roster by the Captain. The Captain ensures that staffing does not fall below the minimum required. According to the PAQ there has been one instance of non-compliance with the staffing plan.
The staffing plan appears satisfactory in the agency’s efforts to provide protection against sexual abuse and harassment. The Auditor observed cameras in all areas of the facility. There appeared to be open communication between staff and inmates. Inmates seemed to be comfortable approaching staff with questions and the Auditor observed formal and informal interactions between staff and inmates.

In the PAQ, the agency reports that they conduct unannounced rounds on all shifts. A review of the KYDOC policies indicated that policy requires that supervisors will conduct and document unannounced rounds each shift, and that there is a prohibition against staff alerting other staff of the rounds. During the pre-audit phase, the facility provided the auditor a sample of documentation of unannounced rounds for each shift. This documentation sampling verified that unannounced rounds were conducted during all shifts. During the on-site portion of the audit, the auditor reviewed logbooks that verified that unannounced rounds were recorded daily. It is clear through observation that supervisors and administrators are conducting unannounced rounds and that the offenders are comfortable approaching and speaking with them. Interviews with supervisors, as well as line staff and inmates indicate that the rounds are unannounced and random and that there’s no way for the staff to alert each other when the supervisors are coming through because there is no pattern or routine to the rounds. During the site review, the auditor informally spoke with staff and asked about unannounced rounds. All of the staff informally interviewed told the auditor that supervisors came on the duty posts frequently during their shifts and reviewed their logs and they really never knew when they were going to show up.

After a review, the Auditor determined that the facility meets the requirements of the standard.

**Standard 115.14: Youthful inmates**

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.14 (a)

- Does the facility place all youthful inmates in housing units that separate them from sight, sound, and physical contact with any adult inmates through use of a shared dayroom or other common space, shower area, or sleeping quarters? (N/A if facility does not have youthful inmates [inmates <18 years old].) □ Yes □ No ☒ NA

115.14 (b)

- In areas outside of housing units does the agency maintain sight and sound separation between youthful inmates and adult inmates? (N/A if facility does not have youthful inmates [inmates <18 years old].) □ Yes □ No ☒ NA

- In areas outside of housing units does the agency provide direct staff supervision when youthful inmates and adult inmates have sight, sound, or physical contact? (N/A if facility does not have youthful inmates [inmates <18 years old].) □ Yes □ No ☒ NA
115.14 (c)

- Does the agency make its best efforts to avoid placing youthful inmates in isolation to comply with this provision? (N/A if facility does not have youthful inmates [inmates <18 years old].)
  ☐ Yes ☐ No ☒ NA

- Does the agency, while complying with this provision, allow youthful inmates daily large-muscle exercise and legally required special education services, except in exigent circumstances? (N/A if facility does not have youthful inmates [inmates <18 years old].) ☐ Yes ☐ No ☒ NA

- Do youthful inmates have access to other programs and work opportunities to the extent possible? (N/A if facility does not have youthful inmates [inmates <18 years old].) ☐ Yes ☐ No ☒ NA

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 3.22, 14.7, 9.8
3. Strip Search Log
4. Lesson Plan for Searches
5. Memos
6. Training Rosters
7. Interviews with Staff
8. Interviews with Inmates

Interviews with the following:
- Training staff
- Random Staff
- Medical Staff
- Random Inmates

Observation of the following:
- Observation of inmate housing area
- Observation of CCTV coverage of housing areas and individual protective cells
- Observation of staff announcing the presence of opposite gender staff during site review

The RCC does not conduct cross-gender strip searches or cross-gender visual body cavity searches except when performed by medical practitioners. There is no exigent circumstance exception in the policy. Interviews with staff, including medical personnel indicate operational practice is consistent with this policy. The facility reports in the PAQ and verified through staff interviews that no cross-gender strip searches or visual body cavity exams have occurred. The RCC only holds male offenders.

The KYDOC policies prohibit cross-gender strip searches and cross-gender visual body cavity searches except when performed by medical personnel. The facility reports on the PAQ and verified through interviews that no cross-gender strip searches or visual body cavity searches have occurred. KYDOC policy states that inmates are able to shower, change clothes and perform bodily functions without nonmedical staff of the opposite gender viewing their breasts, buttocks or genitalia, except in exigent circumstances or incidental to routine cell checks. The toilet areas had modesty shielding and the showers were adequately private. A review of CCTV coverage in common areas and individual protective cells revealed that the cameras were pointed away from toilet areas or covered.

The policy states that staff of the opposite gender shall announce their presence when entering an inmate housing unit. Female officers can supervise the male housing units. There are multiple safeguards in place to ensure that offenders are aware that female staff are on duty. There are announcements made and it is logged. In addition, there is a “female on duty” sign posted. Informal and formal random inmate interviews indicated that there is not an issue with them being able to change clothes, shower or perform bodily functions without the female officers seeing them and that there is a mutually respectful relationship between the staff and offenders. Offender interviews indicated that announcements are being made when opposite gender staff enter the housing units. Random inmate interviewed indicated that the inmates know when a female officer is working their floor and enters the housing unit. Staff interviews also indicate the offenders’ privacy from being viewed by opposite gender staff is protected. Curtains and partitions afford offenders appropriate privacy while still affording staff the ability to appropriately monitor safety and security. Cameras are placed appropriately so that shower and toilet areas are not in view.

RCC policy prohibits searching or physically examining a transgender or intersex offender for the sole purpose of determining the offender’s genital status. According to targeted interviews with medical staff and review of logs during the on-site portion of the audit, no inmate has been examined for the purpose of determining gender status. During staff interviews, when asked what they would do if they were unable determine an offender’s gender or genital status, all the staff were clear in their understanding and stated that they could determine this information other ways, including asking the offender.
During the pre-audit portion of the audit, the auditor reviewed the training presentation that is provided to all employees regarding how to conduct cross-gender pat down searches as well as how to properly search transgendered and intersex inmates in accordance with this standard. According to the PAQ, 96% of all employees in the last 12 months received this training. The Training staff also provided a sample of training verification files, which the auditor could match to the training roster provided. During the on-site document review of employee files, the auditor verified the documents in the employee files provided during the pre-audit phase. KYDOC policies require all staff to be trained on how to conduct searches, including those of transgender and intersex offenders. Staff indicated that they are trained to do cross-gender searches at the academy and were generally able to articulate to the Auditor how they would accomplish a search of a transgender inmate. Targeted interviews with the training staff indicate officers are trained on how to do searches of transgender and intersex offenders during their initial training, as well as during in-service. The Auditor reviewed the training outline, as well as reviewed random training files. The training staff provided the auditor with a print out of all completed in-service for the year thus far. During the random staff interviews, all employees interviewed recalled being provided training on how to perform cross-gender pat down searches as well as how to search transgendered or intersex inmates. The training staff do an excellent job of discussing and reviewing training topics related to transgender inmates.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Forms and pamphlets
4. Deaf Handout
5. Review of PREA training curriculum with section on effective communications
6. Employee training rosters for the past 12 months
7. PREA Training Video in English and Spanish and with subtitles
8. Written Agreement with commercial interpreter service as well as utilization documentation
9. Interviews with Staff
10. Interviews with Inmates

Interviews with the following:
- PREA Compliance Manager
- Random Staff
- Classification Staff
- Intake Staff
- Inmates who have limited English proficiency and cognitive disabilities

Observation of the following:
- Observation of Interpretive Service access posters in classification as well as booking area

The RCC takes appropriate steps to ensure that offenders with disabilities, including those who are deaf, blind or have intellectual limitations have an equal opportunity to participate and benefit from all aspects of the facility’s efforts to prevent, detect and respond to sexual abuse and harassment. KYDOC policy is written in accordance with the standard and indicates that during intake, offenders determined to have disabilities will have accommodations made to ensure that materials are received in a format or through a method that ensures effective communication. Interviews with the PREA Coordinator and PCM indicate that the RCC ensures that any offenders with significant disabilities that required any special accommodations would be identified at intake and this would be notated in KOMS. Staff would ensure the offender was able to fully participate and benefit from all aspects of the facility’s efforts to prevent and/or respond to sexual abuse and harassment.

Interviews with staff, including supervisory staff and intake officers confirm that they have a process in place to ensure that all inmates, regardless of disability would have equal access to PREA information.
Staff, including intake officers, the PREA Compliance Manager, and case managers during random and informal interviews indicated that they had several offenders with disabilities or special needs that required accommodations to have access to the PREA information and protections. The Auditor observed PREA informational posters throughout the facility in both English and Spanish. Spanish is the prevalent non-English language in the area. During both formal and informal interviews with staff responsible for intake and classification, when asked how they ensured that inmates with disabilities were provided access to the PREA program, staff indicated that it would depend on the type and severity of the disability, but they have options on a case-by-case basis. Some staff suggested using their telephone based interpretive service for LEP inmates. When asked how they would respond to the needs of an individual with a cognitive disorder or severe mental illness, staff told the auditor that it would depend on the level of impairment and the specific communication needs of the inmate. The facility has the PREA brochure in a variety of formats, including braille, large print, and information for deaf or hard of hearing.

During a targeted interview with the Warden, she stated that it was important for them to do everything right because it was the offenders’ first interaction with the Department of Corrections.

As a reception center for the KYDOC, it is important to accurately identify, document and keep track of all inmates with disabilities. This ensures continuity when they are transferred throughout the Department. RCC does an excellent job of collecting and maintaining this information.

KYDOC policy indicates that offenders who are limited English proficient have access all aspects of the facility’s efforts to prevent, detect and respond to sexual abuse and harassment, including providing interpreters. The Auditor determined through staff interviews that the RCC has interpreters available for limited English proficient offenders through the use of a telephone-based interpreter service. RCC does not have a contract, but will use the Language Line to provide interpreter services to the inmates if needed. The auditor verified the availability of this service. The facility indicated through memo and on the PAQ that this service was not used during this audit cycle.

During the on-site portion of the audit, the Auditor was able to speak with one inmate who had been identified as having a cognitive disability. During the targeted interview, the inmate was able to answer the auditor’s questions and was aware of PREA. There were two inmates identified as limited English proficient. However the inmates spoke English well enough to do the interview without the use of the interpreter service. It should be noted that the auditor did not come into contact with any inmates who did not speak English during the site review. During random staff interviews, several noted that there are staff that speak Spanish.

The Auditor also interviewed two inmates that were identified as hearing impaired. During the targeted interviews, the inmates were able to answer the auditor’s questions and were aware of PREA. RCC has access to the Video Remote Interpretation (VRI) system, which allows a hearing person and a deaf person who signs to communicate with each other. RCC has not had an incident where staff had to utilize this system to address any PREA issue.

The KYDOC policy prohibits the use of inmate interpreters except in instances where a significant delay could compromise the offender’s safety. Interviews with staff indicate that offenders are not and would not be used as interpreters. During the random staff interviews, staff members stated it was not appropriate to use an inmate interpreter when responding to allegations of inmate sexual abuse. According to the targeted interview with the PCM and a memo in the file, as well as the PAQ, there were no instances of the use of an inmate interpreter even in exigent circumstances.
The annual in-service staff training includes a 2-hour module on Communicating with Deaf and Hard of Hearing inmates. In addition, the facility has the PREA related information and handouts in a multitude of formats above and beyond the minimum.

After a review, the Auditor determined the facility exceeds the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 3.1, 3.6
3. Hiring Background Packet
4. Annual Background Check on All Employees
5. Review of recently promoted employee files from the past 12 months
6. Reviews of randomly selected employee files
7. Review of randomly selected volunteer files
8. Background Information on Contract Employees hired within the last 12 months
9. Background Information on Medical Employees
10. Interviews with PREA Coordinator, Investigator and Human Resources

Findings:

The RCC does not hire any staff that has engaged in sexual abuse or harassment as stipulated in the standard. The language in the KYDOC policy is written consistently with that in the standard. The Auditor reviewed the background packet and interview questions used by the KYDOC and RCC and found that they are asking these questions during the interview process to determine if they are hiring anyone who has engaged in prohibited conduct. Interviews with staff confirm that they are asking these questions during the interview process for applicants. Staff indicated that the background investigator thoroughly vets any prospective employee and asks directly about previous misconduct as required by the standard. The document review on-site and interviews with the PREA Coordinator, Warden and Human Resources Manager confirmed that they have complied with this policy and no employee with such a history has been hired during the audit period.

The policy indicates that the RCC will consider any instances of sexual harassment in determining whether to hire or promote anyone, or enlist the services of contractors who may have contact with inmates. A targeted interview with Human Resources stated that instances of sexual harassment would be a factor when making decisions about hiring and promotion, however there had been no incidents. Every employee and contractor undergoes a background check and is not offered employment if there is disqualifying information discovered.
There is a written policy that requires inquiry into a promotional candidate’s history of sexual abuse or harassment. Documentation reviewed supports compliance with the standard in accordance with agency policy. During the on-site portion of the audit, the Auditor reviewed files of employees that were hired in the last 12 months. According to the PAQ, there were 46 staff hired in the past 12 months. All of the employees’ files reviewed contained background checks and pre-employment questionnaires where employees were asked the questions regarding past conduct and their answers were verified by a background investigation. The auditor also reviewed files of employees who were promoted in the last 12 months. The acknowledgement was completed for employees who had participated in the promotional process.

KYDOC policy requires inquiry into the background of potential contract employees regarding previous incidents of sexual assault or harassment. Consistent with agency policy, all employees and contractors must have a criminal background records check prior to employment. Staff at the RCC complete criminal background checks for all prospective applicants and contractors, prior to being offered employment. Staff verified this information in interviews discussing the background process. In addition, the RCC uses a checklist for the background process, which verifies all steps have been completed, including the criminal history check. The Human Resource Manager stated that if a prospective applicant previously worked at another correctional institutional, they make every effort to contact the facility for information on the employee’s work history and any potential issues, including allegations of sexual assault or harassment, including resignation during a pending investigation. There is a standardized form that is used when prospective employees are transferring between KYDOC facilities, which is sent via email to the HR Manager of the previous facility.

In accordance with the standard, KYDOC policy requires background checks be conducted on facility staff and contract staff a minimum of every five years. RCC Records staff does background checks through NCIC and Courtnet. Documentation of background checks was provided by the facility and reviewed by the auditor. This was last completed in 2019. Targeted interviews with facility administrators revealed that an employee engaging in any type of misconduct such as listed in the standard would not be retained.

The RCC asks applicants and contractors directly about misconduct as described in the standard using a Self-Declaration form during the application process. These forms are maintained in their respective personnel files. The Auditor reviewed random files and verified these forms are being completed. Interviews with staff indicated that the forms are being completed as required by the standard and agency policy. KYDOC policy stipulates a continuing affirmative duty to disclose any PREA related misconduct. All current and new staff are trained on the PREA policy, as well as annual refresher training. Training records verifying that employees acknowledge that they have read and understand the policy were reviewed by the auditor.

In accordance with the standard, policy stipulates that material omissions regarding such conduct, or the provision of materially false information shall be grounds for termination. Interviews with staff verified that the RCC would and has terminated employees for engaging in inappropriate behavior with inmates, upon learning of such misconduct.

KYDOC policy indicates that the facility shall provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer and a signed release of information. Human Resource staff stated that most surrounding agencies would share information out of professional courtesy and are required to share information within the agency on transferring employees. Staff indicated they would share information upon request from another facility regarding a former employee.
The RCC uses a disclosure/acknowledgement form that asks the required questions of applicants to determine prior prohibited conduct. The hiring process includes requiring the investigator to make his/her best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

After a review, the Auditor determined the facility meets the requirements of the standard.

2. KYDOC 7.1
3. Schematic of facility
4. Interviews with PCM and Warden
5. Observation of camera placement and footage
6. Memo
7. Staffing Plan Review 2021

Findings:

According to the RCC PAQ and targeted interviews with the PCM and Warden, the RCC has made upgrades to the camera system since their last PREA audit. A targeted interview with the Warden indicates that they have plans to add more cameras in the future, some of which have already been purchased and are just awaiting installation. These cameras will be installed at the back of each housing unit, pointing forward in order to give more coverage and better clarity of the views of the housing areas. Currently RCC has 220 cameras installed, 213 of which are operational. Previous upgrades to the camera system include the addition and replacement of several cameras. In addition, RCC replaced the camera server, which gives them longer recording times.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. KSP Evidence Protocol and Guide
4. MOU with KASAP
5. Memo
6. Review of incident logs

Interviews with the following:
- PCM
- Investigator
- Agency Administrator
- Medical personnel

Findings:

The RCC is responsible for only administrative investigations. The facility follows a uniform protocol for investigating allegations of sexual abuse that maximizes the possibility of collecting usable evidence and trains facility staff who may be first responders in this protocol. The evidence protocol is the Kentucky State Police (KSP) Evidence Guide, specified in policy and described and confirmed by the facility investigators who are experienced and able to fully articulate investigative procedures for a sexual assault in a jail setting. Interviews with staff indicate that they are trained and familiar with the evidence protocol and what to do if they are the first responder to a sexual assault.

Any incidents that occur that are criminal in nature, including those related to PREA violations would result in the KSP being contacted to investigate. The KSP will conduct sexual abuse investigations in accordance with PREA standards and follow the nationally accepted protocols for Sexual Assault Medical Forensic Exams published by the USDOJ. RCC investigative staff, in conjunction with KSP, ensure that all the requirements of the standard are met. Random staff members who were interviewed stated that there are multiple investigators trained to conduct sexual assault investigations. In addition, the PREA Compliance Manager would be notified. The facility provided a copy of the evidence guide for review. RCC currently has 21 facility investigators.

The RCC does not hold youthful offenders.

KYDOC policy stipulates that all victims of sexual abuse shall be offered a forensic medical exam, without financial cost including prophylactic testing/treatment for suspected STIs. These exams would be performed off-site at the University of Louisville Hospital. There is an on-call Clinical Forensic Nurse through the Emergency Department that is notified in such instances. Examinations will be conducted by qualified SANE/SAFE experts in accordance with the guidelines of the National Protocol for Sexual Assault Medical Forensic Examinations from the Department of Justice. Persons performing these exams will be Registered Nurses licensed by their respective State Board of Nursing and possess training and/or certification in the Sexual Assault Nurse Examination or a Physician with training specific to the sexual assault medical forensic examination. The availability of these services was confirmed by the Auditor with the HSA. She indicated they always had a SANE/SAFE nurse available 24 hours per day and 7 days per week and there would be no charge to the victim for this exam.

The RCC reported on the PAQ there had been no incidents of sexual abuse that required a forensic exam be conducted. This was confirmed onsite by staff interviews and reviewing the investigative logs.

KYDOC policy indicates they will make a victim advocate from a rape crisis center available to an inmate victim of sexual assault upon request. The RCC, through KYDOC has an MOU with KASAP to provide services to the facility. A local rape crisis center, The Center for Women and Families, is available to
serve as a victim advocate to victims of sexual assault at the RCC. The KYDOC has an MOU with the agency, which was provided to the Auditor for review. As stipulated in the MOU, KASAP is available to provide an advocate to accompany and support the victim through the forensic exam process, if requested and shall provide any needed or requested emotional support or crisis intervention services. KYDOC policy stipulates these services are available.

Targeted interviews with the PREA Coordinator and PCM also confirmed that the MOU was in place. There have been no instances of alleged sexual abuse that have required services in the past 12 months.

The KYDOC has standardized this process across the state. They work with the Kentucky State Police and refer all suspected criminal PREA allegations to them, receiving guidance from them to ensure all allegations are handled appropriately. In addition, the KYDOC has a statewide contract and MOU with KASAP to ensure that advocacy services are available to all inmate victims of sexual assault.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Monthly PREA Report
4. Review all investigative files for allegations of sexual abuse or harassment for the past 12 months
5. Website

Interviews with the following:
- PREA Coordinator
- PCM
- Investigative Staff
- Random Inmates

Findings:

The KYDOC policy is written in accordance with the standard and requires that an investigation is completed for all allegations of sexual abuse and harassment. Policy also dictates that allegations are referred for a criminal investigation if warranted. The PREA Compliance Manager, supervisors and Investigators work very closely together to ensure that all allegations of sexual abuse and harassment are investigated promptly and thoroughly. If an offender alleges a sexual assault or sexual harassment has taken place, the staff member will notify the supervisor, who will take the initial report and refer it to one of the investigators for further action if substantiated. The Investigator coordinates with the PCM and supervisors to determine the course of action. The KSP conducts all criminal investigations for the
RCC and the KYDOC and will be notified by the Investigator if there is suspected potential criminal charges. The KYDOC policy is posted on the website under the PREA section.

Targeted interviews with the Investigator, PREA Compliance Manager and Warden verified that all allegations of sexual abuse or harassment are investigated. They described the process for investigations, which is a collaborative approach. According to the interviews, once an allegation is received, it is referred for investigation based upon the type of allegation. In the case of a sexual abuse allegation, the first responders and supervisory personnel would initially take action to separate the alleged victim and perpetrator and takes steps to preserve any evidence. The on-duty supervisor would brief the PCM and depending on the situation initiate a call to the KSP to begin a criminal investigation. Essentially, all reports of sexual abuse or harassment are evaluated by the first responders and supervisors in coordination with the PCM and a determination is made whether to initiate a criminal investigation. If there is no exigency and no evidence that a crime has occurred, the facility initiates an administrative investigation. The incident is investigated and if during the investigation, it is determined that there is evidence to support a crime was committed, the investigator will consult with the KSP as necessary. If there is no evidence that a crime was committed, then the investigation is completed as an administrative investigation.

Interviews with random and targeted staff indicate they are aware of their responsibility to investigate every allegation, refer the allegation if it involves criminal behavior and notify the PREA Compliance Manager of all allegations.

Interviews with random inmates indicate that they feel that the staff at the facility take PREA and their sexual safety seriously and that any allegation would be promptly and thoroughly investigated.

The RCC reports there have been 22 allegations of sexual abuse or harassment in the past 12 months. A review of the investigative files indicate that the allegations were promptly and thoroughly investigated. The PCM at RCC is very diligent in ensuring that all facets of the standard are met, including being very involved in each step of the investigation and communication throughout all stages of the process. In a targeted interview with the PCM, he stated that he was thankful that he had the autonomy to handle the investigations, and there was an open line of communication with he, the Warden and other facility supervisors. There was one allegation that warranted referral for criminal investigation to the Kentucky State Police. The administrative investigation by RCC has been closed as substantiated.

KYDOC policy requires that all sexual assault allegations that involve evidence of criminal behavior be referred for criminal prosecution.

The auditor reviewed the KYDOC website and the agency policy is posted and publicly available. During targeted interviews with facility investigators, they verified that investigations that revealed criminal behavior would be referred to the KSP and subsequently to the Commonwealth Attorney for prosecution. The PCM and PREA Coordinator confirmed this information.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. 2020 and 2021 Annual Training
4. New Hire PREA Training
5. PREA Lesson Plan
6. Review of Training Files
7. Interviews with Random Staff, PREA Coordinator, PCM, and Training Coordinators

Findings:

The KYDOC policy is written in accordance with the standard and includes all required topics and elements of the standard. Policy requires that all employees, contractors, and volunteers who have contact with inmates receive training. According to the policy, mental health and medical personnel receive specialized training. The training is tailored to male inmates, as the facility does not hold female inmates. The facility provides PREA training annually to each employee to ensure they remain up to
date on the KYDOC policies and procedures regarding sexual abuse and harassment. Each employee completes this training electronically with a unique login and completion is verified electronically. In addition, each employee signs a verification acknowledging they have received and understand the information. RCC has started to resume some in-person training on PREA related topics, which had been suspended due to Covid. The training staff do a great job of explaining sensitive topics like PREA in a way that the staff can understand and relate to. During targeted interviews with the training staff, it was evident that they are both dedicated to ensuring that staff understand the training material and are always looking for opportunities and ways to expand the training program.

In addition, many of the random staff that were interviewed stated that they would often review PREA related topics during shift briefings, indicating that RCC is committed to making sure that staff understand their roles and responsibilities with respect to PREA.

The Auditor reviewed the training curriculum and verified it included all information and each element required by the standard. The Auditor reviewed the training rosters, as well as random training files to verify and ensure all employees are receiving the training. During the pre-audit period the Auditor reviewed the training documentation submitted by the facility. In addition, during the on-site portion of the audit, the auditor verified the training of staff by making spot checks of staff training files to match the training rosters with the files for verification of training attendance. Furthermore, the auditor reviewed the entire training logs for all employees who had received training for the current year. Based upon the printout provided by the training coordinator, all active employees have completed the annual PREA in-service for 2021, the only exception being staff that are on extended leave.

New staff are given PREA training during their orientation before assuming their duties and sign a verification acknowledging they have received the information. During interviews with the PCM and Training staff, they confirmed that no employee is permitted to have contact with inmates prior to receiving PREA training during orientation.

The Auditor conducted formal and informal interviews with random and specialized staff. All staff interviewed indicated that they had received training and were able to articulate information from the training. During the staff interviews, all the random employees recalled having annual PREA training. During the random staff interviews, the auditor asked the employees if they recalled being trained on each required element of the PREA training. None of the employees interviewed remembered all elements of the training, but staff appear to understand their responsibilities regarding the standards. The staff are appropriately trained, and all documentation is maintained accordingly.

PREA training is conducted on an annual basis during in-service, versus every two years as required by the standard.

After a review, the Auditor determined the facility exceeds the requirements of the standard.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Annual Training
4. New Contractor PREA Training
5. Review of Training Files
6. Volunteer orientation

Interviews with the following:

- PCM
- Contract Staff
- Training Coordinator
- Warden
Findings:

The KYDOC policy is written in accordance with the standard and includes all required topics and elements of the standard. The policy requires that all contract staff and volunteers receive training regarding PREA. This training is required to be completed in person prior to contact with any inmates. The training is tailored to male inmates at RCC, as the facility does not hold females. The facility provides PREA training annually to each contract employee and volunteer to ensure they remain up to date on the KYDOC policies and procedures regarding sexual abuse and harassment. The training coordinators briefly reviewed with the Auditor a typical training session.

The Auditor reviewed the training curriculum and verified it included all information required by the standard, including information on the KYDOC’s zero-tolerance policy and the staff’s responsibilities. The Auditor reviewed the training rosters, as well as random training files to verify and ensure all contracted employees are receiving the training. New contractors and volunteers are given PREA training during their orientation before assuming their duties and sign a verification acknowledging they have received the information. During the document review, the auditor was able to verify that the contractors who had been trained were required to sign an acknowledgement that they had received and understood the PREA training. The auditor reviewed the files of newly hired contract employees and verified that the signed training acknowledgement form is retained in their files. In addition, during targeted interviews with the Training staff, they verified that training acknowledgements were retained in the files.

The Auditor conducted formal and informal interviews with 6 contracted staff. During targeted interviews with contract staff members, each of the interviewees told the auditor that they recalled having the PREA training and knew of the RCC’s zero-tolerance policy against sexual abuse and harassment. In addition, while they could not remember all the aspects of the training, they could articulate what to do if an inmate reported to them. The contract staff were knowledgeable regarding the PREA information they had received and knew that the presumptive disciplinary action for violating the PREA policy would be termination. Staff appear to understand their responsibilities regarding the standards. The RCC is providing training in accordance with the standard. The documentation is maintained accordingly.

Due to Covid related restrictions, no programs provided by volunteers were being operated at the time of the onsite audit. The auditor was able to interview two volunteers via telephone. Both volunteers were able to articulate their responsibilities and what to do if an inmate reported an instance of sexual assault to them. Facility staff were in the process of updating the volunteer PREA training, with plans to resume programming soon.

Volunteers and contractors all receive PREA training on an annual basis. The contract staff receive the same training as the facility staff.

After a review, the Auditor determined the facility meets the requirements of the standard.

3. Review of inmate training materials  
4. Review of inmate training documentation  
5. Inmate Handbook  
6. Sampling of inmate files comparing intake date, the date of initial screenings, and the date of comprehensive screening  
7. Inmate Brochure and acknowledgement  
8. Logs of Completion of inmates provided Comprehensive Education

Interviews with the following:

- PCM  
- Random Inmates  
- Intake Staff

Observations of the Following:

- PREA informational Posters throughout the facility in inmate housing and common areas  
- Inmate Intake Process
Findings:

The KYDOC policy is written in accordance with the standard. In accordance with policy, offenders receive information regarding the facility and agency’s zero tolerance policy. This information, along with the inmate handbook and informal posters provides offenders with information regarding sexual abuse and assault, the agency’s zero tolerance policy and how to report incidents of sexual abuse or harassment.

The RCC PAQ reported that during the last year 1968 offenders were committed to the facility and 1968 inmates were given the initial PREA information in accordance with the standard. Offenders will receive a PREA brochure immediately upon intake and sign an acknowledgement of receipt that is maintained electronically in their file in KOMS. The brochure contains information about the zero-tolerance policy and reporting information.

The auditor reviewed the intake process during the site review. This was completed at the intake counter away from any other inmates. In addition, the auditor observed PREA signage in a number of different locations and notification of the agency’s zero tolerance policy. In both informal discussions with intake staff as well as formal specialized interviews with intake staff, officers told the auditor that they explained the agency’s zero tolerance policy regarding sexual abuse and harassment, and they explained to the newly committed inmates that they could report any instances of abuse or harassment to staff and use the inmate telephone system to report abuse to the listed hotline. The PREA brochure information is read to the inmates upon arrival at the facility.

Interviews with intake and other facility staff, both informally and formally, verified that inmates, including any transferred from another facility, are given the same PREA orientation. Further questioning during the informal and formal staff interviews revealed that inmates who were LEP would be provided the orientation using a language telephone interpreter service or a Spanish speaking staff would be utilized, if available. For offenders that are visually impaired, a staff member would read the information to the offender. The video also has printed subtitles for the hearing impaired. Staff would assist any other disabled or impaired inmates that needed assistance, such as intellectually limited inmates. Information in multiple formats was available throughout the facility. A targeted interview with the PCM indicated that the facility will make needed accommodations for identified inmates with disabilities. The Auditor observed PREA informational posters in all offender housing areas, intake, and public areas. There are bulletin boards in the inmate housing areas that displays PREA and other information on a continual basis. Inmates also receive PREA related education and information in medical.

Random inmate interviews revealed that most inmates remembered receiving information upon arrival about the agency’s zero tolerance policy and how to make a report of sexual abuse. The majority of the inmates interviewed said that they would just tell the staff or write a note.

The comprehensive education is accomplished through the use of the PREA orientation video. The video is shown during the inmate’s comprehensive facility orientation. This is documented on the inmate orientation, as well as the comprehensive PREA Education Acknowledgement Form, both of which are kept in the inmate record to verify receipt of the training. Due to Covid related restrictions, orientation is being completed in the offender housing areas by the case managers. Offender interviews indicated that they were receiving the training.

The auditor reviewed a sampling of 15 random inmate files. In each case, the file contained documentation of the initial inmate PREA orientation and receipt of the brochure at the time of admission, as well as the comprehensive education. This verified what the auditor personally observed, what the interviews revealed, what was required by policy and what was reported in the
Interviews with staff and offenders both formally and informally verified that offenders are receiving the initial and comprehensive training within the timeframes stipulated in the standard.

All current offenders have received PREA training. Offender interviews indicate that the majority remember receiving information upon arrival and viewing the orientation video. They have an awareness of PREA information and how to report.

As required by the standard, policy provides for education in formats accessible to all inmates. There are Spanish versions of all materials. For offenders that are visually impaired, a staff member would read the information to the offender. In addition, the Purple machine is available for signing for the hard of hearing inmates. As indicated in the policy, all other special needs would be handled in coordination with the PCM or Unit Manager on a case-by-case basis. There have been no instances of the need to accommodate special needs inmates during this audit period.

Information in multiple formats was available throughout the facility. The Auditor observed PREA informational posters in all offender housing areas, intake, and medical. The inmate handbook is available and provided to all offenders. The auditor also reviewed the various formats of the PREA information and training and found that the materials and staff efforts to ensure all inmate have access to the PREA program are commendable.

Inmates receive a PREA Brochure and advocate information immediately upon arrival. The PREA brochure and education is available in large print, braille, and Spanish with the capability of translating to other languages as needed.

After a review, the Auditor determined that the facility meets the minimum requirements of the standard.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Review of Training Materials
4. Review of Training Documentation
5. Review Training Curriculum for Specialized Training
6. Review of Training Certificates for Investigators
7. Interviews with PCM & Investigative Staff
Findings:

Agency policy is written in accordance with the standard. RCC investigators conduct administrative investigations. The Auditor verified the training for the facility investigators. The training included all mandated aspects of the standard, including Miranda and Garrity, evidence collection in a correctional setting, as well as the required evidentiary standards for administrative findings. Per a targeted interview with the PREA Coordinator, this training is standardized for the Department and was developed in consultation with the Moss Group.

During a targeted interviews with three designated investigators for the facility, they were able to articulate all aspects of the training received. They appeared knowledgeable in the training received, as well as conducting sexual assault investigations. Staff indicated that, if in the course of the investigation, it appeared that the conduct was criminal in nature and there could be criminal charges involved, they would call the State Police and consult with the Commonwealth Attorney regarding any potential charges.

The Auditor was provided and reviewed a master list of trained investigators for the KYDOC as well as a list provided by the PCM. There are 21 investigators currently assigned to RCC.

After a review, the Auditor determined the facility meets the requirements of the standard.

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

### Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Review of Training Materials
4. Review of Training Documentation
5. Interviews with Training Coordinator and Medical Staff

Policy requires that all staff members receive PREA training in accordance with standard 115.31. Further, the policy requires that all part- and full-time mental health and medical staff members receive additional specialized training. The policy requires that the mental health and medical staff receive additional specialized training on how to detect and assess signs of sexual abuse and harassment, how to preserve physical evidence, how to respond effectively to victims of sexual abuse and harassment and to whom to report allegations or suspicions of sexual abuse or harassment. The RCC employs contract medical and mental health providers through Wellpath. All of the medical and mental health staff received the specialized training. During the on-site portion of the audit, the auditor reviewed the training logs provided by the staff and cross-referenced the roster of mental health and medical personnel and verified that all of the current employees had received the required training. During targeted interviews with the HSA and a nurse, they stated they received PREA training upon orientation. In addition, all medical staff complete additional training related to healthcare and PREA, which is done annually through Wellpath, the contract medical provider.

According to the PAQ, there are 30 medical and mental health staff that work regularly at the facility. A targeted interview with the training coordinators verified that every employee is required to participate in PREA training in accordance with 115.31 and that training is documented. In addition, medical and mental health staff receive specialized training annually through the state that covers all aspects of the standard. The auditor verified this training had been completed.

The staff of the RCC does not perform forensic medical examinations for victims of sexual assault. Forensic medical exams are conducted at the local hospital.

After a review, the Auditor determined the facility meets the requirements of the standard.

**Auditor Overall Compliance Determination**
☑ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Review of Risk Assessments
4. 30 Day Reassessment Logs
5. Sampling of Random Inmate Files

Interviews with the following:
- PREA Coordinator
- Random Inmates
- PCM
- Case Managers

Observations of the Following:
- Inmate Intake Process

Findings:

According to KYDOC Policy, all inmates shall be assessed upon their admission to the facility and reassessed no later than 30 days after admission to the facility. The policy is written in accordance with the standard and includes all the required elements. During the site review, the auditor was not able to follow an inmate through the admission and classification process. But during the site review, the auditor spoke with the Classification and Treatment Officer and the Unit Administrator who explained the initial intake. During the process, inmates are informed of their right to be free from sexual abuse and harassment as well as the agency’s zero-tolerance for sexual abuse and harassment and how to report instances of sexual abuse or harassment. Interviews with the PCM and case managers verified that within 72 hours of admission (usually the same day), all inmates are screened for risk of sexual abuse victimization and the potential for predatory behavior. This is done by the intake case manager. The facility maintains a list of potential victims and abusers. Notification is also entered into KOMS, which is accessible to any facility the inmate transfers to.

During interviews with random inmates, most remember their initial screening and remember being asked PREA related questions during their admission; although none of the inmates remembered all of the PREA risk assessment questions. The Auditor asked the inmates if they were asked the risk
screening questions. Most inmates remembered at least something about the risk screening or some of the questions.

All inmates are assessed during an intake screening and upon transfer to another facility for risk of being sexually abused by other inmates or sexually abusive toward other inmates. Intake screenings take place within 72 hours of arrival at RCC. Staff interviews indicated that the screening is usually done the same day. RCC uses an objective screening instrument. The intake screening considers, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (1) Whether the inmate has a mental, physical, or developmental disability; (2) The age of the inmate; (3) The physical build of the inmate; (4) Whether the inmate has previously been incarcerated; (5) Whether the inmate’s criminal history is exclusively nonviolent; (6) Whether the inmate has prior convictions for sex offenses against an adult or child; (7) Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; (8) Whether the inmate has previously experienced sexual victimization; and (9) The inmate’s own perception of vulnerability. The KYDOC does not hold offenders solely for civil immigration purposes. The initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to RCC, in assessing inmates for risk of being sexually abusive. An inmate’s risk level is reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate’s risk of sexual victimization or abusiveness. Inmates are asked their sexual orientation in addition to the reviewing staff’s perception. Within 30 days from the inmate’s arrival at RCC, RCC reassesses all inmate’s risk of victimization or abusiveness based upon any additional, relevant information received by RCC since the intake screening. The case managers meet with the inmate when doing this reassessment, which is documented in KOMS. Inmates are not disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked.

RCC has implemented appropriate controls on the dissemination within RCC of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate’s detriment by staff or other inmates. All files are controlled by Program personnel and maintained in each inmate’s electronic Classification files.

The Auditor interviewed 3 staff members who completes the screenings. The staff indicated that the risk screening is completed within 72 hours. The screenings are completed in KOMS, the electronic records system. There is limited access to the PREA risk assessment. This screening is used for housing and program decisions and referrals. The auditor reviewed this information and verified it is maintained electronically with limited access. The auditor was provided a copy of and reviewed the screening form.

Targeted interviews with supervisory staff and the PCM also verified that risk assessments are performed within 72 hours of intake, usually sooner. The questions are asked and the answers are recorded by the staff on the risk assessment form in KOMS. There are areas on the form that allows for the inclusion of additional details related to the question, if additional data needs to be documented.

According to the PAQ and KYDOC Policy, the PREA screening instrument shall include 10 individual elements. Upon review of the screening instrument, the auditor determined that the screening instrument included all of the required elements.

According to RCC Policy the initial screening shall consider prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse in assessing the risk of inmates being potential abusers. The auditor reviewed the objective screening instrument and verified that the questions are present on the screening instrument and during the inmate file review, the same completed forms were in the inmate files. During targeted interviews with staff who conduct risk
assessments, the auditor verified that they ask inmates if they have a history of violence and ask them to self-report their history of institutional violence. However, the staff also said that classification will review the inmate’s criminal history, current offenses, as well as institutional history, if they have been in the RCC or KYDOC previously.

The auditor reviewed 15 random inmate files and reviewed their intake records and risk screenings in order to compare the admission date and the date of admission screening. The randomly selected files had received risk screenings within 72 hours of intake, and reassessments completed within 30 days, including documentation that the case manager met with the inmate to get feedback from them regarding their perception of vulnerability.

The PCM and PREA Coordinator confirmed that 30-day reassessments are being completed on inmates. The KOMS system generates an alert to the PCM and case manager when the 30-day review is due. This allows the PCM to follow up if the review is not completed in a timely manner. The auditor reviewed inmate files of initial PREA risk assessments. The auditor also reviewed random inmate files to determine if 30-day re-assessments had been completed. All reviewed files contained 30 re-assessments within the required timeframe.

Classification and Treatment staff, as well as the PCM verified that an inmate’s risk level is reassessed based upon a request, referral or incident of sexual assault.

KYDOC policy stipulates that no inmate shall be disciplined for refusing to answer or disclose information in response the risk assessment questions. According to targeted interviews with the staff, there have been no instances of inmates being disciplined for refusing to answer screening questions.

The Auditor randomly reviewed inmate files and determined that the initial risk assessments are being completed within 72 hours as required. The 30-day reassessments are being completed as required, including input from the offenders.

After a review, the Auditor determined the facility meets the requirements of the standard.

Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)

☐ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7, 14.8
3. Review of Screenings

Interviews with the following:

- PREA Coordinator
- PCM
- Supervisors Responsible for Conducting Unannounced Rounds

Observation of the following:

- Site review of inmate housing units
Findings:

The KYDOC policy requires that screening information from the PREA risk assessment is used in making housing, bed work, education, and programming assignments. The intake case manager completes a risk assessment screening upon the inmate’s arrival to the facility. Staff use this information to make recommendations on housing, bed, work, program assignments and referrals with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive.

When an inmate is determined to be high risk for victimization or high risk for abusiveness, it is the responsibility of the staff member conducting the screening to enter the results into the PREA Risk Assessment and inform the PREA Compliance Manager and other staff as required. An inmate that is determined to be at high risk for victimization will not be placed in the same cell or as an inmate that has been determined to be high risk for abusiveness.

It is the responsibility of the Classification Committee to check each inmate being placed in a job that has been determined as an area where there should not be victims and abusers working together unless under direct supervision and sign the job application stating these areas were reviewed. KOMS generates an automatic alert system that will alert staff when assigning beds if a high-risk victim and high-risk abuser are located in the same area. When working in the kitchen, high-risk victims and high-risk abusers are assigned to separate areas. All areas/rooms in the kitchen are monitored by camera and/or monitored by staff. There are plans to add additional cameras in the kitchen, and some have already been added as a result of incident reviews. RCC maintains a weekly list of high-risk abusers and high risk victims that are assigned to the same work location.

Staff is alerted via email when an offender’s risk status changes. Additionally, inmates who are identified as high risk are monitored by job and program supervisors.

KYDOC policy requires that the agency will consider housing for transgender or intersex inmates on a case-by-case basis in order to ensure the health and safety of the inmate and take into consideration any potential management or security problems. The policy requires that a transgender or intersex inmate’s own view about their own safety shall be given serious consideration and that all transgender or intersex inmates are given the opportunity to shower separately from other inmates. During the site tour, the auditor reviewed all inmate housing units.

At the time of the onsite review, RCC had 2 offenders identified as transgender or with a gender dysphoria diagnosis. During the targeted interviews, 1 transgender inmate was interviewed. (The other transgender offender was quarantined and unable to be interviewed.) The offender indicated that she was able to shower separately by request during count, but stated that most of the time the shower situation was not an issue. She felt that the facility took her views into consideration with respect to their safety and had no issues with respect to PREA or her safety. She indicated that the officers had asked about her preferred pronouns and stated most of the staff were very respectful.

The policy stipulates that LGBTI inmates will not be placed in a dedicated facility, unit, or wing solely on the basis of such identification or status, unless the placement is established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such inmates. Staff are aware of their responsibilities should they receive a transgender inmate with regard to this standard. Interviews with facility staff indicate that placement of any transgender or intersex offenders is made on a case-by-case basis. Agency policy stipulates that placement and programming assignments for transgender inmates will be reassessed at least twice a year to review any threats to safety and a transgender inmate’s views with respect to his or her safety will be given serious consideration. This process has been standardized across the department. An inmate that identifies as transgender is monitored at the facility level by the assigned case manager, the PCM and mental
health staff. In addition, these offenders are monitored at the state level and discussed and reassessed at Therapeutic Level of Care (TLOC) meetings which include facility and state level staff. Roederer Correctional Complex (RCC) has not conducted any transgender housing program reviews for this audit period. They are primarily an assessment center (AC) and the inmate population receives their initial classification and are then transferred to a permanent facility.

RCC allows for transgender inmates to shower separately by request, which occurs during count. Interviews with facility administration corroborate these practices are enforced. The auditor reviewed documentation of communication to the staff regarding transgender inmates who have requested to shower during count.

LGBTI offenders are not placed in dedicated housing areas. Interviews with staff confirm this practice would not occur. The auditor conducted informal discussions with inmates during the site review and no inmate mentioned being housed according to their sexual preference or identity. The auditor conducted a targeted interview with the PREA Coordinator and PCM and asked if there were any dedicated housing units for LGBTI prisoners. The auditor was informed that inmates’ housing was based upon objective finding and LGBTI inmates were not placed in dedicated units. Targeted interviews with LGBTI inmates verified that the RCC does not place inmates in dedicated housing units. A review of the roster indicated that identified LGBTI inmates are located in different housing areas throughout the facility.

After a review, the Auditor determined the facility exceeds the requirements of the standard.

Corrective Action: None

Standard 115.43: Protective Custody

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.43 (a)

- Does the facility always refrain from placing inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers? ☒ Yes ☐ No

- If a facility cannot conduct such an assessment immediately, does the facility hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment? ☒ Yes ☐ No

115.43 (b)

- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Programs to the extent possible? ☒ Yes ☐ No

- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Privileges to the extent possible? ☒ Yes ☐ No

- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Education to the extent possible? ☒ Yes ☐ No
Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Work opportunities to the extent possible? ☒ Yes ☐ No

If the facility restricts any access to programs, privileges, education, or work opportunities, does the facility document the opportunities that have been limited? (N/A if the facility never restricts access to programs, privileges, education, or work opportunities.) ☒ Yes ☐ No ☐ NA

If the facility restricts any access to programs, privileges, education, or work opportunities, does the facility document the duration of the limitation? (N/A if the facility never restricts access to programs, privileges, education, or work opportunities.) ☒ Yes ☐ No ☐ NA

If the facility restricts any access to programs, privileges, education, or work opportunities, does the facility document the reasons for such limitations? (N/A if the facility never restricts access to programs, privileges, education, or work opportunities.) ☒ Yes ☐ No ☐ NA

115.43 (c)

Does the facility assign inmates at high risk of sexual victimization to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged? ☒ Yes ☐ No

Does such an assignment not ordinarily exceed a period of 30 days? ☒ Yes ☐ No

115.43 (d)

If an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, does the facility clearly document the basis for the facility’s concern for the inmate’s safety? ☒ Yes ☐ No

If an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, does the facility clearly document the reason why no alternative means of separation can be arranged? ☒ Yes ☐ No

115.43 (e)

In the case of each inmate who is placed in involuntary segregation because he/she is at high risk of sexual victimization, does the facility afford a review to determine whether there is a continuing need for separation from the general population EVERY 30 DAYS? ☒ Yes ☐ No

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 10.2
3. Memo from PCM

Interviews with the following:
- PCM
- Supervisors and Staff Responsible for Supervising Inmates in Restrictive Housing

Findings:

According to agency policy they do not place inmates who are at high risk for sexual victimization in restrictive housing unless alternatives have been considered and are not available. Agency policies are written in accordance with the standard and cover all mandated stipulations. According to the PAQ, there have not been any instances where inmates at risk for sexual victimization were placed in restrictive housing for the purpose of separating them from potential abusers. RCC does not have restrictive housing. Inmates that need to be housed there would be given a “ticket,” which is like a temporary transfer, and they would be housed at Luther Luckett, which in one of the adjacent facilities.

According to targeted interviews with PCM and other facility staff, they are not aware of a case where an inmate was placed in restrictive housing as a result of being at high risk for sexual victimization. All staff interviewed, both formally and informally, indicate an inmate identified as high risk would be moved to another housing location and not placed in segregation unless the inmate requested it. A targeted interview with the PCM also verified that no inmates during the audit period have been placed in restrictive housing involuntarily in order to separate them from potential abusers. There is sufficient space and numbers of housing units to find a suitable place for an otherwise orderly inmate.

The agency policy states that if inmates were placed in restrictive housing for involuntary protective purposes, they would be permitted programs and privileges, work and educational programs and any restrictions would be limited. Further, the policy stipulates that such an involuntary housing assignment would not normally exceed 30 day and such a placement would be documented and include the justification for such placement and why no alternative can be arranged. According to the policy, if an inmate is confined involuntarily under these circumstances, the facility shall review the continuing need for placement.

Staff are aware of their responsibilities with regard to this standard, including the need for a review every 30 day. There have been no instances that required action with regard to this standard.

As verified by targeted interviews with the PCM and other staff, the auditor did not identify any inmates who were involuntarily housed in restrictive solely for protective purposes for being a high-risk victim or having made an allegation.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Agency Memo
4. Inmate Handbook
5. Inmate Orientation
6. Site Review
7. KASAP MOU
8. KYDOC Website
9. Hotline Information

Interviews with the following:

- PREA Coordinator
- PCM
- Warden
- Random Staff
- Random Inmates

Observation of the following:

- Observation of informal interactions between staff and inmates
- Observation of inmates using the telephone system
- Observation of Information Posters inside the housing units, adjacent to telephone and in the booking area
Findings:

The KYDOC policy is written in accordance with the standard and designates multiple mechanisms for the internal reporting of sexual abuse and harassment, retaliation by other inmates or staff for reporting, as well as mechanisms for reporting conditions that may have contributed to the alleged abuse. The auditor reviewed the inmate handbook and found that inmates are informed that they may report instances of abuse or harassment by reporting to staff members, both verbally and in writing, as well as by using the inmate telephone system to make a report to the PREA hotline.

There are multiple internal ways for offenders to privately report PREA related incidents, including verbally to any staff member, a written note submitted to staff, anonymous reports, and third-party reports. They also have the ability to report via email through the JPay tablets available in all offender housing areas. This information is received by offenders at intake in both written and verbal form, contained in the inmate handbook and on informational posters in all offender housing areas, intake and various other locations throughout the facility. There is also an internal hotline that is monitored by staff in the Compliance division at the central office.

During random staff interviews, all staff mentioned that inmates could make a PREA report to any staff member, as well as use the PREA hotline. Several staff members stated that inmates could write to staff as well. During the site review, the auditor observed reporting information adjacent to the inmate telephones. Random offender interviews revealed that the offenders would feel comfortable approaching and reporting to staff. They feel that that the staff at RCC would take any report seriously and act immediately.

The KYDOC does not hold inmates solely for civil immigration purposes.

Staff interviews revealed that they are aware of their responsibilities with regard to reporting and would accept and act on any information received immediately. Information on how to report on behalf of an inmate is listed on the agency website. All staff indicated they would accept and act on third-party reports, including from another inmate. Inmate interviews revealed that they were confident staff would act on third party reports and investigate them the same.

KYDOC policy provides a requirement that inmates have the option of reporting incidents of sexual abuse to a public or private entity that is not part of the agency. Offenders have the ability to report outside the RCC, by phone, to DOC central office or an outside agency. This information is in the inmate handbook, posted by the phones and on the brochure the inmates receive at intake. During the site review, the auditor observed PREA informational posters and placards adjacent to the inmate telephones that have a Hotline where reports can be taken and referred immediately for investigation. Some offenders mentioned this as a potential reporting method, indicating the offenders are aware of this information. Documentation provided by the facility shows that there have been reports made through the hotline making this a viable reporting method. Contact information, including address and phone number is also available for The Center for Women and Families, the local rape crisis hotline.

The Auditor verified the availability of the hotline by making a test call to the internal hotline. The report was immediately received by the PREA Coordinator’s Office and logged. The auditor received documentation of this report.

Policy and the inmate handbook stipulates that 3rd party reports of sexual abuse or harassment will be accepted verbally or in writing. Random inmate and staff interviews revealed that the staff and inmates are aware that third party reports will be accepted and treated just like any other reports.

A targeted interview with the PREA Coordinator and PCM verified that there are multiple ways to make PREA complaints by both staff and inmates. They mentioned the use of the inmate phone system,
anonymous letters, as well as third party reporting by family and friends. In addition, inmates can report using the Jpay tablets available in the inmate housing areas. The auditor reviewed investigative files for 22 allegations of sexual misconduct within the last year. A variety of reporting methods were used, indicating that inmates are aware of the various reporting methods.

Policy requires that all staff accept reports of sexual abuse or harassment both verbally and in writing and that those reports shall be documented in writing by staff and responded to immediately. During targeted interviews with staff, the majority of the random staff interviewed told the auditors that if an inmate reported an allegation of sexual abuse or harassment, they would immediately intervene by separating the victim and alleged perpetrator. In all random staff interviews, each staff member stated that they would take action without delay and would accept a verbal complaint and would be required to make a written report of the incident. During random inmate interviews, the inmates were asked if they knew that they could make a verbal report of an incident of sexual harassment. All the inmates stated that they knew that they could just tell any staff member if something happened.

Staff may privately report sexual abuse or harassment of inmates either verbally or in writing to their supervisors, or Warden directly. There is also a hotline available to staff. Staff members are informed of this provision during PREA training. Staff interviews revealed that they are aware they can go directly to facility administration, including the PCM to report sexual abuse and harassment of inmates and all staff that were randomly interviewed answered that they would report any such incident to their supervisor.

After a review, the Auditor determined that the facility exceeds the requirements of the standard

Corrective Action: None

Standard 15.152: Exhaustion of administrative remedies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.52 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. This does not mean the agency is exempt simply because an inmate does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. ☒ Yes ☐ No

115.52 (b)

- Does the agency permit inmates to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

- Does the agency always refrain from requiring an inmate to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA
115.52 (c)

 Does the agency ensure that: An inmate who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

 Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

115.52 (d)

 Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by inmates in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

 If the agency claims the maximum allowable extension of time to respond of up to 70 days per 15.152(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

 At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

115.52 (e)

 Are third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

 Are those third parties also permitted to file such requests on behalf of inmates? (If a third-party files such a request on behalf of an inmate, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

 If the inmate declines to have the request processed on his or her behalf, does the agency document the inmate’s decision? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

115.52 (f)

 Has the agency established procedures for the filing of an emergency grievance alleging that an inmate is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA
After receiving an emergency grievance alleging an inmate is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.). ☐ Yes ☐ No ☒ NA

After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

After receiving an emergency grievance described above, does the agency issue a final agency decision within 5 calendar days? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

Does the initial response and final agency decision document the agency’s determination whether the inmate is in substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

Does the initial response document the agency’s action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

Does the agency’s final decision document the agency’s action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

115.52 (g)

If the agency disciplines an inmate for filing a grievance related to alleged sexual abuse, does it do so ONLY where the agency demonstrates that the inmate filed the grievance in bad faith? (N/A if agency is exempt from this standard.) ☐ Yes ☐ No ☒ NA

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
Findings:

The Kentucky Department of Corrections does not have an administrative procedure to address inmate grievances regarding sexual abuse therefore is exempt from this standard.

This is verified by the PAQ, memo from the PREA Coordinator and targeted interview with same.

After a review, the Auditor determined the facility meets the requirements of the standard.

   a. PCM
   b. Random Inmates
   c. Random and Targeted Staff
   d. Mental Health and Medical Staff

Observations of the Following:
   a. PREA informational Posters throughout the facility and public areas

Findings:

KYDOC policy is written in accordance with the standard. The facility provides inmates with access to local, state, or national victim advocacy or rape crisis organizations, including toll-free hotline numbers. The policy requires reasonable communications between inmates and those organizations and agencies, in as confidential manner as possible. The RCC informs inmates of the extent to which these will be monitored prior to giving them access. There have been no incidents reported that required confidential support services during this audit period. Staff interviews indicate they are aware of their obligations under this standard. No inmate has requested Victim Advocate Services at RCC during this audit cycle. If this request is made, the inmate will have the opportunity to speak to an advocate in a private setting through the institution’s mental health staff.

The auditor reviewed the RCC handbook, which included information regarding the availability of outside confidential support services for victims of sexual abuse and harassment. During the site review, the auditor viewed posters that notifies inmates of the availability of a third-party reporting hotline. Policy requires that inmates and staff are allowed to report sexual abuse or harassment
confidentially and requires that medical and mental health personnel inform inmates of their limits of confidentiality. Targeted interviews with medical and mental health reveal they are aware of their obligations to inform the inmates of the limits of confidentiality.

Inmates are informed of the services available at intake. RCC provides all inmates information regarding victim advocacy services upon intake (same day) and during orientation. The information is provided in written form and provided to the inmate verbally. Inmates are also made aware of the 24/7 crisis line that is available to them as part of the victim advocate service. Inmate interviews indicated that most of the inmates are aware of some of the services that are available to them. Most inmates interviewed indicated they also knew they could ask to speak to mental health for counseling services if they needed to.

The information is listed in the brochure that is provided to the inmates, as well as the inmate handbook.

The RCC has an MOU with the Kentucky Association of Sexual Assault Programs (KASAP) to establish an agreement for emotional support services though the local rape crisis center, The Center for Women and Families. The Auditor was provided a copy of the MOU and verified the agreement for services.

There have been no inmates detained solely for civil or immigration purposes.

After a review, the Auditor determined the facility meets the requirements of the standard.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Inmate Handbook
4. RCC Website
5. Staff Interviews
6. Inmate Interviews

Findings:

The policy is written in accordance with the standards, stipulating that all third-party reports will be accepted and investigated. The RCC publicly provides a method for the receipt of third-party reports of sexual abuse or harassment through the KYDOC website. The Auditor reviewed the DOC website. The website has information on its PREA page that contains information about PREA and their responsibilities for criminal and administrative investigations. It also contains contact and reporting information should any one wish to report an incident of sexual abuse or harassment on behalf of an inmate.

There is a hotline available for both staff and inmates to report incidents at the facility. There is also a hotline external to the DOC that is available to inmates. The Auditor tested both of the these hotlines and found that the response was timely and meets the requirements of the standard.

Staff interviews reveal that they are aware of their obligation to accept and immediately act on any third-party reports received. Staff, including supervisors, indicate they will accept a third-party report from a family member, friend or another inmate. They would document the report and inform their supervisor and the report would be handled the same as any other allegation or report and investigated thoroughly.

Offenders are provided this information at intake and offender interviews indicate that they are aware that family or friends can call or write and report an incident of sexual abuse on their behalf. The offenders felt as if the staff would act on any reports received and take all reports seriously and investigate the same, regardless of the source of the information. The offenders feel that the staff take PREA and their safety seriously.

The facility provided documentation of an anonymous report. The auditor reviewed the report and the resulting investigation and found that the facility is acting in compliance with the standard.

After a review, the Auditor determined the facility meets the requirements of the standard.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7, 3.22
3. Review of investigative files

Interviews with the following:
- PREA Coordinator
- Agency Administrator
- Random Staff

Findings:

KYDOC policy is written in accordance with the standard and requires all staff, contractors and volunteers to immediately report any knowledge, suspicion or information related to sexual abuse or harassment to a supervisor. During the site review of RCC, many staff members, security and non-security, were asked if they were required by policy to report any instances or suspicions of sexual abuse or harassment. All of the staff members responded that they were required to report any such instances. The auditor also informally asked the same question of contracted staff, and they stated that they would report any instance of sexual abuse or harassment immediately to security staff. Interviews with staff indicate they are very clear with regard to their duties and responsibilities with regard to reporting PREA related information, including anonymous and third-party reports. During random staff interviews, all of the staff members stated that they were required by policy to report any instance of sexual abuse or harassment or retaliation for making reports. They were also asked if that included alleged behavior by staff or contractors or volunteers. All staff members who were randomly interviewed said that they were obligated to report any such allegations or suspicions, no matter who it involved. Staff articulated their understanding that they are required to report any information immediately and document such in a written report.

Policy requires confidentiality of all information of sexual abuse or harassment beyond what is required to be shared as a part of the reporting, treatment, or investigation. During the random staff interviews, staff were asked about their requirement for maintaining confidentiality. The staff understand the need to keep the information limited to those that need to know to preserve the integrity of the investigation. All of the interviewed staff stated that details related to either inmate allegations or staff allegations should remain confidential. When asked who they report or discuss details of a sexual abuse or sexual harassment allegation with, staff informed the Auditor they only discuss details with supervisors and investigators. Staff stated they would not discuss the case with other co-workers or anyone that didn’t have a specific need to know. A targeted interview with the PREA Coordinator and PCM verified that all investigative files are maintained in KOMS with limited access.
Policy requires that all medical and mental health personnel report the mandatory reporting requirements and limits of confidentiality to victims of sexual abuse. Interviews with medical and mental health staff indicate they are aware of their mandatory reporting requirements and comply with the mandate to disclose the limits of their confidentiality. Medical and mental health staff are aware of their responsibilities to report information, knowledge, or suspicions of sexual abuse, sexual harassment, retaliation, staff neglect or violations of responsibilities which may have contributed to an incident.

Targeted interviews with the PCM, as well as random staff interviews verified that all allegations of sexual abuse or harassment received from a third party are referred for investigation and immediately acted upon. The Auditor reviewed examples of investigations initiated from medical, as well as an anonymous reporter. Random interviews with inmates revealed that they felt as if the facility would investigate any allegation regardless of the source.

All allegations of sexual abuse and harassment are reported to the on-duty supervisor, who initiates an investigation. The reporting officer and supervisor create a report, and this report is forwarded to the PCM for review and further action. In addition, the PCM is notified verbally through the chain of command.

The Auditor conducted a formal interview with three of the facility investigators, who indicated that all allegations are immediately reported and investigated. There were 22 allegations of sexual harassment or assault for the previous 12 months. The Auditor reviewed the investigative files for all 22 allegations and determined that they were promptly reported and investigated as required by the standard.

After a review, the Auditor determined the facility meets the requirements of the standard.

Evidence Relied upon to make Compliance Determination:

Evidence Reviewed:
1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Memo

Interviews with the following:
- PCM
- Warden
- Random Staff
- Random Inmates

Findings:

KYDOC policy is written in compliance with the standard and requires that whenever there is a report that there is an incident of sexual abuse or harassment, the victim should be immediately protected. Random interviews with staff indicate they are clear about their duty to act immediately if an offender is at risk of imminent sexual abuse. Staff indicated they would immediately remove the inmate from the situation, keep them separate and find an alternate place for them to stay or be housed pending an investigation or further action. Staff stated they would ensure the inmate was kept safe, away from the potential threat and an investigation was completed by the supervisor. Classification staff and the Unit Managers would also be notified. Targeted interviews with the Warden and the PCM confirmed that it is the policy of the facility to respond without delay when inmates are potentially at risk for sexual abuse or any other types of serious risk.

Offender interviews revealed that they felt the staff would ensure their safety. Most all inmates interviewed stated that they felt safe in the facility. Many of them stated that RCC was the best facility to be housed. For the most part, the inmates stated they felt comfortable going to any staff member and felt confident that the staff would ensure their protection.

RCC reports in the PAQ that there have been no determinations made that an offender was at substantial risk of imminent sexual abuse. Per the PCM, RCC did not have any inmates determined by the facility to be subject to a substantial risk of imminent sexual abuse requiring immediate action during this audit period. All inmates that report an allegation are immediately separated from the alleged abuser and kept in staff sight at all times until the alleged abuser is secured.

The Auditor randomly reviewed files and talked with staff, both formally and informally, and found no evidence that an inmate was determined to be at imminent risk of sexual abuse. There have been no incidents that required action with regard to this standard.

After a review, the Auditor determined the facility meets the requirements of the standard.

1. RCC Completed PAQ
2. KYDOC Policy 14.7

Interviews with the following:
- PREA Coordinator
- PCM
- Warden
Findings:

The agency's policy is written in accordance with the standard and requires that if the Warden or his/her designee receives an allegation regarding an incident of sexual abuse that occurred at another facility, they must make notification within 72 hours. During this review period, the facility reported receiving 9 notifications from an inmate alleging sexual abuse while incarcerated at another facility that needed to be reported. According to targeted interviews with the Warden and PCM, if they receive such a notice, they would immediately report such an allegation to the Warden or Administrator of the other facility and document such a notice. They confirmed their understanding of their affirmative requirement to report allegations in accordance with the standard. The Auditor reviewed documentation that this is being done as required by the standard.

RCC requires that if the Warden or designee receives notice that a previously incarcerated inmate makes an allegation of sexual abuse that occurred at the RCC, it would be investigated in accordance with the standards. The RCC reported receiving no notifications in the past 12 months from another facility that any of their former inmates alleged being sexually abused while incarcerated at the RCC. Interviews with the PCM confirm the staff are aware of their obligation to fully investigate allegations received from other facilities. The PCM and Warden confirm any allegation received from another facility would be acted upon immediately and investigated the same as if it had been reported at the facility.

Further, interviews with the staff, both formal and informal, revealed that staff is aware of their obligations with regard to reporting, and there is a universal understanding and commitment to immediately report any allegations of sexual abuse or harassment, which increases the probability that abuse will be detected, reported and investigated. Staff stated unequivocally that they would report any PREA knowledge immediately.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. PREA Checklist
4. Review of investigative files
5. Interviews with Random Staff, PCM, Investigator

Findings:

The policy is written in accordance with the standard and indicates actions staff should take in the event of learning an inmate has been sexually assaulted. Policy requires that when an inmate reports an incident of sexual abuse, the responding staff member: Separate the alleged victim and alleged abuser, Preserve and protect and evidence, if the abuse allegedly occurred within a time period that would allow the collection of evidence the first responded advise the victim not take any actions that would destroy any evidence, and take action to prevent the alleged abuser from destroying evidence.

There have been no instances of reported sexual assault during this review period that required the first responder to preserve or collect physical evidence. There have been 10 allegations of sexual abuse in the last 12 months. In each case, the alleged victim was separated from the alleged aggressor.
The auditor interviewed no inmates during the on-site portion of the audit who had reported sexual abuse. RCC is a reception center, and once classified, the inmates are transferred to their permanent location.

The Auditor conducted formal and informal interviews with staff first responders. Security first responders were asked to explain the steps they would take following an alleged sexual abuse reported to them. Most all staff interviewed said that they would notify their supervisor after separating the inmates and wait for further instructions. The staff were able to appropriately describe their response procedures and the steps they would take, including separating the alleged perpetrator and victim and securing the scene and any potential evidence. The Auditor was informed the scene would be preserved and remain so until the Investigator arrived to process the scene.

A targeted interview with three Investigators indicated that once the initial steps were done and the scene was secure, the State Police would be notified, depending on the nature of the investigation.

All staff at RCC are issued PREA Response Cards with information regarding proper response to PREA Allegations of sexual abuse. All staff are required to have this card which provides information as first responder responsibilities to protect and preserve evidence. The Auditor viewed these cards and several staff referred to them during the random and targeted interviews.

The Auditor conducted interviews with supervisory staff. The Auditor asked what the supervisor response and role would be following a report of sexual assault. The supervisors stated that they would ensure the alleged victim and alleged abuser were removed from the area and kept separately in the facility. The crime scene would be secured and a staff member posted to ensure no one entered the scene. The alleged victim would be taken to medical for treatment and transported to the ER for a forensic exam, if needed. The PCM would also be informed. The supervisor stated the Investigator(s) would be the only ones allowed in the crime scene to process the evidence.

Policy requires that if the first responder is not a security staff member, the staff immediately notify a security staff member. There were three instances during the audit period where a non-security staff member acted as a first responder to an allegation of sexual abuse. The Auditor conducted formal interviews with non-security personnel. Staff were asked what actions they would take following an alleged sexual abuse reported to them. Staff indicated they would ensure the victim remains with them and immediately inform an officer or supervisor. They would also request the victim not take actions to destroy evidence.

Medical personnel interviewed stated they would first ensure a victim’s emergency medical needs are met. They stated they would request the victim not to use the restroom, shower, or take any other actions which could destroy evidence. Medical staff informed the auditor they would immediately notify a supervisor if they were the first person to be notified of an alleged sexual abuse. Victims would be transported off-site for forensic exams if needed.

After a review, the Auditor determined the facility meets the requirements of the standard.

**Evidence Relied upon to make Compliance Determination:**

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. PREA Checklist
4. Sexual Assault Action Plan
5. Interview with PCM and Warden

**Findings:**

RCC has a coordinated facility plan to address actions in response to an incident of sexual abuse among facility staff, including first responders, supervisory staff, medical, investigative staff and administrators. Interviews with multiple staff indicate that they understand their duties in responding to allegations of sexual assault and are knowledgeable in their role and the response actions they should take. The RCC has a PREA Checklist to ensure that all aspects of the response are covered and nothing is missed. Many of the facility staff involved in responding to incidents of sexual abuse are a part of the incident review team.

There have been no instances of reported sexual assault during this review period that required the first responder to preserve or collect physical evidence.

The facility has a “Sexual Assault Action Plan” that dictates actions taken by facility staff in the event of a sexual assault allegation. This is standardized throughout the KYDOC.

The auditor interviewed the Warden, three designated investigators, as well as the PCM, who is also an investigator, who all described the facility’s coordinated response in the case of an allegation of sexual abuse or harassment. The response begins with the allegation and first responder action to protect the victim, secure the crime scene and protect any potential evidence. The initial investigation begins with
the first responders and supervisors and then the facility investigators. Depending on the nature of the allegation, the investigation will either begin as administrative or criminal. In the case of a criminal investigation, the victim is treated in accordance with policy and provided forensic exams and ancillary services, as well as advocacy services. The remainder of the investigation is dictated by the nature of the allegation. Regardless, all investigations are completed and a finding is assigned. It may be referred for criminal prosecution or handled administratively and could require medical and mental health services and monitoring for retaliation and notice to the victim about the outcome of the investigation.

After a review, the Auditor determined the facility meets the requirements of the standard.

Interviews with the following:
• PREA Coordinator

Findings:

The RCC has not entered into any agreement that limits the agency’s ability to remove alleged staff sexual abusers from contact with inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted.

The KYDOC prohibits entering into a collective bargaining agreement. The Kentucky Department of Corrections does not have any collective bargaining power therefore this standard is non-applicable.

Per memo and interview with the PREA Coordinator, the auditor verified that there is not a collective bargaining agreement in place.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7

Interviews with the following:

- PCM
- Warden

Findings:

The agency's policy is written in accordance with the standard and requires staff and inmates who report substantiated allegations of sexual abuse or harassment are protected from retaliation for making such reports. Policy indicates that the PCM is designated as the staff who will be responsible for monitoring retaliation for a minimum period of 90 days.

The Auditor conducted a formal interview with the staff member responsible for monitoring retaliation. The Auditor asked the staff member how he goes about monitoring retaliation. The staff member stated he reviews disciplinary charges and Incident Reports and any other actions related to the inmate including documents maintained in the inmate’s file and his electronic record. The auditor reviewed Inmate Monitoring Forms provided by the facility and the facility is in compliance with the requirements of the standard.

The Auditor asked the staff member the amount of time he will monitor for acts of retaliation. He stated the monitoring period would be a minimum of 90 days, and longer if necessary. In the event the inmate cannot be protected at the facility, the staff can and will recommend a transfer.

RCC would ensure the protection of an inmate who is being retaliated against by a staff member as required by the standard. The Auditor was informed the administration will discuss staff assignments with the supervisor to ensure the staff member is not placed in an area where the inmate is housed. The retaliation would be reported through the chain of command to ensure the staff member who is retaliating against an inmate is appropriately disciplined, if need be. As previously stated, the inmate can also be transferred at the request of staff.

The PCM and other supervisory staff have the authority to move inmates around the facility or to request transfers to other facilities or take other protective measures to assure inmates are not retaliated against. In addition, the Warden has the authority and would intervene in any way necessary
to protect employees from retaliation if they reported incidents of sexual abuse or harassment. The Warden continually monitors the progress of PREA investigations and receives regular updates by the PCM until the investigation is complete. She can also log onto the computer at any time to see the status of the investigation.

The auditor reviewed examples of monitoring for retaliation provided by the facility and found them to be in compliance with the standard. In addition, staff interviews confirmed their knowledge of the requirements for protection from retaliation for both inmates and staff members. All staff members interviewed affirmed that they had an affirmative requirement to report any incident of retaliation and also reported that they know that they could report such incidents anonymously. The agency has prepared forms that include checklists that would assure and verify compliance with the necessary elements of the standard.

The facility reported there were no incidents of retaliation in the last 12 months. In addition, RCC did not have any investigation requiring staff retaliation monitoring for this audit period.

After a review, the Auditor determined the facility meets the requirements of the standard.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy
3. Review of all Investigative Files from the past 12 Months
Interviews with the following:
- PCM
- Staff who supervise inmates in RH

Observation of the following:
- Observation of Inmates in restrictive housing

Findings:
The agency’s policy is written in accordance with the standard and requires the use of segregated housing be subjected to the requirements of PREA standard 115.43. Both formal and informal interviews with staff state they would not place an inmate in segregation for reporting sexual abuse or assault. Staff indicated they would not ordinarily place a sexual assault victim in segregation unless he had requested it. Staff explained that other alternatives are explored and segregation is utilized as a last resort. The Auditor observed several areas in the facility to place sexual abuse victims to ensure they are protected from abusers without having to place the victim in segregated housing.

RCC does not have restrictive housing areas and any inmates requiring this housing would be temporarily transferred to Luther Luckett. No staff that was interviewed by the Auditor indicated that inmates were assigned to restrictive housing as a result of their sexual vulnerability.

The agency has had no incidents that have required restrictive protective custody. Interviews with the supervisory staff as well as the PCM and Unit Administrators confirmed their knowledge of their requirements to appropriately adhere to the elements of standard 115.43, after a victim’s allegation of abuse.

In addition, during targeted interviews with the Unit Administrator and PCM, they both verified that there have been no instances of inmates being placed in restrictive housing as a result of the sexual victimization or vulnerability. There were no records or documentation to review regarding this standard because there were no instances of the use of restrictive housing to protect and inmate who was alleged to have suffered sexual abuse.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Review of Investigative files
4. Interviews with Staff
5. Documentation of Investigator Training
6. Certificates of Completion for Facility Investigators
7. Training Curricula for Investigative Training specific to Corrections

Findings:

The KYDOC policy is written in accordance with the standard. Policy requires that the agency conduct administrative investigations of sexual abuse and harassment. The policy stipulates criminal investigations shall be conducted by the State Police, depending on the nature of the investigation. The agency policy stipulates that they will respond to complaints that are received internally and externally by a third party. The policy requires that investigations are responded to promptly. The RCC conducts an investigation on all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports. The policy requires administrative investigations to include efforts to determine whether staff actions or failure to act contributed to an act of sexual abuse. Investigative reports are required to include a description of physical evidence, testimonial evidence, the reason behind credibility assessments, and investigative facts and findings. The auditor reviewed investigative reports for the 22 allegations of sexual misconduct during the past 12 months. All reports contained the required elements as dictated by the standard. All allegations reviewed by the auditor were investigated promptly and thoroughly, regardless of the source of the allegation.

If at any time during the investigation, it appears the charges are criminal in nature, the investigation will be referred to the State Police. The facility is required to maintain written investigative reports for as long as the alleged abuser is incarcerated or employed by the RCC, plus an additional 5 years. Policy prohibits the termination of an investigation if an inmate is released or a staff member is terminated or terminates employment. A memo provided by the facility from the KSP Academy Director verifies that all KSP Troopers receive training in sexual abuse investigations during the basic training. The training includes techniques for interviewing sexual abuse victims, proper use of Miranda warnings, sexual abuse evidence collection, including in confined settings and the criteria and evidence required to substantiate a case for prosecution.

RCC investigators are required by policy to cooperate with outside investigators and attempt to communicate to remain informed about the progress of a sexual abuse investigation. According to targeted interviews with one of the designated Investigators, if the State Police were to conduct an investigation of sexual abuse, the facility investigator serves as a liaison and would keep facility administrators informed of the progress of the investigation. The investigator stated that if the State Police investigate an allegation, they typically work together and share information. There has been one investigation referred to the KSP during this audit period. RCC closed this allegation as substantiated.

At the time of the on-site audit, the RCC employed and provided training records for 21 staff members who have received specialized training to conduct sexual abuse investigations in confinement facilities. The auditor was provided training curricula and training certificates of designated investigators. The auditor reviewed and verified that each of the facility investigators had proof of receiving the specialized training required by the standard. Each investigator had received specialized training to conduct sexual abuse investigations in confinement settings. Targeted interviews with three facility investigators verified they are available to respond immediately if necessary.

The Auditor conducted a formal interview with three of the facility’s designated PREA Investigators. The Auditor asked the Investigators to describe their process when conducting an investigation. They all stated slight variations of the same information. They interview the victim, alleged perpetrator, inmate witnesses, and staff witnesses if applicable. They review the scene, preserves any evidence if necessary and then begins looking at other documents. They review criminal histories on all inmates involved, disciplinary history, incident reports, and classification actions. The investigator reviews video
footage if applicable, telephone recordings, staff logs, and any other relevant items which could be considered evidence to support the determination. They will notify the PCM and facility administration of the allegation. If at any point during the investigation it is determined there could be potential criminal charges involved, the investigation would be reviewed and discussed and State Police would be contacted. The facility or the KSP can contact the Commonwealth Attorney for referral and consultation as warranted. The Investigator stated he begins the investigation immediately after receiving an allegation.

All investigative files are maintained electronically in the KOMS system with limited access. Investigative files are maintained for a minimum of five years after the abuser has been released or a staff abuser is no longer employed. The RCC does not require inmates to submit to a polygraph examination during sexual abuse investigations.

If an allegation is reported anonymously, the PCM and Investigator both stated the investigation would be handled the same as any other investigation. Staff indicate they would continue the investigation even if an inmate is released or a staff member terminates employment during the investigation.

The RCC has had 22 incidents that required investigation during the review period. The auditor reviewed investigative reports for all 22 allegations of sexual misconduct during the past 12 months. A review of the investigative files indicate that the investigators are conducting the investigations in accordance with the standard. The reports show evidence that the investigator is gathering evidence, interviewing witnesses, victims, perpetrators, and conducting the investigation promptly. The investigation appears to be conducted promptly, thoroughly and objectively.

There has been one allegation referred for criminal investigation to the KSP during this audit period. There has been no investigations referred for criminal prosecution during this audit period. The 22 allegations of sexual misconduct during the review period are detailed in the chart below.

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Review of Investigative files for the past 12 months

Interviews with the following:
- PCM
- Investigative Staff

Findings:

The agency’s policy is in compliance with the requirements of the standard and imposes no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated.

A formal interview with both the PCM and three of the designated Investigators confirmed that the staff responsible for administrative adjudication of investigations is aware of the requirements of the evidentiary standard. The investigators were each able to articulate what preponderance meant and how they arrive at the basis for their determinations. There have been 22 allegations of sexual abuse or harassment within the last 12 months for which the auditor reviewed the investigative files. There have been three substantiated case of offender to offender sexual harassment and one substantiated case of staff to offender sexual harassment and one substantiated case of staff to offender sexual abuse. A review of the files indicates that the investigations are being conducted in accordance with the standard.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Review of investigative files and notification to inmate

Interviews with the following:

- PCM
- PREA Coordinator
- Investigator

Findings:

The agency policy is written in accordance with the standard and requires and inmate be notified when a sexual abuse allegation has been determined to be substantiated, unsubstantiated, or unfounded within 30 days following the conclusion of the investigation. The auditor conducted targeted interviews with the PREA Coordinator, the PCM and three RCC Investigators. The agency is responsible for administrative investigations. There has been one allegation referred to the KSP during this audit period.
The Auditor conducted an interview with the PREA Coordinator, PCM and Investigators. They indicated that inmates are informed of the results of an investigation at the conclusion of the investigation. A standardized form is used throughout the department for offender notification. There is a notification form for offender allegations, as well as staff allegations.

During the past 12 months, there have been 22 allegations of sexual abuse or harassment at RCC. There were no inmates who reported sexual abuse or harassment in custody at RCC during the on-site portion of the audit for targeted interviews.

The Auditor reviewed the investigative files for all 22 reported allegations of sexual assault or harassment. The RCC made notification to the inmates at the conclusion of the investigation as required. Interviews with the facility investigators and PCM confirmed their knowledge of their affirmative requirement to report investigative finding to inmates in custody.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 3.22
3. Interviews with Staff

Findings:

The KYDOC PREA and disciplinary policies were reviewed and are in compliance with the requirements of the standard. Staff is subject to disciplinary sanctions up to and including termination for violating the sexual abuse or sexual harassment policies. Policy requires that staff found responsible for sexual abuse of an inmate shall be terminated from employment. Employees who are found to have violated agency policy related to sexual abuse and harassment, but not actually engaging in sexual abuse shall be disciplined in a manner commensurate with the nature and circumstances of the acts as well has the previous disciplinary history of the staff and comparable to other comparable offenses by other staff with similar disciplinary histories.

According to the submitted PAQ, in the past 12 months, there were zero staff terminations or disciplinary actions related to the sexual abuse or harassment of inmates. Discussions with the PCM, Warden and Investigators indicated that there was one substantiated allegation of staff to offender sexual abuse, however the staff member was a contract staff and had already left employment at RCC. This allegation was referred to the KSP for further investigation. There was also one allegation of staff to offender sexual harassment that was still being investigated and finalized at the time of the onsite review.

Interviews with facility staff and administrators verified that staff consider a violation of the PREA policy to be of sufficient seriousness to warrant termination and prosecution in accordance with the law. In both formal and informal staff interviews, the staff was aware that the agency has a zero-tolerance policy regarding sexual abuse and any such incidents would be investigated and reported to the appropriate agency for prosecution, if necessary.
The Auditor interviewed facility administration regarding the facility’s staff disciplinary policy. Facility administration indicated that if a staff member is terminated for violating the facility’s sexual assault and harassment policy, and if the conduct is criminal in nature, it would be referred to the State Police and Commonwealth Attorney’s office for possible prosecution. If an employee under investigation resigns before the investigation is complete, or resigns in lieu of termination, that does not terminate the investigation or the possibility of prosecution if the conduct is criminal in nature. The facility would still refer the case to the Commonwealth Attorney’s office when a staff member terminates employment that would have otherwise been terminated for committing a criminal act of sexual abuse or sexual harassment.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s
conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 3.22
3. Interviews with Staff

Findings:

The KYDOC PREA and disciplinary policies were reviewed and are in compliance with the requirements of the standard. Policy stipulates that contractors and volunteers who violate the sexual abuse or sexual harassment policies are prohibited from having contact with inmates and will have their security clearance for the DOC and RCC revoked. In the past 12 months, there has been one substantiated allegation of staff to offender sexual abuse, however the staff member had already left employment at RCC. This allegation was referred to the KSP for further investigation.

A targeted interview with 5 contract staff members verified that they consider a violation of the PREA policy to be of sufficient seriousness to warrant termination from the facility. The contract staff were aware that the agency has a zero-tolerance policy regarding sexual abuse and any such incidents would be investigated and reported to the appropriate agency for prosecution, if necessary.

The Auditor interviewed facility administration regarding the disciplinary policy regarding contract staff and volunteers. Facility administration indicated that contractors and volunteers who violate the sexual abuse or sexual harassment policies will have their security clearance revoked immediately. Contract staff would most likely be terminated by the contract employer. If the conduct is criminal in nature, it will be referred to investigators, with referral to the State Police and the Commonwealth Attorney’s office for possible prosecution.

After a review, the Auditor determined the facility meets the requirements of the standard.

Standard 115.78: Disciplinary sanctions for inmates

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.78 (a)

- Following an administrative finding that an inmate engaged in inmate-on-inmate sexual abuse, or following a criminal finding of guilt for inmate-on-inmate sexual abuse, are inmates subject to disciplinary sanctions pursuant to a formal disciplinary process? ☒ Yes ☐ No

115.78 (b)

- Are sanctions commensurate with the nature and circumstances of the abuse committed, the inmate’s disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories? ☒ Yes ☐ No
115.78 (c)  
- When determining what types of sanction, if any, should be imposed, does the disciplinary process consider whether an inmate’s mental disabilities or mental illness contributed to his or her behavior? ☒ Yes ☐ No

115.78 (d)  
- If the facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, does the facility consider whether to require the offending inmate to participate in such interventions as a condition of access to programming and other benefits? ☒ Yes ☐ No

115.78 (e)  
- Does the agency discipline an inmate for sexual contact with staff only upon a finding that the staff member did not consent to such contact? ☒ Yes ☐ No

115.78 (f)  
- For the purpose of disciplinary action does a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred NOT constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation? ☒ Yes ☐ No

115.78 (g)  
- If the agency prohibits all sexual activity between inmates, does the agency always refrain from considering non-coercive sexual activity between inmates to be sexual abuse? (N/A if the agency does not prohibit all sexual activity between inmates.) ☒ Yes ☐ No ☐ NA

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 15.2, 14.7
3. Inmate Handbook
4. Review of Investigative Files
5. Review of Classification Records
6. Interviews with Staff

Findings:

The agency policy directs that inmates are not permitted to engage in non-coercive sexual contact and may be disciplined for such behavior. Policy dictates that staff is prohibited from disciplining an inmate who makes a report of sexual abuse in good faith and based on a reasonable belief the incident occurred, even if the investigation does not establish sufficient evidence to substantiate the allegation.

RCC prohibits sexual activity between inmates. Inmates found to have participated in sexual activity are internally disciplined for such activity. If the sexual activity between inmates is found to be consensual and non-coercive, staff will not consider the sexual activity as an act of sexual abuse. The auditor reviewed examples of disciplinary action for non-coercive, consensual activity between inmates. All examples reviewed were in compliance with agency policies and standards.

KYDOC policy states inmates are subject to formal disciplinary action following an administrative finding that they engaged in inmate-on-inmate sexual abuse. According to the submitted PAQ, there have been no substantiated instances of inmate-on-inmate sexual abuse. There have been no criminal findings of guilt for inmate-on-inmate sexual abuse. The auditor reviewed the investigative files for all 22 allegations of sexual misconduct within the last 12 months. There were three substantiated allegations of offender to offender sexual harassment.

According to policy, disciplinary action for inmates is proportional to the abuse committed as well as the history of sanctions for similar offenses by other inmates with similar histories.

Agency policy requires that staff consider whether an inmate’s mental health contributed to their behavior before determining their disciplinary sanctions. RCC has had no disciplinary reports involving inmate-on-inmate sexual abuse that involved an inmate that had a mental disability or mental illness that contributed to the inmates’ behavior or necessitated mental health input during the previous twelve (12) months.

There is currently mental health staff on site to provide mental health services to the inmates at RCC. Mental health staff provides an array of services, including programming, supportive counseling and crisis intervention. Mental health staff are on call for emergent needs and can transfer inmates if they need more in-depth mental health treatment. Any decision to offer counseling or therapy to offenders and the initiation of any such counseling or therapy for individuals who have committed sexual offenses would be done at the discretion of the mental health staff in conjunction with a treatment plan for the offender.

Agency policy stipulates that inmates will not be disciplined for sexual contact with staff unless it is substantiated that the staff did not consent. There were no unsubstantiated or substantiated instances of inmate on staff sexual abuse or harassment during the audit period.
Agency policy prohibits disciplining inmates who make allegations in good faith with a reasonable belief that prohibited conduct occurred. The Auditor reviewed investigative files, classification files, inmate records and interviewed staff. There is no evidence to suggest an inmate received a disciplinary charge for making an allegation of sexual abuse or sexual harassment in good faith.

Interviews with staff and inmates confirmed their knowledge of the policy regarding inmates engaging in non-coerced sexual activity. Furthermore, the staff and inmates were aware that the agency has an internal disciplinary process for inmates who engage in sexually abusive behavior against other inmates and knew that they could be disciplined for sexual abuse.

After a review, the Auditor determined the facility meets the requirements of the standard.

MEDICAL AND MENTAL CARE

Standard 115.81: Medical and mental health screenings; history of sexual abuse

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.81 (a)

- If the screening pursuant to § 115.41 indicates that a prison inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, do staff ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening? (N/A if the facility is not a prison.) ☒ Yes ☐ No ☐ NA

115.81 (b)

- If the screening pursuant to § 115.41 indicates that a prison inmate has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, do staff ensure that the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening? (N/A if the facility is not a prison.) ☒ Yes ☐ No ☐ NA

115.81 (c)

- If the screening pursuant to § 115.41 indicates that a jail inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, do staff ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening? ☒ Yes ☐ No

115.81 (d)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. PREA Screening and Follow-up
4. Random Review of Files
5. Follow up mental health referral within 14 days
6. Interviews with Staff, including the following:
   a. PCM
   b. MH Staff
   c. Medical Staff
7. Interviews with Inmates

Findings:

The KYDOC policy is consistent with the requirements of the standards. The policy requires staff to offer a follow-up meeting with medical or mental health staff within 14 days of arrival at the facility for an inmate that reports sexual victimization, either in an institutional setting or in the community. It is the policy of the KYDOC to identify, monitor and counsel inmates who are at risk of sexual victimization, as well as those who have a history of sexually assaultive behavior. This is particularly important at RCC since they are the receiving center and initiate the information that will follow the inmate to subsequent facilities.
A random review of inmate files validated that the screenings were being conducted in accordance with the standards and the policy. In addition, there were several documented instances provided by the facility where inmates who were identified as needing follow up care, were offered and received the follow-up care within the 14-day period prescribed by the standards. An interview with medical staff and mental health staff confirms that if an inmate answers yes on the screening question that they have experienced previous victimization, it automatically triggers an alert for a referral and the inmate is offered a follow-up meeting, which is scheduled at that time. According to the mental health personnel, these follow-ups are typically done through tele-health.

Of the currently housed inmates at the time of the on-site review, there were 3 inmates identified as having reported previous sexual victimization that were interviewed during the targeted inmate interviews. The inmates all recall being offered mental health services.

The Auditor conducted a formal interview with mental health staff. The staff member indicated that inmates identified as needing follow-up care are scheduled to be seen within 14 days, and this usually occurs within 7 days. When asked who this information would be shared with, it was clear that confidentiality was taken seriously and that this information would be only be shared with those who needed to know. Services are offered to both inmates at risk of victimization, as well as inmates who have a history of sexually assaultive behavior.

This information is recorded in the KOMS electronic system and each staff member with access has an individual login and password. An interview with the PREA Coordinator and PCM confirmed that information related to sexual victimization and sexual abusiveness is kept secure and confidential with limited staff access. This information is limited access and only used to make housing, bed, work, education, and other program assignments.

KYDOC policy states that medical and mental health personnel will obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18. Interviews with medical and mental health staff confirm that they would gain informed consent before reporting information about prior sexual victimization that did not occur in an institutional setting. The auditor reviewed examples of signed informed consent forms.

After a review, the Auditor determined the facility meets the requirements of the standard.

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Shift Supervisor Checklist
4. Interviews with Staff, including the following:
   a. PCM
   b. Investigator
   c. Medical Staff
   d. Random Security Staff
5. Interviews with Inmates
Findings:

The KYDOC policy is written in compliance with the standard and states that all inmate victims of sexual abuse will receive timely, unimpeded access to emergency medical treatment and crisis intervention services. Interviews with medical staff, mental health staff, as well as the PCM confirm that victims of sexual abuse would receive timely, unimpeded access to emergency medical treatment and crisis intervention services. Contract medical staff through Wellpath provide coverage 24 hours per day, seven days a week. The staff are aware of their responsibilities with regard to protection of the victim and evidence in the case of a report of sexual assault. In addition, the contracted medical and mental health staff are available 24 hours per day in the case of emergency and/or for crisis intervention services. This was confirmed by the PCM and medical staff. For services that are outside the scope of their experience, the victim can be treated at the local emergency department. Forensic exams are conducted off-site at the local emergency department by qualified forensic nurse examiners. An advocate from the rape crisis center, The Center for Women and Families is available at the request of the victim.

There were no documented allegations of sexual abuse requiring emergency medical or mental health services during the review period.

KYDOC policy states that all inmate victims of sexual abuse will be offered information and access to sexually transmitted infections prophylaxis in accordance with professionally accepted standards of care, where medically appropriate. Medical staff was interviewed and confirmed the fact that they knew that they had an affirmative responsibility to provide care without regard to the ability of the victim pay for services or identify the alleged abuser, and the requirement to make a provision for STD prophylaxis if required. They confirmed that victims of sexual abuse would be offered these services either at the emergency room or as a follow-up once returned to the facility. There have been no allegations of sexual assault at the RCC in the last 12 months requiring these services. There is a Medical Assessment Form on which these services are documented.

RCC policy states that forensic examinations will be performed by Sexual Assault Forensic Examiners (SAFE’s) or Sexual Assault Nurse Examiners (SANE) at a local hospital without a financial cost to the victim. The facility has an agreement with Louisville University Hospital to perform this service. Interviews with medical staff confirm that victims of sexual abuse would not be charged for services received as a result of a sexual abuse incident. There have been no allegations of sexual assault at the RCC in the last 12 months requiring these services.

After a review, the Auditor determined the facility meets the requirements of the standard.

Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Interviews with Staff, including the following:
   a. Mental Health Staff
   b. Medical Staff
4. Interviews with Inmates

Findings:

The KYDOC policy is written in compliance with the standard and states that the facility will offer medical and mental health evaluation and treatment to all inmates who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility. The evaluation and treatment of such victims will include follow up services, treatment plans, and referrals for continued care following their transfer or release. Interviews with medical and mental health staff confirm that these services would be available to inmates who have been victims of sexual abuse, and these services would be consistent with the community level of care. The KYDOC does a very good job of documentation and communication with respect to inmate victims and abusers. The auditor reviewed multiple examples of communication between facility staff, as well as information entered into KOMS.

Inmate victims of sexual abuse while in the facility will be offered tests for sexually transmitted infections as medically appropriate. Interviews with medical staff confirm that inmate victims of sexual abuse would be offered tests for sexually transmitted infections and emergency prophylaxis. These services are documented on a Medical Assessment Form. There have been no allegations of sexual assault at the RCC in the last 12 months requiring these services.

KYDOC policy states that all treatment services for sexual abuse will be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. Interviews with medical staff confirm that these services would be provided to the inmate at no cost. There have been no allegations of sexual assault at the RCC in the last 12 months requiring these services.

The auditor reviewed documentation provided by the facility of ongoing services and mental health care for inmates identified as victims. In addition, the facility provided documentation of mental health evaluation and follow-up of identified inmate-on-inmate abusers. In a targeted interview with the mental health staff, they stated that both inmate abusers are offered services and a mental health evaluation would be completed.
Staff interviews confirmed the presence of policies and procedures consistent with the standard and also confirmed the medical and mental health staffs’ knowledge of the policy and standard. Interviews with inmates confirm they are generally aware of the availability of services should they request or require them. The local rape crisis center is available for crisis counseling and/or advocacy services and inmates can request to speak with mental health. There were no allegations of sexual assault during this review period where the inmate was transferred to the hospital.

After a review, the Auditor determined the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

\begin{quote}
The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
\end{quote}

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Interviews with Staff

Findings:

The KYDOC has a policy that governs the review of all substantiated or unsubstantiated allegations of sexual abuse. Agency policy states that a sexual abuse incident review will be conducted within 30 days after the conclusion of every sexual abuse investigation unless the allegation has been determined to be unfounded. The review team will consist of upper-level management officials, supervisors, investigators, and medical/mental health personnel. During this review period there have been 22 total allegations of sexual misconduct and corresponding administrative allegations in the previous 12 months at RCC. Of these allegations, 5 were substantiated (1 sexual abuse and 4 sexual harassment), 10 unsubstantiated (5 sexual abuse and 5 sexual harassment) and 7 unfounded (4 sexual abuse and three sexual harassment). The auditor reviewed examples of the incident reviews provided by the facility. They were completed within 30 days and considered all elements as required by the standard.
In accordance with the standard, KYDOC policy states that the review team will consider a need to change policy or practice to better prevent, detect, or respond to sexual abuse; if the incident or allegation was motivated by race, ethnicity, gender identity, lesbian, gay, bisexual, transgender, or intersex identification, status, perceived status, gang affiliation; the area in the facility where the alleged incident occurred to assess whether physical barriers in the area may permit abuse; the adequacy of staffing levels in that area during different shifts; and whether monitoring technology should be deployed or augmented to supplement supervision by staff. An interview with a member of the incident review team confirms if there was an incident that required a review, all these factors would be considered. An interview with the PCM confirms that a report of the findings, including recommendations for improvement, would be completed and submitted for inclusion in the file. The Warden will review the recommendations. The PCM also stated any recommendations would be implemented, or the reasons for not doing so would be documented. RCC does an excellent job of implementing any corrective action or recommendations as a result of incident reviews.

The RCC has appointed a team that conducts incident reviews at the conclusion of any sexual assault investigations as stipulated by the standard. This was confirmed by formal interview of the Warden and PCM. A written report of the findings is prepared and maintained by the PCM. He indicated that the reviews ordinarily take place within 30 days of the conclusion of the investigation.

Sexual Abuse Incident Reviews are conducted in a standardized method department wide. Team members meet to discuss the various components required by the standard and then this is documented on the Sexual Abuse Incident Review Report Form. The PREA Coordinator’s office and assigned staff track the incident reviews to ensure that they are complete and require a copy be submitted to them upon completion in the required timeframe. This oversight and standardization is completed not only for sexual abuse allegations, but for all PREA related abuse allegations.

After a review, the Auditor determined the facility exceeds the requirements of the standard.

**Standard 115.87: Data collection**

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.87 (a)

- Does the agency collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions? ☒ Yes ☐ No

115.87 (b)

- Does the agency aggregate the incident-based sexual abuse data at least annually? ☒ Yes ☐ No

115.87 (c)

- Does the incident-based data include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice? ☒ Yes ☐ No
115.87 (d)

 Does the agency maintain, review, and collect data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews?
  ☒ Yes ☐ No

115.87 (e)

 Does the agency also obtain incident-based and aggregated data from every private facility with which it contracts for the confinement of its inmates? (N/A if agency does not contract for the confinement of its inmates.) ☒ Yes ☐ No ☐ NA

115.87 (f)

 Does the agency, upon request, provide all such data from the previous calendar year to the Department of Justice no later than June 30? (N/A if DOJ has not requested agency data.) ☒ Yes ☐ No ☐ NA

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ
2. KYDOC Policy 14.7
3. Annual Report 2020
5. Memo
6. Interviews with Staff

Findings:

The KYDOC policy is consistent with the requirements of the standard and states that the agency will collect annually accurate, uniform data for every allegation of sexual abuse necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice and complete an annual report based upon said data. The Auditor reviewed the Annual Report available on the facility website, including aggregated sexual abuse data for calendar year 2020.
An interview with the PREA Coordinator confirms the agency maintains, reviews, and collects data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews. Data from the previous calendar year is supplied to the Department of Justice no later than June 30th, if requested.

The facility is collecting and aggregating sexual abuse data on an annual basis as required by the standard. The Kentucky Department of Corrections collects accurate, uniform data for every allegation of sexual abuse at all facilities using a standardized instrument and set of definitions using our Kentucky Offender Management System (KOMS). This is available on the facility website and in the KYDOC policy.

Each KYDOC facility completes monthly reports and submits them to the PREA Coordinator’s office for review. Each incident is logged in the KOMS system which allows for review and accurate collection of data throughout the agency.

There is a comprehensive annual PREA Statistical Report for all KYDOC facilities.

After a review, the Auditor determined the facility exceeds the requirements of the standard.

**Corrective Action:** None

**Standard 115.88: Data review for corrective action**

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.88 (a)

- Does the agency review data collected and aggregated pursuant to § 115.87 in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training, including by: Identifying problem areas? ☒ Yes ☐ No

- Does the agency review data collected and aggregated pursuant to § 115.87 in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training, including by: Taking corrective action on an ongoing basis? ☒ Yes ☐ No

- Does the agency review data collected and aggregated pursuant to § 115.87 in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training, including by: Preparing an annual report of its findings and corrective actions for each facility, as well as the agency as a whole? ☒ Yes ☐ No

115.88 (b)

- Does the agency’s annual report include a comparison of the current year’s data and corrective actions with those from prior years and provide an assessment of the agency’s progress in addressing sexual abuse ☒ Yes ☐ No

115.88 (c)
Is the agency’s annual report approved by the agency head and made readily available to the public through its website or, if it does not have one, through other means? ☒ Yes ☐ No

115.88 (d)

Does the agency indicate the nature of the material redacted where it redacts specific material from the reports when publication would present a clear and specific threat to the safety and security of a facility? ☒ Yes ☐ No

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Relied upon to make Compliance Determination:

1. RCC Completed PAQ with ADP
2. Statistical Report 2020
3. Annual Report 2020
4. Website with sexual abuse data
5. Interviews with Staff

Findings:

The KYDOC policy is consistent with the requirements of the standard and indicates that data collected pursuant to 115.87 will be made readily available to the public through the agency website, excluding all personal identifiers after final approval. The Auditor reviewed the Annual Reports available on the agency website, including data for calendar year 2020. The reports indicate that the agency reviewed the data collected in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training. The report, entitled “Annual PREA Report” includes an overview of the facility’s plan for addressing sexual abuse and aggregated data. The annual report indicates the agency’s efforts to address sexual abuse include continually providing education and staff training, as well as evaluating processes and standardization. Interviews with the PREA Coordinator and the Commissioner confirm these efforts.

The report is signed by the Commissioner and there is no personally identifying information in the report.
After a review, the Auditor determined the facility meets the requirements of the standard.

Corrective Action: None

**Standard 115.89: Data storage, publication, and destruction**

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.89 (a)

- Does the agency ensure that data collected pursuant to § 115.87 are securely retained? ☒ Yes ☐ No

115.89 (b)

- Does the agency make all aggregated sexual abuse data, from facilities under its direct control and private facilities with which it contracts, readily available to the public at least annually through its website or, if it does not have one, through other means? ☒ Yes ☐ No

115.89 (c)

- Does the agency remove all personal identifiers before making aggregated sexual abuse data publicly available? ☒ Yes ☐ No

115.89 (d)

- Does the agency maintain sexual abuse data collected pursuant to § 115.87 for at least 10 years after the date of the initial collection, unless Federal, State, or local law requires otherwise? ☒ Yes ☐ No

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

**Evidence Relied upon to make Compliance Determination:**

1. RCC Completed PAQ
Findings:

The RCC policy is consistent with the requirements of the standard, which mandates that sexual abuse data be securely maintained and indicates that data collected pursuant to 115.87 will be made readily available to the public through the agency’s website, excluding all personal identifiers after final approval by the Commissioner. Policy states the agency will ensure all data collected is securely retained for at least 10 years after the date of the initial collection unless Federal, State, or local law requires otherwise. All sexual abuse data and files are maintained in the KOMS electronic system, with limited facility access, including the PCM, and senior facility management. Aggregated sexual abuse data is gathered from the investigative reports. The Auditor reviewed the agency’s website, which included annual reports with aggregated sexual abuse data, as well as an analysis of the data. There were no personal identifiers contained within the report. The Auditor was informed sexual abuse and sexual harassment data is maintained for a minimum of 10 years after collection.

After a review, the Auditor determined the facility meets the requirements of the standard.

**Evidence Relied upon to make Compliance Determination:**

1. Previous Audit Report
2. PAQ
3. On-Site Review

**Interviews with the following:**

- PREA Coordinator
- Warden
- PCM
- Random and Targeted Inmates
Observation of the following:

- Observation of, and access to all areas of the RCC during the site review

The RCC had its last PREA Audit January 23-25, 2019. The Auditor reviewed the facility’s previous PREA report. The Auditor was given full access to the facility. The facility administration was open to feedback and all recommendations and suggestions were implemented immediately. The facility provided the Auditor with a detailed tour of the facility. The Auditor was able to request, review and receive all requested documents, reports, files, video, and other information requested, including electronically stored information. All requested documentation was provided in a timely manner.

All staff cooperated with the Auditor and allowed the Auditor to conduct interviews with staff and inmates in a private area. The auditor was permitted to conduct unimpeded private interviews with inmates at the RCC, both informally and formally. The Auditor was given private interview rooms to interview inmates, which were convenient to inmate housing areas. The RCC staff facilitated getting the inmates to the auditor for interviews in a timely and efficient manner. Informal interviews with inmates confirm that they were aware of the audit and the ability to communicate with the auditor.

The auditor was able to observe both inmates and staff in various settings.

Prior to the on-site review, letters were sent to the facility to be posted in all inmate living areas which included the Auditor’s address. The Auditor observed notices posted in each inmate living unit that were emailed to the PREA Compliance Manager prior to the Audit. The Auditor received documentation that the notices to inmates were posted six weeks in advance of the first day of the audit.

The facility had an onsite review and audit within the three-year period of the last audit and has completed the onsite review and audit process. After a review, the Auditor determined the facility meets the requirements of the standard.
