<p>References/Authority KRS 196.035 29 CFR 1910.1030 as adopted and amended in 803 KAR 2:320</p>	<p>Subject Occupational Exposure to Blood-borne Pathogens</p>	

I. DEFINITIONS

None

II. POLICY and PROCEDURES

Corrections shall issue and implement a written departmental “Exposure Control Plan.”

- A. Each institution shall be required to prepare and implement a written “Exposure Control Plan” specific to the individual institution.
- B. The Division of Community Services shall be required to prepare and implement a written “Exposure Control Plan” specific to that Division.
 - 1. All “Exposure Control Plans” shall identify in writing, tasks, procedures and job classifications if occupational exposure to blood occurs - without regard to personal protective clothing and equipment. The plan shall also set forth a schedule for implementing other provisions of the OSHA standard and specify the procedure for evaluating circumstances surrounding exposure incidents.
 - 2. All “Exposure Control Plans” shall also contain the following specific elements.
 - A. An “Exposure Determination Outline” containing a list of all job classifications for employees which are classified as having occupational exposure, and a list of all task and procedures or groups of closely related tasks and procedures in which exposure may occur, without regard to the use of protective equipment.
 - B. Methods relating to compliance, hepatitis B vaccination, post-exposure evaluation and follow-up, record-keeping procedures and the communication of hazards to employees.
 - C. Employee training requirement.

Policy Number	Effective Date	Page
8.1	March 23, 2006	2

- D. The procedure for the evaluation of circumstances surrounding exposure incidents. Evaluations shall include the documentation of routes of exposure and the circumstances under which the exposure took place.
- 3. The plan shall be accessible to all employees and to OSHA.
- 4. All “Exposure Control Plans” shall be reviewed and updated annually.
