

Sourcebook of Criminal Justice Statistics in the Commonwealth

2012

Prepared by the
Kentucky Statistical Analysis Center

Foreword

Greetings,

It is with great pleasure that the Kentucky Justice and Public Safety Cabinet introduces the 2012 edition of the *Sourcebook of Criminal Justice Statistics in the Commonwealth*. This edition draws together information from the various components of Kentucky's criminal justice system in an effort to provide accurate data that helps stakeholders and policymakers to create effective policy. The Kentucky Justice and Public Safety Cabinet is the second largest agency in state government, and the collaborative efforts of this project's participants are vital as they provide us with a broad overview of the current system. As such, it serves as a platform from which we can identify critical needs and address statewide criminal justice policy issues.

In addition to information about criminal offense and arrest trends and the performance of the court system, adult corrections, and the juvenile justice system, the *Sourcebook* highlights additional areas of interest including the impact of substance abuse and alcohol related offenses. Sharing this material allows for a greater understanding of the issues affecting the state. This is the eleventh edition of the *Sourcebook*, thus allowing comparisons to be made across time for many of the important issues that face our Commonwealth today.

This report is organized in a manner that follows traditional movement across the system from arrest to prosecution and through involvement with the correctional system. Our hope is that this report serves as a convenient resource for criminal justice data for all Kentucky's citizens. Should you have questions or need additional information please feel free to contact the Kentucky Justice and Public Safety Cabinet. I would like to applaud all those who participated in the creation of this project, and to express my sincere appreciation on behalf of the Cabinet for all of the hard work and energy that went into the *Sourcebook's* publication.

J. Michael Brown, Secretary
Kentucky Justice and Public Safety Cabinet

Acknowledgements

Publication of the 2012 edition of the *Sourcebook of Criminal Justice Statistics in the Commonwealth* was made possible through the commitment and participation of criminal justice and other governmental agency representatives. The Justice and Public Safety Cabinet would like to express its sincere gratitude and appreciation to the following organizations and agency representatives who contributed to this important data collection project.

Administrative Office of the Courts

Kat Delaney, Statistician
Records/Research and Statistics
Department of Court Services

Jason Cloyd, Manager
Records/Research and Statistics
Department of Court Services

Attorney General's Office

Tonjua Casey, Internal Policy Analyst
Department of Criminal Investigations

Cabinet for Health and Family Services

Jennifer Withrow, Program Administrator
Family Violence Prevention Branch
Department of Community Based Services
Division of Protection and Permanency

Dave Hopkins, Health Service System Manager
Kentucky All Schedule Prescription Electronic Reporting

Crime Victims Compensation Board

Lindsay Crawford, Policy Advisor
Crime Victims Compensation Board

Department of Corrections

Melissa Chandler, Internal Policy Analyst IV
Division of Parole and Victim Services

Cedric Coleman, Programmer Analyst III
Department of Corrections

Department of Corrections

Ruth Edwards, Internal Policy Analyst
Adult Institutions/Office of Research and Grants

Kristin Smith, Program Administrator
Office of Victim Services

Department of Juvenile Justice

Chad Burkhead, Information Systems Supervisor
Information Systems Branch

Department of Public Advocacy

Scott Richard, CIO/Information
Systems Manager
Law Operations

Federal Bureau of Investigation

Mary E. Trotman, Chief Division Council
Louisville Office

Kentucky Justice and Public Safety Cabinet

Tanya Dickinson, Branch Manager
Grants Management Branch

Kentucky Rescue and Restore

Marissa Castellanos, Human Trafficking Program Manager
Case Management and Family Support Department
Catholic Charities of Louisville

Kentucky State Police

Brandon Cobb, Uniform Crime Reporting Section
Criminal Identification and Records Branch

Limitations of Current Data and Information Systems

As you review the information contained in the *Sourcebook*, it is important to keep in mind that data have been drawn from a number of state level criminal justice data collection systems in an attempt to provide a snapshot of crime trends in the Commonwealth. A detailed description of the existing systems can be found in Appendix A. Until these systems are fully integrated into a statewide Unified Criminal Justice Information System, there will remain limitations in the data available for analysis. These and other limitations are delineated below.

- As a result of the variation across agencies, it is currently not possible to publish a fully integrated criminal justice system report or to perform systemic trend analyses. This report is intended to provide individual snapshots of the key components of the justice system (law enforcement, courts, corrections, prosecution, and defense), and to draw general conclusions regarding system trends where possible.
- Data collection systems of criminal justice agencies were established independently for in-house data management purposes and not for planning or policy evaluation.
- There are currently no standardized formats for defining data elements or counting criminal justice events. Agencies vary according to what is being counted (e.g., charges, cases, or individuals).
- While efforts are ongoing to unify the codes used to define each offense presented in the *Sourcebook*, differences still exist among agencies. For example, the Kentucky Administrative Office of the Courts define robbery offenses using a different set of offense codes than the Kentucky Department of Corrections. Therefore, readers are cautioned not to compare data directly across agencies. This report is expected to improve over time as reporting practices become more consistent. A list of the offense codes used to derive each table or figure can be provided upon request.
- Starting in 2005, in an attempt to further unify the data, all data were requested to be reported on a calendar year basis, with the exception of fiscal data. This particular change in the reporting parameters will affect the user's ability to compare data across previous editions of the *Sourcebook*.
- Each year, adaptations are made to the *Sourcebook* in an effort to improve the quality of the information provided. The methods of reporting and the process of compiling this annual report are constantly evolving with the end goal to put forth the most accurate data available. As such, the user's ability to compare data published in the 2012 edition of the *Sourcebook* with previously published editions will be affected.
- Calculations, such as percent change, rate per population, etc. were prepared by the Kentucky Statistical Analysis Center, not the agency providing the original data unless otherwise noted.

- Several agencies have provided updated data for years prior to 2012. As a result, the data in the 2012 *Sourcebook* may be different from that which is found in earlier editions of the *Sourcebook*. Where possible, the updated data has been included in order to provide the most accurate data available. Data updates may occur because of changes in the information systems, changes to the criminal code, and/or retroactive data updates. If such a change has occurred, where possible, the data has been recalculated for all years presented in the table or figure.
- Kentucky currently uses the FBI's Summary Uniform Crime Reporting Program (UCR) and the National Incident Based Reporting System (NIBRS) to collect data. The UCR is a nationwide, cooperative statistical effort of more than 18,000 city, county, college and university, state, tribal and federal agencies voluntarily reporting data on crimes. These agencies represent 99.3% of the nation's total population. The NIBRS includes information on Group A and Group B offenses. Group A crimes consist of more serious offenses such as Homicide Robbery, and Arson, while Group B crimes consist of less severe offenses.
- In an effort to improve the quality of the Kentucky State Police's annual *Crime in Kentucky* reports, several adaptations were made in 1998 to data reporting and continued through 2011. These changes, which include transitioning from Part I and Part II offenses to Group A and Group B crimes, are in accordance with UCR guidelines. These changes will affect the user's ability to compare data published after 2011 with previously published data.
- The following disclaimer has been issued by the Kentucky Administrative Office of the Courts and applies to all data within the *Sourcebook* that is attributed to that agency: "Information received from COURTNET is subject to change(s), reprogramming, modification(s) of format and availability at the direction of the Administrative Office of the Courts (AOC), and may not at any particular moment reflect the true status of court cases due to ordinary limitation(s), delay(s) or error(s) in the system's operation. The AOC disclaims any warranties as to the validity of the information obtained from COURTNET. The recipient is solely responsible for verifying information received from COURTNET through the cross-referencing of official court records. The AOC shall not be liable to the recipient, or to any third party using the system or information obtained therefrom, for any damages whatsoever arising out of the use of COURTNET." Detailed limitations pertaining to Administrative Office of the Courts data is provided in Appendix D.
- The U.S. Census Bureau collects population and demographic data on a ten year cycle. In the years between the decennial census, population estimates are created based on continuously collected data. As a result information which makes use of U.S. Census Bureau data for the intervening years utilizes the estimated population numbers and is noted as such.

Section I: Kentucky's Demographic Profile

Having a firm grasp on the demographic trends and realities facing Kentucky provides a basis for crafting effective policies, especially when changes represent a potentially significant impact on the day-to-day operations of the criminal justice system. The first section of the 2012 Edition of the *Sourcebook of Criminal Justice Statistics in the Commonwealth* provides necessary background information for the reader regarding the demographic profile of Kentucky.

Information provided within this section stems from the United States Census Bureau's 2010 Census, the Small Area Population Estimates Division, and the American Community Survey (ACS), which provides population, demographic, and housing unit estimates for communities throughout the nation. ACS data, which is collected every year, provides up to date information about the population at the local community level and serves as a critical element of the decennial census program. About three million housing units from across the nation participate in the ACS annually, and provide critical demographic information about the population including age, race, ethnicity, income, veteran status, housing location and cost, and other economic and social indicators which help to provide an understanding of the population's characteristics. Likewise, since ACS data is collected annually, this mechanism allows conclusions and estimates to be provided for geographic locations with populations of less than 20,000 individuals.

The findings from the U.S. Census 2012 ACS are provided below:

- Kentucky's total population was estimated to be over 4.3 million- About 2.2 million (50.8%) were females. About 23.3% of the population was age 18 and under, and about 14.1% were over age 65.
- For people reporting only one race about 87.8%, or more than 3.8 million were white, 7.9%, or 344,584 were African American, 1.3%, or 55,397 were Asian/Pacific Islander, and about 0.20%, or 8,141, were American Indian/Alaska Native. More than 38,316 (0.9%) reported their race as "Other" and more than 87,200 identified two or more races (about 2.0%).

Section II: Victim Services

Kentucky has established many successful programs to provide services and aid to victims of crime, an important element of the criminal justice system. Data selected for this section was provided by V.I.N.E., the Crime Victims Compensation Board, the Cabinet for Health and Family Services, the Office of the Attorney General, Kentucky Association of Sexual Assault Programs, and Kentucky Domestic Violence Association.

V.I.N.E.

The Office of Victim Services is the arm of the Kentucky Department of Corrections that provides victims with an automatic notification system to alert them about a change in the custody status of their offender. The system is known as Victim Information and Notification Everyday (V.I.N.E.).

The nation's first automated victim notification system was created in Jefferson County, Kentucky, in December, 1994. Like many progressive acts, a tragedy was the impetus for the establishment of the V.I.N.E. system. In 1993, Mary Byron was murdered by her estranged boyfriend after he was released from the Jefferson County Jail. Byron was not notified of his release. Byron's parents, Pat and John Byron, led a crusade to ensure that their daughter's death would not be in vain. As a result of their efforts, software engineers developed the V.I.N.E. system and implemented it at the Jefferson County Jail. In 1996, Kentucky again led the way, becoming the first state in the nation to provide victim notification on a statewide basis. Today more than 2,100 communities have implemented the V.I.N.E. system. More than two-thirds of the states have established statewide notification through V.I.N.E. The federal government also offers a victim notification service and funds supportive grants (e.g. Statewide Automated Victim Information and Notification (SAVIN)). Nationally, V.I.N.E. generates approximately 700,000 notification calls each month.

The V.I.N.E. system receives booking and release data from all county jails and Kentucky Department of Corrections institutions. Victims can obtain information about an offender's location, custody status, sentence expiration date, and scheduled parole hearing date. The victim can also register to be notified of changes in an offender's custody status. Information can be obtained by calling a toll free number, by calling the Office of Victim Services, via e-mail, or via the Internet through VINELink. The service is available 24 hours a day. Whenever possible, the system provides notification of an offender's release 72 hours prior to the release. In order to ensure that victims receive notification in a timely manner, V.I.N.E. will call the registered telephone number every 30 minutes during a 24 hour time period of until the call is acknowledged by the registered person.

The following information was obtained from the Kentucky Department of Corrections' Office of Victim Services:

- ✓ Of the searches for offenders through the V.I.N.E. program in 2012, 4.9% were conducted via VINEwatch, about 19.8% were conducted via telephone, and the remaining 75.3% were conducted via VINELink.
- ✓ In 2012, V.I.N.E. reported a total of 250,977 victim information and registration calls into the call center and 1,186,272 notification calls issued by the call center.
- ✓ There were 60,634 new V.I.N.E. registrations in 2012, up from 53,167 in 2011.

Crime Victim's Compensation Board

The Crime Victims Compensation Board, assisting more than 1,000 victims of violent crime per year, was enacted in 1974 and established by the Kentucky General Assembly in 1976, the 14th state to do so. The office opened in 1978 with the purpose of compensating victims for whom violent crime has resulted in financial hardship due to physical or psychological injury or death. In situations where there is no other source of payment, the board determines claimant eligibility and award amounts for qualifying expenses incurred as a result of violent crime, including medical, funeral, mental health counseling, dental, and corrective lens expenses resulting from the crime, as well as lost wages or loss of support for someone dependent on the victim. When qualifying claimants are awarded, payments are made directly to service providers or can be reimbursements to the claimant. State law caps the awards at \$25,000 for each claim. The CVCB also administers a program which pays for sexual assault forensic/medical exams (SAEs) for both adults and children. These claims are applied for and paid directly to the service providers. CVCB Funds are provided through federal grants, offender-paid court fees, donations, and a \$200,000 General Fund allotment for SAE's. The governor-appointed, five-member board operates under Kentucky Revised Statutes (KRS) 346 and 216B, and Kentucky Administrative Regulations (KAR) Title 107. Each board member's term is four years. The Board, which must include a victim, is intended to include representation from throughout the state.

The following information was received from the Crime Victim's Compensation Board:

- ✓ The CVCB granted awards on 884 claims in fiscal year 2012, resulting in over \$1.1 million being distributed to victims of violent crime.

Table 2.4: Crime Victim's Compensation Board Awards by Expense Type, FY 2009-2012

<i>Type of Expense</i>	<i>FY 2009</i>		<i>FY 2010</i>		<i>FY 2011</i>		<i>FY 2012</i>

Other Victim Services

The Kentucky Cabinet for Health and Family Services (CHFS) oversees several programs that provide services to victims of crimes including rape crisis centers, domestic violence services, and children's advocacy centers. The information provided here details the types of services provided through these programs and the number of victims served by each. The Office of the Attorney General also provides services and advocates for victims throughout the Commonwealth.

- ✓ In FY 2012, Kentucky's Rape Crisis Centers provided services to 4,650 victims, 1,100 friends and family members, and 3,939 sessions of education services for 114,847 participants. Rape Crisis Centers reported 159,974 hours of volunteer services, an increase of 4.0% from FY 2011 figures. Crisis calls increased 4.5% from 4,459 in 2011 to 4,660 in 2012.
- ✓ Domestic Violence Shelters throughout the state served 4,244 residential program participants and 57,652 non-residential clients in FY 2012. Domestic Violence Service Providers reported 61,711 volunteer hours during FY 2012, a decrease of almost 16% from the 73,423 reported in 2011.
- ✓ Children's Advocacy Centers served 6,133 child victims in FY 2012, an increase of 19.1% from the 5,152 child victims served the previous year. 1,981 crisis calls were received, and CAC staff was present during 3,940 forensic interviews and 960 medical exams.
- ✓ In 2012, the Kentucky Office of the Attorney General's Office of Victim's Advocacy provided resource or referral assistance to 3,506 people.
- ✓ The Office of the Attorney General's Medicaid Fraud and Abuse Control Division addressed 2,993 complaints and collected over \$38 million from settlements in FY 2012, primarily stemming from fraudulently billed Medicaid claims and other abuses of the Medicaid system.
- ✓ The Office of the Attorney General's Department of Criminal Investigations (DCI) reported the following for FY 2012:
 - DCI's Cyber Crimes Branch opened 61 cases, closed 52 cases, and obtained 26 Search Warrants.
 - DCI's Drug Investigations Branch opened 20 cases and closed 112 cases.
 - DCI's Public Integrity/Special Investigations Branch opened 36 cases and closed 31 cases. The Branch obtained 11 arrests, and addressed 507 constituent complaints.

Section III: Reported Crime Trends

The data in this section includes information gathered from the Kentucky State Police as well as the Federal Bureau of Investigation's (FBI) National Incident Based Reporting System (NIBRS). **In 2011 the information gathered changed from the previously collected Part One and Part Two offenses that were a part of the FBI's Uniform Crime Reports to Group A and Group B offenses that make up part of the FBI's NIBRS database. For this reason it is not possible to compare reports from previous years to the 2011 data.** Information about the Part One and Part Two crimes as well as those that make up the Group A and Group B offenses is available in Appendix B. It is; however, possible to evaluate the 2011 data in relation to future years, including the 2012 information included here.

Although law enforcement agencies collect and maintain data on both arrests and offenses reported to the police, researchers generally agree that reported offenses provide a better measure of crime since these reports usually occur closer in time to the actual incidents. While arrests also provide a measure of law enforcement activity, arrests may not be made in all cases and arrests may also reflect specialized enforcement efforts rather than an actual increase in the incidence of crime. In reviewing data on the crime trends, it is important to note the type of data presented along with the inherent limitations of that data.

Source: Kentucky State Police and United States Census Bureau

* Population was derived using the U.S. Census Bureau's 2012 estimates

Property Offense Arrests Include: Arson, Burglary/Breaking and Entering, Bribery, Counterfeiting/Forgery, Destruction/Damage/Vandalism of Property, Embezzlement, Extortion/Blackmail, Fraud Offenses, Larceny/Theft Offenses, Motor Vehicle Theft, Robbery, and Stolen Property Offenses

Violent Offense Arrests Include: Assault Offenses, Homicide Offenses, Kidnapping/Abduction, Sex Offenses-Forcible, Sex Offenses-Non-Forcible

Sex Offense Arrests Include: Sex Offenses-Forcible and Sex Offenses-Non-Forcible

Arrests for Offenses against Society Include: Drug/Narcotic Offenses, Gambling Offenses, Pornography/Obscene Material, Prostitution Offenses, and Weapon Law Violations

Section IV: Arrest Trends

This section presents information on arrest trends in the Commonwealth as reported by the Kentucky State Police. It is important to note that KSP calculates arrest data based on the counts associated with an arrest. For example, if an individual is arrested for burglary and there are three counts, KSP will indicate three arrests for that one incident.

**Table 4.1: Adult (18 and older) Group A Offense Arrests per 100,000
Adult Population, 2012**

	<i>CY 2012</i>	
	<i>Number of Arrests</i>	<i>Arrest Rate per 100,000 Adults</i>
Arson	488	15.00
Assault Offenses	28,517	876.91

Section V: Pretrial Release Trends

Section V presents data on the types of pretrial release used in the Commonwealth, as provided by the Kentucky Administrative Office of the Courts' (AOC), Department of Pretrial Services. The information reported in this section was obtained from the Pretrial Release Information Management (PRIM) System. Appendix D provides detailed information on the limitations of the data included in this section.

- In 2012, AOC's Pretrial Services processed 180,631 individuals. 130,076 (72.1%) of the individuals were males, and 50,054 (27.8%) were females. The remaining 501 individuals (<1%) involved persons of unknown or unreported gender.
- In 2012, there were 129,062 cases in which the judge set a financial bail amount. In these cases, 70,559 (54.7%), defendants were able to obtain pretrial release and in the remaining 58,503 (45.3%) defendants were still in custody or unable to obtain pretrial release.
- There were 101,821 cases in which the judge allowed release on recognizance or set another type of non-financial bail such as a surety or unsecured bond. In these cases, 94,455 (97.6%) were able to obtain pretrial release.
- AOC's Pretrial Services conducts a thorough investigation and utilizes a risk assessment on all defendants interviewed. In 2012, 75,103 defendants were assessed as low-risk, 76,940 assessed as moderate risk, and 19,879 assessed as high-risk. The release rate for low-risk defendants was 84%, 67% for moderate risk, and 54% for high-risk.

Section VI: Court Disposition and Sentencing Trends

Section VI presents information from the Kentucky Administrative Office of the Courts on case dispositions and sentencing trends for Group A and B Offenses. Appendix D provides detailed information on the limitations of the data included in this section and Appendix B provides further information about Group A and B offenses.

- In 2012, the Group A offense with the highest total number of convictions in Circuit and District Courts was larceny-theft (with 3,295 cases in Circuit Court and 24,918 cases in District Court).
- In Circuit Court during 2012, prison was the most common sentence for all Group A offense charges. In 2012, 47.7% of charges resulted in a charge of prison, 23.4% in state probation, 25.2% in jail, and 0.9% in other sentences.
- In District Court jail was the most common sentence for all Group A offense charges. In 2012, 85.2% of charges resulted in a sentence of jail, 7.2% in local probation, and 5.5% in other sentences.

Section VII: Trial Court Caseload Trends

Section VII presents Circuit and District Court case data from the Kentucky Administrative Office of the Courts and data from the Department of Public Advocacy.

- Statewide, the number of criminal cases disposed in Circuit and District Courts increased from 31,320 in 2011 to 31,650 in 2012.
- The number of criminal cases disposed in Circuit Court varies greatly by Circuit. In 2012, the number of criminal cases disposed ranged from a high of 4,525 in the Thirtieth Judicial District (Jefferson County) to a low of 106 in the Thirty-Sixth Judicial District (Knott and Magoffin Counties).
- The number of felony cases disposed in District Court ranged from a high of 14,617 in the Thirtieth District Court (Jefferson County) to a low of 135 in the Fifty-Ninth District Court (Ballard and Carlisle Counties) in 2012.
- In 2012, the Department of Public Advocacy handled 158,758 cases. Of these, 57.7% were District Court cases, 22.7% were tried in Circuit Court, and the remaining 13.9% of cases were disposed in Juvenile Court.

Section VIII: Commitment and Release Trends

Section VIII presents information from the Kentucky Department of Corrections (DOC) on prison admissions, commitments, sentences, and releases, and from the Parole Board on hearings, paroles, deferrals, and serve-outs.

- In 2012, the average daily inmate population ranged from a low of 295 at the Bell County Forestry Camp to a high of 1,948 at the Kentucky State Reformatory.
- The total number of persons under DOC supervision increased from 63,148 in 2011 to 68,084 in 2012. The inmate population increased from 21,704 in 2011 to 22,179 in 2012, and the probation and parole population was up 10.8% from 41,444 in 2011 to 45,905 in 2012.
- In 2012, 64.7% of prison admissions were new commitments and the remaining 35.3% were returning parole violators.
- In 2012, the average sentence for specified Group A offenses ranged from a high of 26 years for Murder to a low of 8 years for Burglary and Auto Theft. The average sentence for all specified Group A offenses was 13.25 years, with an average of 17.25 years for Violent Offenses and 9.25 years for Property Offenses.
- The number of new commitments for Murder, Rape, Robbery, Aggravated Assault, Burglary, and Larceny/Theft all decreased between 2011 and 2012. During this same time-period, the number of new commitments for Auto Theft and Arson increased.
- In 2012, 56.2% of those cases considered by the Kentucky Parole Board were granted parole.

* Calculated using the Association of State Correctional Administrators formula for recidivism rates: an individual's return to the custody of the Department of Corrections within two years of release from a state institution or contract facility by parole, shock probation or completion of sentence.

Recidivism does not include re-arrests, federal convictions, convictions in other states or convictions in Kentucky where the person is probated and not incarcerated.

Section IX: Juvenile Justice System Trends

This section presents information on offenders served by the juvenile justice system. Data which are presented here are drawn from the Kentucky State Police, the Kentucky Department of Juvenile Justice, and the Kentucky Administrative Office of the Courts' Court Designated Worker program.

- In 2012 the number of juvenile offenses decreased 8.3% from 11,755 in 2011 to 10,775 in 2012.
- A total of 3,817 youth were served by the Kentucky Department of Juvenile Justice in 2012, down from 4,068 in 2011. The number of juveniles served by the Department of Juvenile Justice has consistently declined since 2006, with the difference between 2008 and 2012 being 27.1%.
- More youth served by the Kentucky Department of Juvenile Justice were placed under Community Supervision (2,523) than in any other type of placement.
- In 2012, 26,594 complaints were processed against 20,028 juveniles by the Kentucky Administrative Office of the Courts' Court Designated Workers program.

Court Designated Worker Program

In 1986, the Kentucky General Assembly enacted legislation to provide a statewide Court Designated Worker (CDW) program under the direction of the Department of Juvenile Services of the Administrative Office of the Courts, the administrative arm of the Kentucky Court of Justice. The mission of the CDW program is to reduce delinquency among Kentucky's youth through a collaboration of statewide pre-court services and programs that promote education and accountability. CDWs process juvenile complaints against individuals under the age of 18. The complaints, known as public offenses, are the same as adult crimes. Status offenses are non-criminal forms of juvenile behavior, such as running away from home, skipping class, tobacco offenses, or exhibiting beyond-control behaviors at home or school.

Each of Kentucky's 120 counties has access to the services of a CDW who is available 24 hours a day, seven days a week. A set of uniform criteria determine which juvenile complaints must be forwarded to formal court and which are eligible for informal processing through the CDW program. More serious offenses and repeat offenders are referred to formal court. Juveniles involved in minor offenses are generally eligible for informal processing and enter diversion agreements. A diversion agreement is a voluntary contract between the CDW and the juvenile to resolve a complaint. The data included in this section were provided by the Kentucky Administrative Office of the Courts. Limitations of this data are provided in Appendix D.

Section X: Selected Crime Categories and Crime Indicators

In addition to reviewing criminal justice system data pertaining to Group A offenses, data on selected categories of crime have been included for informational purposes. These categories include drug related offenses with a particular focus on methamphetamines and prescription drugs, driving under the influence (DUI) offenses, domestic violence, and sex offenses. Information presented in this section includes data from the Kentucky State Police, Federal Bureau of Investigation, Kentucky Administrative Office of the Courts, Kentucky Department of Corrections, and the Cabinet for Health and Family Services' Kentucky All Schedule, Prescription Electronic Reporting (KASPER) system.

Drug Related Offenses

- The total number of arrests for drug offenses increased in 2012 was 52,597. This represents a 38.4% increase from 38,020 drug related arrests in 2011.
- A total of 732 cases of overdose related deaths were autopsied by the Kentucky Office of the Medical Examiner in 2012. Of these cases, 578 (79.0%) were ruled as unintentional and 34 (4.7%) were suicides. In 2012, the most frequently detected drugs in the blood of overdose victims were Alprazolam (Xanax and other brand names), Hydrocodone (Lortab and other brand names), Alcohol, and Morphine.

Methamphetamine Related Offenses

In 2005, Kentucky adopted legislation that restricts the sale of products containing pseudoephedrine (PSE) and ephedrine, ingredients used to manufacture methamphetamine. In 2007, Kentucky became the second state to implement a real-time statewide electronic monitoring system capable of blocking the sale of PSE products to individuals in violation of purchasing more than 9 grams in 30 days (KRS 218A.1446). The program, MethCheck, provides 24/7 access to law enforcement officers conducting investigations on individuals suspected of violations of PSE restrictions. In 2012, the system blocked attempts to violate PSE restrictions resulting in over 92,250 grams of PSE kept out of the hands of potential methamphetamine cooks. MethCheck is a partnership between the Office of the Inspector General (OIG) Professional Standards Branch, the Cabinet for Health and Family Services, and the Kentucky Office of Drug Control Policy.

To illustrate the incidence of methamphetamine manufacturing, trafficking, and abuse in the Commonwealth, this section presents data from the Kentucky State Police, the Kentucky Administrative Office of the Courts, and the Kentucky Department of Corrections.

- During 2012, law enforcement officers responded to 1,290 clandestine methamphetamine lab incidents. This is a 4.7% increase from 1,233 incidents responded to in 2011.
- In 2012, there were 3,551 methamphetamine related cases in Circuit Court, 3,825 cases in District Court, and 19 cases in Juvenile Court.
- The total number of methamphetamine related charges disposed in Circuit Court rose from 6,300 in 2011 to 6,490 in 2012. In District Court, the number of charges rose from 5,115 in 2011 to 6,015 in 2012, an increase of 17.6%.
- In 2012, the average sentence imposed for methamphetamine related offenses was 11 years.
- The Kentucky Department of Corrections reported 728 new commitments for methamphetamine offenses in 2012, down 7.1% from 776 in 2011.

Prescription Drug Related Offenses

Misuse, abuse, and illegal sale of prescription drugs represent a significant threat to public health and safety in the Commonwealth of Kentucky. Illegal prescription drug activity has reached epidemic proportions, with more and more incidents of “doctor shopping” being uncovered and the street values of “legal drugs” reaching all-time highs.

The Kentucky All Schedule Prescription Electronic Reporting (KASPER) system is Kentucky’s Prescription Drug Monitoring Program (PDMP). PDMP’s vary in their characteristics, but they all have a common goal of reducing prescription drug abuse and diversion. KASPER is one of the most comprehensive PDMP’s in the country. The system catalogs schedule II-V controlled substance prescriptions dispensed within the state (Hydrocodone, Oxycodone, Methadone, Alprazolam, Tramadol, Buprenorphine, Suboxone, and Diazepam), and provides a tool for practitioners, pharmacists, law enforcement, and regulatory agencies to improve patient safety and fight the abuse and diversion of controlled substance prescription medications.

KASPER is housed in the Cabinet for Health and Family Services, Office of the Inspector General, with the maintenance and enhancements to the system provided by the Cabinet’s Office of Administrative and Technology Services. Kentucky statutes require dispensers of controlled substances to report the prescriptions dispensed once every seven days. The data are then available to authorized users of the system, who may be prescribers for medical treatment of a patient, dispensers for pharmaceutical treatment of a patient, law enforcement officers for an active drug related investigation, licensing boards for a licensee, the Kentucky Medicaid program for a Medicaid member or provider, a grand jury (by subpoena), or a judge or probation or parole office administering a drug diversion or probation program.

A KASPER report shows the controlled substance prescriptions a patient received for a specified time period, as well as the practitioner who prescribed them and the dispenser who dispensed them. Kentucky Revised Statute 218A.240 provides that the Cabinet shall use the data for investigations, research, statistical analysis and educational purposes, and shall proactively identify trends in controlled substance usage and other potential problem areas.

This section includes data on prescription drug activity in the Commonwealth as collected by the Kentucky State Police, Kentucky Administrative Office of the Courts, Kentucky Department of Corrections, Kentucky Department of Juvenile Justice, and KASPER.

- In 2012, there were 1,075 prescription drug related cases in Circuit Court, 4,481 in District Court, and 72 cases in Juvenile Court.
- There were 68 new prescription drug related commitments to the Department of Corrections in 2012. The average prison sentence for prescription drug related offenses in 2012 was 7 years.
- In 2012, KASPER records demonstrate that Kentucky’s population received 154.57 doses per capita of controlled substance prescriptions.

Domestic Violence Offenses

- Of the 4,693 domestic violence cases disposed in District Courts during 2012, the largest number, 462, were heard in the Sixth Judicial District (Daviess County). Three judicial districts, the Second (McCracken County), Eighth, (Warren County), and Seventeenth (Campbell County) disposed no cases, and the Third (Christian County) and Forty-Second (Calloway and Marshall Counties) disposed only one domestic violence case each.
- During 2012 there were 29,608 total protective order documents filed in the Kentucky court system, resulting in 20,552 total cases.
- There were also 15,381 Domestic Violence related civil cases filed during 2012.

Human Trafficking

- In 2012 there were 15 known cases involving human trafficking within the Commonwealth. The limitations regarding the data presented here are outlined in Appendix D.
- Of these, 86.7% involved sex trafficking and the remaining 13.3% in labor trafficking. 6.7% of those known to be trafficked were males.
- 73.4% of those known to be trafficked during 2012 were first trafficked before they reached age 18 and 13.3% were foreign nationals.

Table 10.40: Kentucky's Human Trafficking Cases, 2012

TYPE	Sex Trafficking	13
	Labor Trafficking	2
GENDER	Male	1
	Female	14
CITIZENSHIP	Foreign National	2
	Domestic	13
AGE TRAFFICKING BEGAN	Adult (>18)	4
	Child (<18)	11

Section XI: Key Criminal Justice Cost Information

While monitoring changes in crime trends, it is also important to track the range of costs associated with incarceration, community supervision, and criminal justice programs for adults and juveniles. This section includes data from the Kentucky Department of Corrections, Kentucky Department of Juvenile Justice, and the Justice and Public Safety Cabinet's Grants Management Branch.

- In FY 2012, Kentucky's criminal justice agencies enacted budgets totaling \$930,289,800.
- Approximately 31.9% of the Justice and Public Safety Cabinet's annual budget goes towards the operation of adult correctional institutions, 21.0% funds Kentucky State Police activities, and 17.9% funds community services and local facilities.
- Kentucky's criminal justice budget includes over \$18.9 million in grant funding administered by the Cabinet's agencies including, among others, Justice Assistance Grants, Violence against Women Act funding, Victims of Crime Act funds, and Title II and Title V funds from the Office of Juvenile Justice and Delinquency Prevention.

Table 11.1: 2012 Executive Budget for Kentucky Justice and Public Safety Cabinet

<i>Department</i>	<i>Federal Funds</i>	<i>General Fund</i>	<i>Road Funds</i>	<i>Restricted Funds (Fees and Licenses)</i>	<i>Tobacco Funds</i>	<i>Grand Total</i>

Appendix A: Description of Existing Criminal Justice Information Systems

CourtNet

Allows easy and expeditious access to criminal and civil cases filed with the Kentucky Court System. Provides court case tracking, consolidates local court information systems (including KY Courts), and serves as the system for accessing statistical data.

eWarrants

Web-based application that provides law enforcement real-time access to arrest warrant information. The system provides a mechanism to create paperless complaints that flow to the judge for review and signature into a warrant then to law enforcement for servicing.

JusticeXchange

Web portal that provides law enforcement and other criminal justice officials instant access to information about offenders held in jails throughout the state and across the country. Based on data collected automatically from local jail management systems, JusticeXchange provides near real-time current and historical information about incarcerated offenders, including biographical information, charges, photographs, and behavioral reports, all accessible through a secure website. Vendor: Appriss.

Juvenile Offender Records Information (JORI)

Case management system that tracks juvenile offenders through the criminal justice system. Includes offenders' demographic information, charges, work history, education, and treatment. JORI is a Visual Studio.NET application.

Kentucky Offender Management System (KOMS)

Kentucky Offender Management System is a Web-Enabled Integrated Offender Management tool which has replaced outdated individual software applications that were used for managing, processing and tracking Kentucky DOC inmates and Probation & Parole clients. The objectives of KOMS are as follows:

- Maintain a repository of information that applies to all offenders regardless of their current status, such as demographics and criminal history.
- Maintain a repository of information unique to offenders who are under supervision because they are serving probation, parole, etc. Examples of this type of information are supervision fees owed and paid, supervision contacts, and risk/needs assessments.
- Maintain a repository of information unique to offenders who are incarcerated, such as housing, classification, custody level and job assignments.
- Calculate and maintain sentence calculations for all KY offenders regardless of their status.
- Maintain a repository of information about facilities, staff, outside organizations, and persons within those organizations that deal with offenders, regardless of their status.
- Store this repository of information in a relational database that is shared across all this functionality.
- Provide access to this database through a web browser, such as Microsoft Internet Explorer®, using a tree-type menu that expands and contracts.
- Make the update of this data simple, intuitive, reliable, and secure.
- Provide many non-updateable views of this data for everyday use by anyone who is authorized to access this system via a secure sign on.
- Produce operational and management reports and statistics needed by the users.

Kentucky State Police

Core systems described utilize various vendor proprietary technology, in addition to SQL, ORACLE, VB, and FILENET.

- **Automated Fingerprint Identification System (AFIS)**
Statewide system of Livescan devices in each local detention center, state prison facilities, juvenile detention centers and commercial drivers license-HazMat testing sites, tied into centralized AFIS system. Provides for the capture, storage, and search of fingerprint information, and transmission to FBI-IAFIS system. Vendor: Motorola.
- **Computer Aided Dispatch (CAD)**
Utilized by 17 KSP Posts/HQ Dispatch Centers to provide call tracking, emergency medical dispatch, call response, etc., in addition to providing required GIS mapping of land line and mobile callers. Vendor: Interact.
- **Computerized Criminal History System (CCH)**
State criminal history repository for fingerprint supported arrests and supporting participation in Triple I. Includes utilization of XML rapsheet. Vendor: SAIC.
- **Kentucky's Open Portal Solution (KYOPS)**
Serves as the statewide law enforcement system for the electronic/hard copy capture, quality control, transmission, storage and retrieval of the following law enforcement report types: traffic collision, crime, uniform citation, courtesy warning, call response, and field information reports which are fed directly to the state's Intelligence Fusion Center. Features of the electronic reporting component include real time submission of reports, GPS coordinates collection, both integrated crime scene and collision investigation diagramming software and all modules support the utilization of 2D bar code scanners for importing driver's license data. The system also features a statewide Master Name Index and Master Location Index, utilizing all mentioned data sources. Access to submitted records is provided through a secure web portal, with various "canned" reports available for statistical analysis of crime and collision data, as well as the ability to do custom inquiries across the various data sources for crime/collision analysis, planning and resource allocation. Historical Crime mapping and Collision mapping are also accessible through the web portal. Vendor: IDMS.
- **KyWINS Messenger**
Open source Instant Messaging solution customized for usage by public safety personnel operating on wireless mobile data system. Provides uniform data/IM interoperability to public safety personnel, across boundaries, agencies and disciplines, free of charge. Also allows communication back to PC based personnel in traditional wired settings. Currently in use for police officers, fire/EMS personnel, and the state Office of Homeland Security, among others. Vendor: Jabber-Jive Software.
- **Law Enforcement Information Network of Kentucky (LINK)**
Serves as the primary law enforcement communications network providing access to NCIC and NLETS. Also houses all state "hot" files, to include EPO/DVO, wanted, missing persons, sex offenders, etc. Vendor: CPI.

- **Mobile Data Computer System (MDCS)**

Statewide system which encompasses over 125 tower sites and base stations all networked to three integrated Internet Protocol Network Controllers, providing seamless Mobile Data access to all law enforcement agencies in the state, with no ongoing monthly charge for airtime usage. This access allows agencies to access both state level (LINK) and federal (NCIC) data from their cars, in addition to providing silent dispatch, AVL other features, and instant messaging, depending upon the software utilized by the agency. Agencies utilizing the state standard mobile client software, BIO-key, may utilize the state provided shared mobile message switch, thereby eliminating the need to purchase their own, and giving them access to all agencies/users, utilizing the same platform. Vendor: InterAct.

- **Sex Offender Registry (SOR)**

Serves as the state repository of registered sex offender information, including public access website, listing all registered offenders. Linked to the National Public Sex Offender registry system. Vendor: CPI.

KY Courts

County specific stand-alone electronic case management system that tracks all information related to court cases.

Victim Information and Network Everyday (VINE)

The automated notification system that alerts victims about a change in the custody status of their offender. Internet browser front end, SQL server database. Vendor: Appriss.

Appendix B: Incident Based Reporting Versus Summary Reporting

Part One Crimes and Group A Offenses

Part One Crimes	Group A Offenses (Additional Included Offenses)
Arson	Arson
Aggravated Assault	Assaults (Aggravated Assault, Simple Assault, Intimidation)
Homicide	Homicide (Murder, Non-Negligent Manslaughter, Negligent Manslaughter, Justifiable Homicide)
Burglary	Burglary
Larceny/Theft	Larceny/Theft (Associated Subcategories)
Motor Vehicle Theft	Motor Vehicle Theft
Robbery	Robbery
Rape	Sex Offenses Forcible (Forcible Rape, Forcible Sodomy, Sexual Assault with an Object, Forcible Fondling)
Source: FBI Uniform Crime Report	Bribery
	Counterfeiting/Forgery
	Destruction/Damage/Vandalism of Property
	Drug/Narcotic Violations
	Drug Equipment Violations
	Embezzlement
	Extortion/Blackmail
	Fraud (Associated Subcategories)
	Gambling (Associated Subcategories)
	Kidnapping/Abduction
	Pornography/Obscene Material
	Prostitution Offenses
	Sex Offenses Non-Forcible (Incest and Statutory Rape)
	Stolen Property Offenses
	Weapon Law Violations

Part Two Crimes and Group B Offenses

Part Two Crimes	Group B Offenses
Curfew and Loitering Laws (Juveniles Only)	Curfew/Loitering/Vagrancy Violations
Vagrancy	
Disorderly Conduct	Disorderly Conduct
Driving Under the Influence	Driving Under the Influence
Drunkenness	Drunkenness
Offenses against the Family and Children	Family Offense-Non-Violent
Liquor Laws	Liquor Law Violations
Runaway (Juvenile Only)	Runaway (Juveniles Only)
Sex Offenses (except Rape and Prostitution)	Peeping Tom
Gambling	Trespassing
Forgery and Counterfeiting	Bad Checks
Fraud	All Other Offenses
Prostitution and Vice	Source: FBI National Incident Based Reporting System
Vandalism	
Embezzlement	
Drug Abuse Violations	
Stolen Property Offenses	
Weapons Offenses	
All Other Offenses (Except Traffic)	

Source: FBI Uniform Crime Report

What are the differences between Group A and Group B Offenses and Part One and Part Two Crimes?

Group A and Group B offenses are collected as part of the National Incident Based Reporting System (NIBRS) and are reported to the Federal Bureau of Investigation. NIBRS is a system that collects incident-based data for a variety of offenses. Part One and Part Two crimes are summary measures which are also reported to the Federal Bureau of Investigation as a part of the Uniform Crime Reporting System. The Uniform Crime Report (UCR) does not distinguish between crimes that are attempted and those which are completed. In those situations in which there is more than one criminal offense, the UCR reports only the most serious while NIBRS accounts for each of the offenses involved in a criminal incident. The UCR originally included two basic categories: Crimes against Persons and Crimes against Property. NIBRS adds a third category: Crimes against Society. Information is entered into the NIBRS system electronically while cases are submitted as written documents that are then hand entered into the UCR computer system. NIBRS collects information that is not a part of the UCR including details on the offense, victim, offender, and arrestee among others.

In the *Sourcebook of Criminal Justice Statistics in the Commonwealth* many of the charts and tables have been revised from those which include summary data from the UCR to incident based reporting from the NIBRS system. The Kentucky Statistical Analysis Center is particularly grateful to the staff of the Kentucky Administrative Office of the Courts for the provision of multi-year data; however. This was possible because information is captured in the AOC reporting systems using Uniform Offense Report (UOR) codes, and involves those cases, charges, and documents filed within the court system(s) throughout the Commonwealth. This differs from the data provided from the Kentucky State Police and other law enforcement entities in which tracking specifically involved either incident or summary based reporting mechanisms. As such the data cannot be amended based upon what the entity would have submitted using the alternate method of tracking. Although some offenses appear to be relatively comparable regardless of the method being used, there are no easy data extraction methods that would allow us to extrapolate from one reporting system to another. Post-2011 editions of the *Sourcebook* will again allow year-to-year tracking and comparison of incident-based data gathered by law enforcement agencies throughout the Commonwealth.

Appendix C: Kentucky Administrative Office of the Courts Data Limitations

The Kentucky Administrative Office of the Courts provided the Kentucky Statistical Analysis Center with the following detailed information on the limitations of the data presented in the 2012 Sourcebook of Criminal Justice Statistics.

Data obtained from the KYCourts/CourtNet database presented in Sections VI, VII, X is subject to the following limitations:

The data obtained from KYCourts/CourtNet database is aggregate data that can be filtered based upon multiple features. These features include the frequency of cases filed, cases disposed, cases convicted, and some sentencing information. Frequencies can be obtained by referring to a case filing date, case disposition, charge filing date, or charge disposition date. The data can be broken down as a statewide figure or on a county by county basis. Some cases may have multiple charges, which would result in multiple dispositions as dispositions are by charge and not by case; this would also affect the filing and disposition dates. Charge counts may include original and amended charges; this is where the distinct count is important as it will only allow the case to be counted once despite multiple charges or amendments to charges. Additionally, some individuals may have multiple cases; therefore, distinct case counts cannot be inferred as a distinct count of individuals.

When examining case disposition data all disposition types will be included. However, when examining conviction data only those cases that include a disposition type that is indicative of guilt will be included. A case may consist of one or more charges; however, for a case to be considered a conviction, only one charge within the case must be guilty. Dispositions that are indicative of guilt include: guilty, guilty – multiple counts, guilty – sealed sentence, and/or pre-payable citation – paid. There are also three disposition types that are unique to juvenile cases which are also considered a conviction; those are Other, Cabinet of Human Resources (CHR), and Department of Juvenile Justice (DJJ).

Dispositions in a case are based upon individual charges, since some cases may have multiple charges there can be multiple dispositions. An example would be to have a case with three charges, for which one charge was given a disposition of commitment of juvenile to DJJ (Department of Juvenile Justice), while the other two charges were handled via an informal judgment. Therefore, the number of dispositions will be greater than the number of cases. Some dispositions, such as amended, will cause the case to appear in multiple categories of disposition, jurisdiction, and/or charge. In instances where a case is amended up or indicted from District Court to Circuit Court the case number will change. Therefore, the case would be counted twice, once under each court type. Nevertheless, within each court type, a distinct count of cases is provided that will count the case only once per disposition type, allowing for elimination of duplication.

Sentence information is much like dispositions; sentences are based upon the charge not the case. Since a case may contain multiple charges, and multiple dispositions, there may also be multiple sentences. These sentences may run consecutively to each other or they may run concurrent to each other. The length of an individual's sentence is broken down into months; due to each charge having its own sentence this data is presented as a cumulative figure and does not discern between those sentences that are consecutive versus concurrent. The sentence information provided is merely cumulative sentenced time; additionally, those sentencing conditions of "probated/conditionally discharged/suspended" are also presented as cumulative time. There is a check box on the sentence screen to denote whether the time is concurrent and/or consecutive to other charges/cases, however, AOC does not capture which charges/case that it is concurrent and/or consecutive to.

For juvenile cases that are given diversion; the original disposition would be diversion; however, if the juvenile fails to complete the diversion a new disposition is entered of guilty. The original disposition should be removed from the sentence screen and the new disposition entered; however, there may be some cases in which this is not done. Similar scenarios can occur in cases against adults as well. When an individual is convicted and given a sentence of prison but then given a diversion program and the sentence probated in lieu of actually having to serve time, two separate scenarios can occur. If the diversion is successfully completed the case is no longer counted in the frequency of convictions; however, the sentence of prison is never removed from the KYCourts/CourtNet database and is, therefore, still counted in the prison frequency. When this happens, the cases with a sentence of prison can outnumber the cases convicted and cause the prison disposition rate to be reflected as over 100 percent. If the diversion is not completed, the disposition in the case is amended to reflect a disposition of guilty and the sentencing information remains unchanged.

Additionally, some jail and prison terms may have some or all of the term suspended. In that event a defendant is granted shock probation that is then tracked in the KYCourts/CourtNet data base through the use of additional UOR codes. In the event that a defendant violates the terms of their probation, a new sentence is entered that is then tied to the new offense of probation violation. A small percentage of offenders each year are ordered by the court to attend Alcohol & Drug Education (ADE) or other types of treatment, with this frequency continuing to decline with the passing of each calendar year.

Court of Appeals data is obtained from the appellate Court and is not housed at the Administrative Office of the Courts. Appeals Court data is current as of January 31, 2014.

Data obtained from the PRIM (Pretrial Release Information Management) System presented in Section V of the Sourcebook is subject to the following limitations:

The data contained herein only applies to pretrial defendants that have not been sentenced and does not include those that are serving a jail sentence or awaiting transport from the Kentucky Department of Corrections (DOC). Therefore, when comparing the frequency of cases that are attended by pretrial officers to the frequency of cases filed in the KYCourts/CourtNet database, the frequency of cases in pretrial will be smaller in proportion. Some individuals who go to jail are released prior to being seen by a pretrial officer; the reasons for their release can be widely varied.

There are four classifications of felony (A, B, C, & D) and two classifications of misdemeanor (A & B); whereas criminal violations and traffic violations do not have a classification breakdown and are listed only as an X under either 'other' or 'violation'. Both felony and misdemeanor classifications have an 'other' category. A few outliers exist in both the felony and misdemeanor offenses, with a few individuals classification being listed as X. This can occur in felony cases for a few reasons; the first is if the individual is a persistent felony offender (PFO), if an obsolete offense code was utilized, if it was a probation violation, or a contempt of court charge. In the case of a PFO or a probation violation these are normally classified as class C felony; whether it appears in the database as a class C or a class X is dependent upon either how the pretrial officer entered it or how the clerk entered the case into the KYCourts database. For misdemeanors that are classified as an X those are usually due to the offense being a local ordinance, a contempt of court charge, or a probation violation. In the event that it is a probation violation it should actually be listed as a class A misdemeanor and has simply been incorrectly coded.

Data is limited to only those counties that have a jail; some neighboring counties utilize the same jail facility in one central location such as Boyle and Mercer Counties. Mercer County does not have its own jail therefore those who offend in Mercer County are taken to the Boyle County Detention Center. Other counties around the state work in similar fashion. Therefore, for pretrial purposes individuals are listed based upon the holding county and not the county in which they were charged.

Pretrial officers work to determine a defendant's risk level. These levels are low, moderate, or high, and are determined using a validated objective risk assessment that measures both flight and anticipated criminal conduct. There are some cases in which the individual was ineligible or not verified; this is determined on a case by case basis.

For calendar year 2011 pretrial services determined a public safety rate of 90%. This was determined by defendants who did not get arrested or cited for a new criminal offense while on pretrial release.

Data obtained from the Court Designated Worker Case Management System (CDWCMS) presented in Section IX is subject to the following limitations:

The CDWCMS system was developed to ensure the Court Designated Worker's (CDW) job was conducted more efficiently by allowing them to track and monitor juvenile complaints and diversion agreements. Data obtained from the CDWCMS system is broken down to list the number of charges, the number of referrals, and a distinct count of juveniles. An individual can have multiple charges within one referral plus an individual can also have multiple referrals. It is important to understand that some of the cases that were filed or closed during one calendar year (CY) may have originated during the previous calendar year; and, there are also some cases that have been filed during the present calendar year that may not be closed until sometime during the following calendar year. Due to the nature of many of the cases there are limitations to the data presented here as there is no clear way to know where potential overlap may occur which may cause inflation to the frequencies. Distinct Counts of referrals and juveniles are provided to counter any potential inflation of the frequencies.

All juvenile complaints, including status offenses, are referred to the local Court Designated Workers' (CDW) office. In general a referral is closed by the CDW as four categories: formal court, informal diversions, dismissals, and other. Within the formal court category there are four subfields: county attorney requested, judge requested, CDW referred (complaint was ineligible for diversion), and court generated charges. The court generated charges are a charge before the court that has not been processed via the CDW office, which typically means that the charge is contempt of court or a probation violation. Under informal diversions there is successful and unsuccessful; similarly dismissals also contain only two subfields: county attorney requested and no probable cause. Those classified as child requested formal and child failed to appear at preliminary interview will typically make their way into a formal court procedure.

Appendix D: Human Trafficking Data Limitations

The Human Trafficking data presented in Section X is subject to the following limitations:

Because there are no mandatory reporting guidelines for human trafficking cases, no one organization or agency serves as a repository to document or track these cases throughout the Commonwealth. The information provided in the *Sourcebook of Criminal Justice Statistics in the Commonwealth* was collected by Kentucky Rescue and Restore. It is based upon those individuals directly served by the agency as well as media reports and the charge and indictment information collected by the Kentucky Administrative Office of the Courts. As a result the data only captures a portion of the human trafficking cases that occurred within Kentucky during 2011, particularly since many of these cases and victims will never be identified.

The data for child victims includes information from victim disclosures about when their trafficking experience began. Some of those who were originally trafficked as children were not identified, rescued, or able to escape until their adulthood. Those reported as foreign nationals include those individuals who were born in another country and are not yet naturalized citizens or lawful permanent residents of the United States. The data for U.S. Citizens may include individuals who were born in other countries but are now lawful permanent residents or naturalized citizens of the United States as well as those who were born and raised in the United States. Some of these individuals may possess dual citizenship, but this data has not been collected at this time.

The reported cases include only those individuals trafficked within the Commonwealth of Kentucky at some point, either through initial recruitment or final exploitation. The data does not include the number of trafficking victims who may have moved to Kentucky after being trafficked in other locations.

Appendix E: Domestic Violence Data Limitations

The Domestic Violence data presented within the *Sourcebook* is subject to the following limitations:

The number of petitions issued has been calculated based upon the number of domestic violence cases filed in either District or Family Court and has been queried by the Administrative Office of the Courts based upon the case's filing date. The KYCourts/CourtNet database does not capture those situations in which a request for a protective order was denied however.

Within the Commonwealth of Kentucky during 2010 there were changes to the Emergency Protective Order (EPO) and Domestic Violence Order (DVO) process including the number of times that an individual can petition as well as the length of time that the awarded document could remain in effect. In the period prior to these changes (before July 15, 2010) the summons, known as an Emergency Protective Order (EPO), would expire in 14 days from the date of issue if the respondent was not served. The new process allowed for an EPO to remain in effect for a period of up to 6 months if the respondent was not served, and for the petitioner to file a new EPO petition prior to the 6 month time period which would restart the process as well as the 6 month deadline. After 2010, EPO's were allowed to remain in effect for 2 years if the respondent was not served. In situations in which the case is heard and protection that is more permanent is granted, the resulting document is known as a Domestic Violence Order (DVO). DVO's can be reissued every three years with no limit to the number of renewals.

During the last decade additional Family Court venues have been established, and an increasing number of Domestic Violence cases have been filed here although they can be issued in any court venue (District, Circuit, or Family). The courts can issue six different types of protective orders including: Domestic Violence Orders (DVO); Emergency Protective Orders (EPO); Protective Orders; Restraining Orders following a conviction for Stalking Offenses; as well as permanent and temporary Domestic Violence Failure to Protect Affidavits and Orders. These are tracked within the Administrative Office of the Courts database and can be queried based on the date, court, and county of issue as well as the type of order. Although some cases may have multiple types of documents filed, it is possible to identify the distinct number of cases in which such a petition is involved.

Violations of protective orders can be filed in District, Family, or Circuit Courts, although there are relatively few cases filed in Circuit Courts as compared to the other venues. Data regarding the violation of an existing protective order is obtained by querying for the presence of one or more Uniform Offense Reporting (UOR) codes including : (0027600) Contempt of Court, Violation of Emergency Protective Order; (0027620) Violation of Foreign EPO/DVO; (0027630) Violation of Kentucky EPO/DVO; and the obsolete code (0027610) Violation of Emergency Protective Order. Cases may also contain a separate contempt charge, thus it is possible to count only the number of cases and not to infer this to a number of individuals. This is particularly true because some individuals may be involved in multiple cases. In situations in which there are blanks or zeros this should be understood as a lack of violations instead of as missing or unknown data. UOR codes can also include supplemental/ASCF codes like 1) attempt 2) solicitation 3) conspiracy 4) facilitation 5) complicity or 6) enhancement.

This project was supported by Grant Number 2012-BJ-CX-K022, awarded by the Bureau of Justice Statistics, U.S. Department of Justice. The opinions, findings, conclusions, and recommendations expressed in this publication are those of the author(s) and do not necessarily reflect the views of the Bureau of Justice Statistics, U.S. Department of Justice, or the Kentucky Justice and Public Safety Cabinet.
