## Addiction Services

<table>
<thead>
<tr>
<th>Program Name</th>
<th>Recovery Kentucky Center (RKC) and Reentry Service Center (RSC) Community Long-term Residential SAP</th>
</tr>
</thead>
</table>
| **Program Description** | Recovery Kentucky Centers (RKCs): Through a joint effort by the Kentucky Department of Corrections, Kentucky Housing Corporation, and the Department for Local Government (DLG), Recovery Kentucky was created to assist Kentuckians recovering from substance use disorders and to reduce homelessness. There are 14 Recovery Kentucky Centers across the Commonwealth. Each Center offers a total of 100 treatment/recovery beds, with 60 beds contracted by the Kentucky Department of Corrections in each location. As supportive housing projects, each center uses a recovery program model that includes peer support, daily living skills classes, job responsibilities, and establishes new behaviors. This type of supportive housing and recovery program is proven to help people who face the most complex challenges to live more stable, productive lives.  
Reentry Service Centers (RSCs): Those individuals in need of Substance Use Disorder treatment, who meet the classification criteria for community custody, may participate in programs available in reentry service centers approved by the department to offer Substance Use Disorder treatment programming. |
| **Time Frame** | Recovery Kentucky Centers (RKCs): The program can range from 6 to 18 months, however, DOC only requires completion through Phase I and the offender can choose to stay longer if he/she chooses. The Recovery Kentucky model is broken into 5 Phases: Safe off the Streets (SoS), Motivational Track I (MTI), Motivational Track II (MTII), Phase I, and Phase II (see section on RKC/RSC mentor). DOC only requires SoS, MTI, MTII, and Phase I.  
Reentry Service Centers (RSCs): The program shall be six (6) months in duration. Most RSCs follow a Therapeutic Community model of treatment, which means it is a participative, group-based approach to long term drug addiction. The community itself, through self-help and mutual support, is the principal means for promoting personal change. |
| **Program Credit** | This program receives **90** days program credit upon completion. |
| **Admission Criteria** | Applicant has evidence of a substance use disorder that requires treatment.  
Applicant shall be deemed appropriate for this level of care by clinical staff within the Division of Addiction Services.  
Must be medically and psychologically stable – applicable to RKC placement only.  
From incarcerated population:  
If an individual receives a recommendation of parole upon completion (PUC) of SAP, they shall be assessed by a Branch Manager or Program Administrator within the Division of Addiction Services to determine the appropriate level of care. If it is determined that the individual is appropriate for community/RKC/RSC they shall be released to treatment in the community. |
From community population:
The court or supervising probation/parole officer can refer a client to the community Social Service Clinicians (SSC) to determine the appropriate level of care. Applicant shall have a custody status of Level 1 (community) – applicable to RSC placement only.

### Applicable Policies
- CPP 27-05-02 Use of Substance Abuse Staff
- CPP 27-13-01 Drug and Alcohol Testing of Offenders

<td></td>
</tr>
<tr>
<td>--------------</td>
<td>---------------</td>
<td></td>
</tr>
<tr>
<td>Program Description</td>
<td>The Volunteers of America Men’s Halfway Back Program is offered to justice involved males who are on either probation or parole. The program was specifically designed to deliver the customary six-month curriculum at an accelerated pace using a modified schedule. This modification allows participants an opportunity to complete treatment in less time than traditional residential programs based on a client’s individualized clinical progress as determined by the treatment team. A Treatment Team is held weekly in partnership with VOA and DOC Division of Addiction Services staff to review each client’s clinical progress as it is correlated to successful program completion.</td>
<td></td>
</tr>
<tr>
<td>Time Frame</td>
<td>This is a short-term residential treatment program. Length of stay is based on level of care criteria in conjunction with treatment team review.</td>
<td></td>
</tr>
<tr>
<td>Program Credit</td>
<td>The VOA program is approved for the issuance of 45 days program good time credit when clients successfully compete the program in 45, 60, or 90 days. If it is determined by the treatment team that a client needs an additional 90 days of care (beyond the initial 90 days) resulting in the client achieving a full 180 days of treatment, then at the successful completion of those 180 days the client will be issued two (2) certificates that will each be valid for 45 days PGTC for a total of 90 days of PGTC.</td>
<td></td>
</tr>
<tr>
<td>Admission Criteria</td>
<td>Those individuals in need of treatment for Substance Use Disorder who meet the clinical and classification criteria for community custody at this level of care may participate in this program. Must meet general criteria for referral to Reentry Service Centers approved by the Department to offer Substance Use Disorder treatment programming. Referrals can be made for parolees, probationers, ISC or HIP (limited). VOA HWB Program is not equipped to handle severe mental health issues. Cases may be reviewed on an individual basis. The program is not designed to manage clients with severe, chronic medical conditions that require frequent doctors’ appointments and/or treatments that would call for them to be absent from the facility. This location is unable to serve sex offenders due to women and children being housed on the same campus. Referrals are made through the Community SSC and a specification should be made on the referral form to the Placement Office requesting “VOA HWB Only.”</td>

<thead>
<tr>
<th><strong>Program Name</strong></th>
<th><strong>Community SAP - Comprehensive Outpatient Program</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Program Description</strong></td>
<td>Through an agreement with the Regional Community Mental Health Centers (CMHC), individuals who meet the clinical and classification criteria may attend a less restrictive Comprehensive Outpatient Program which generally takes six months to complete. Offenders meet weekly in an outpatient setting to receive <em>evidenced based</em> substance use disorder curriculum. Offenders must abide by all treatment program standards and submit to random drug screening. Due to an enhanced need in central Kentucky, the department contracts with the Hope Center to provide Substance Use Disorder treatment services akin to those offered in the CMHC’s. Eligible candidates include MRS, probationers, parolees, HIP, and pre-trial diversions.</td>
</tr>
<tr>
<td><strong>Time Frame</strong></td>
<td>This is a program which generally takes six-months to complete broken into three phases, totaling 56 treatment sessions. Each session is two hours in length. <strong>PHASE 1:</strong> 3 sessions each week for three months (36 sessions total) <strong>PHASE 2:</strong> 2 sessions each week for two months (16 sessions total) <strong>PHASE 3:</strong> 1 session each week for one month (4 sessions total) Offenders in the program may be restarted once, to the beginning of the phase they are in, but the total amount of time in the program cannot exceed 92 sessions.</td>
</tr>
<tr>
<td><strong>Program Credit</strong></td>
<td>This program receives 90 days program credit upon completion.</td>
</tr>
<tr>
<td><strong>Admission Criteria</strong></td>
<td>Offenders may be referred to Comprehensive Outpatient who present with a substance use disorder, which is causing multidimensional instability. Comprehensive Outpatient can be an entry point into treatment, a step down level of care, or a step up level of care. Comprehensive Outpatient would be considered for offenders who would likely benefit from structure and accountability. Offenders must be medically and mentally stable to attend two-hour treatment sessions in a group setting. From incarceration population: If an individual receives a recommendation of parole upon completion (PUC) of SAP, they shall be assessed by a Branch Manager or Program Administrator within the Division of Addiction Services to determine the appropriate level of care. If it is determined that the individual is appropriate for Comprehensive Outpatient and has a verified home placement, and can meet the requirements of attendance, they shall be released to Comprehensive Outpatient treatment in the community. Individuals who are enrolled in SAP at the time of their release from a jail or institution can enter Comprehensive Outpatient with credit for the weeks of treatment already completed, thus they can graduate without completing the full 56 sessions. From community population: The court or supervising probation/parole officer can refer an offender to the community Social Service Clinicians (SSC) to determine the appropriate level of care. ICOTS and Misdemeanor upon approval.</td>

| Program Name | Community SAMAT  
(Supportive Assistance with Medication for Addiction Treatment) |
|--------------|------------------------------------------------------------------------------------------------|
| Program Description | SAMAT is focused on preventing overdose, relapse, and recidivism for individuals with Opioid Use Disorder and/or Alcohol Use Disorder who have completed or are currently engaged in a Substance Abuse Program (SAP) through the implementation of FDA-approved medication for addiction treatment, Vivitrol (naltrexone).  

The goal of Community SAMAT is to facilitate a successful transition to an outpatient substance abuse treatment program that utilizes medication for addiction treatment, counseling, and case management upon the participant’s release from incarceration in an effort to reduce overdose, relapse, and recidivism. |
| Time Frame | Active SAMAT participants being released from incarceration will meet with a community Social Service Clinician as soon as possible to assist in identifying community providers and ensuring treatment is continued and monitored. In addition, any individual on supervision that meets criteria can choose to participate if clinically and medically appropriate. Participants can remain in the SAMAT program as long as they feel it is necessary for their personal recovery. |
| Program Credit | This program receives 90 days program credit upon completion. Vivitrol Only. |
| Admission Criteria | Participants must:  
  o Be identified as having an Opioid Use Disorder or Alcohol Use Disorder  
  o Voluntarily agree to participate  
  o Be on community supervision (parole, MRS, probation, diversion agreement)  
  o Have a community medical provider supervising medication management  
  o Be able to show documentation of services received from community provider  
  o Meet all other requirements of supervision |
| Applicable Policies | CPP 30.6 Division of Addiction Services Substance Abuse Program  
CPP 27-05-02 Use of Substance Abuse Staff

<tr>
<th>Program Name</th>
<th>SHARE-CO (Supportive Housing for Adaptive Reentry – Co-occurring)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Program Description</td>
<td>SHARE-CO is a facility for men with co-occurring Substance Use Disorders and Serious Mental Illness. The program addresses the substance use component by utilizing the peer-driven therapeutic community model that the Hope Center Men’s and Women’s Recovery Program has utilized for many years in its partnership with the Kentucky Department of Corrections. SHARE-CO utilizes Recovery Dynamics curriculum, integrating the twelve-step model with the peer-driven therapeutic community model. Due to comorbid psychiatric conditions, individuals in the co-occurring program require certain accommodations to ensure success. This includes supplementing the peer-driven therapeutic community model with licensed mental health professionals to provide direct services and support. The program also maintains smaller therapeutic community groups, providing a less intimidating and more personal format, which allows both staff and offenders to focus on the particular needs of this group. SHARE-CO is partnered with New Vista, a local community mental health provider, to provide onsite mental health counseling as well as referrals for outpatient psychiatric counseling as needed. Other accommodations include specialized mental health groups that are specific to integrating mental health with the twelve-step model based Recovery Dynamics curriculum, while still affording offenders the opportunity to integrate into classes with the Hope Center Men’s Recovery Program to provide them with the full scope of the Hope Center’s services.</td>
</tr>
<tr>
<td>Time Frame</td>
<td>SHARE-CO is a six (6) month program with options for aftercare services.</td>
</tr>
<tr>
<td>Program Credit</td>
<td>This program receives 90 days program credit upon completion.</td>
