Kentucky Department of Corrections

Division of Probation and Parole

Reentry Service Centers

Recovery Kentucky Centers

### INTRODUCTION

Supporting a successful transition to the community and maintaining stability within the offender population is central to the mission of the Kentucky Department of Corrections. The Department protects public safety by ensuring that offenders receive programming to support their successful return to the community. Programs are standardized across the Department, implemented with dedicated resources, and regularly reviewed for quality assurance.

This practical guide was prepared to highlight the Department's programs. Each program summary in this directory contains key information: a Program Description, Time Frame, Admission Criteria, Program Content, Applicable Policies and locations.

The Department maintains a catalogue of evidence-based, life skills, promising practice, and substance abuse programs to address a wide range of reentry, supervision, and incarceration needs. Program offerings vary based on available resources and the needs of the offender population. The Department of Corrections maintains a list of the programs that are currently available.

### **General Information**

### **Definitions:**

<u>Evidence Based</u> Programs are programs demonstrated by scientific research to reliably produce reductions in recidivism.

<u>Promising Practice</u> represents a program that may have some research or data showing positive outcomes but does not meet criteria as an Evidence Based program. Promising practices have a clear focus and includes processes of accountability and evaluation.

<u>Life Skills</u> Programs provide strategies to assist in removing barriers for successful reintegration and address skill areas including time management, money management, use of technology, communication, and social skills.

<u>Substance Abuse</u> Programs are evidence based drug treatment programs for individuals with a substance use disorder.

<u>Religious Program</u> means a program that does not have a secular purpose or a program, which has a curriculum that advances or inhibits specific religion(s) and does not qualify for program credit.

Program Name	MRT <sup>©</sup> – Moral Reconation Therapy  MRT <sup>©</sup> is the product of Correctional Counseling Inc. (CCI). MRT <sup>©</sup> and its related products are property of CCI. CCI is the sole source provider of MRT <sup>©</sup> products.
Program Description	This <b>Evidence Based</b> program combines group presentations and individual assignments, along with facilitator guidance when necessary. The program was designed in a criminal justice setting for offenders involved in the criminal justice system. MRT <sup>©</sup> targets an offender's belief system and attempts to raise their level of moral reasoning in their decision-making process. The MRT <sup>©</sup> program has been researched for over thirty years and has proven reduction in recidivism levels at multiple points of progress within the program, as well as after overall program completion. MRT <sup>©</sup> is designed to achieve formal program completion after 12 in-group steps. The workbook for this program is entitled 'How to Escape Your Prison' <sup>©</sup> and includes the use of a separate facilitator guide.  *MRT certification is required to facilitate this program.
Time Frame	Length of time in program is dependent on individual offender progress, although offenders can generally expect to participate in 24-36 open-ended group sessions. Offenders will also be required to work individually on homework assignments as part of the program requirements.
Program Credit	This program receives <b>90</b> days program credit upon completion.

	Recovery Kentucky Center (RKC) and Reentry Service Center (RSC)	
Program		
Name		
Program Description	Recovery Kentucky Centers (RKCs):  The Recovery Kentucky model is a Peer-Driven model with the goal of changing how clients think, feel, and experience emotions in order to reduce substance use disorder and homelessness. The Recovery Kentucky model incorporates elements of Twelve Step Principles and Recovery Dynamics. The Recovery Kentucky model is broken into 5 Phases: Safe off the Streets (SoS), Motivational Track I (MTI), Motivational Track II (MTII), Phase I, and Phase II/Peer Mentor. During each Phase of the program clients are asked to participate in alcohol and drug education classes; participate in community meetings; hold themselves accountable for negative behaviors and breaking rules; attend self-help meetings; work a Twelve Step program; and complete written assignments. During some portions of the program clients are asked to "trudge" (walk) to classes off-site. "Trudging" represents a client going to equal lengths for their recovery as they did their addiction. **Accommodations can be made for clients unable to trudge**	
	Reentry Service Centers (RSCs):  Some of the RSCs utilize a RKC model which is referenced above. However, most of the RSCs utilize the Therapeutic Community Model to treat clients with substance use disorder. The TC model is a peer driven program incorporating Cognitive Behavioral Therapy in conjunction with evidence-based curriculum. Participants engage in education regarding their substance use disorder and have the opportunity to learn, practice, and apply pro-social behaviors. The community itself, through self-help and mutual support, is the principal means for promoting personal change.	
Time Frame	Recovery Kentucky Centers (RKCs): The program can range from 6 to 18 months, however, DOC only requires completion through Phase I; which should typically take around 7 months to complete. Clients may choose to stay longer to complete the Phase II or Peer Mentor portion of the program.  Reentry Service Centers (RSCs): The program is typically six (6) months in length and is based on the client's individual progress and participation.	
Program	This program receives <b>90</b> days program credit upon completion.

Duanuana	Recovery Kentucky Center (RKC) and Reentry Service Center (RSC) Mentor (SAP	
Program Name	Mentor)	
Program Description	Recovery Kentucky Centers (RKCs):  The clients who have completed all the requirements through Phase I with a Recovery Kentucky model program can apply and sign on for Phase II/Peer Mentorship.  Phase II: Clients are eligible to seek outside employment and begin paying rent during this Phase.  Clients continue to: work on maintaining sobriety; participate in community meetings; hold themselves accountable for negative behaviors and breaking rules; attending self-help meetings. Clients will also complete the 7 and 7 program which consists of mentoring and helping the SOS and MT clients in the program.  Peer Mentors: The key role of Peer Mentors to act as mentors, counselors, and teachers to the program participants. The Peer Mentors are trained and assigned to teach the Recovery Dynamics curriculum to the program participants. Peer Mentors engage in all the same aspects of programming as Phase II except they are not permitted to seek outside employment during the first 90-day commitment. After 90 days they are then permitted to gain outside employment as well.	
	Reentry Service Centers (RSCs): Those individuals who have completed all the requirements for an RSC can apply to stay for Peer Mentorship. They begin to give back to the community by acting as role models, mentors, and teachers to the other phases in the program.	
Time Frame	Recovery Kentucky Centers (RKCs): Phase II can range from 1 to 6 months.  Peer Mentor "commitments" are broken into 90-day contracts. Clients can choose to participate in one or more Peer Mentor "commitments".  DOC requires a full six (6) month commitment in order to be eligible for good time.

Program Name	SAP - VOA HWB
Program Description	The Volunteers of America Men's Halfway Back Program is offered to justice involved males who are on either probation or parole. The program was specifically designed to deliver the customary six-month curriculum at an accelerated pace using a modified schedule. This modification allows participants an opportunity to complete treatment in less time than traditional residential programs based on a client's individualized clinical progress as determined by the treatment team. A Treatment Team is held weekly in partnership with VOA and DOC Division of Addiction Services staff to review each client's clinical progress as it is correlated to successful program completion.
Time Frame	This is a short-term residential treatment program. Length of stay is based on level of care criteria in conjunction with treatment team review.
Program Credit	The VOA program is approved for the issuance of 45 days program good time credit when clients successfully compete the program in an average length of 45, 60, or 90 days. If it is determined by the treatment team that a client needs an additional 90 days of care (beyond the initial 90 days) resulting in the client achieving a full 180 days of treatment, then at the successful completion of those 180 days the client will be issued two (2) certificates that will each be valid for 45 days PGTC for a total of 90 days of PGTC.
Admission Criteria	Those individuals in need of treatment for Substance Use Disorder who meet the clinical and classification criteria for community custody at this level of care may participate in this program. Must meet general criteria for referral to Reentry Service Centers approved by the Department to offer Substance Use Disorder treatment programming.  Referrals can be made for parolees, probationers, ISC or HIP (limited). VOA HWB Program is not equipped to handle severe mental health issues. Cases may be reviewed on an individual basis. The program is not designed to manage clients with severe, chronic medical conditions that require frequent doctors' appointments and/or treatments that would call for them to be absent from the facility. This location is unable to serve sex offenders due to women and children being housed on the same campus.  Referrals are made through the Community SSC and a specification should be made on the referral form to the Placement Office requesting "VOA HWB Only."

Program	Community SAP - Comprehensive Outpatient Program
Name	
Program Description	Through an agreement with the Regional Community Mental Health Centers (CMHC), individuals who meet the clinical and classification criteria may attend a less restrictive Comprehensive Outpatient Program which generally takes six months to complete. Offenders meet weekly in an outpatient setting to receive <b>evidenced based</b> substance use disorder curriculum. Offenders must abide by all treatment program standards and submit to random drug screening.  Due to an enhanced need in central Kentucky, the department contracts with the Hope Center
	to provide Substance Use Disorder treatment services akin to those offered in the CMHC's. Eligible candidates include MRS, probationers, parolees, HIP, and pre-trial diversions.
Time Frame	This is a program which generally takes six-months to complete broken into three phases, totaling 56 treatment sessions.  Each session is two hours in length.  PHASE 1: 3 sessions each week for three months (36 sessions total)  PHASE 2: 2 sessions each week for two months (16 sessions total)  PHASE 3: 1 session each week for one month (4 sessions total)  Offenders in the program may be restarted once, to the beginning of the phase they are in, but the total amount of time in the program cannot exceed 92 sessions.
Program	the total amount of time in the program cannot exceed 32 sessions.
Credit	This program receives <b>90</b> days program credit upon completion.
	Offenders may be referred to Comprehensive Outpatient who present with a substance use disorder, which is causing multidimensional instability. Comprehensive Outpatient can be an entry point into treatment, a step down level of care, or a step up level of care. Comprehensive Outpatient would be considered for offenders who would likely benefit from structure and accountability. Offenders must be medically and mentally stable to attend two-hour treatment sessions in a group setting.
Admission Criteria	From incarceration population: If an individual receives a recommendation of parole upon completion (PUC) of SAP, they shall be assessed by a Branch Manager or Program Administrator within the Division of Addiction Services to determine the appropriate level of care. If it is determined that the individual is appropriate for Comprehensive Outpatient and has a verified home placement, and can meet the requirements of attendance, they shall be released to Comprehensive Outpatient treatment in the community. Individuals who are enrolled in SAP at the time of their release from a jail or institution can enter Comprehensive Outpatient with credit for the weeks of treatment already completed, thus they can graduate without completing the full 56 sessions.
	From community population: The court or supervising probation/parole officer can refer an offender to the community Social Service Clinicians (SSC) to determine the appropriate level of care. ICOTS and Misdemeanor upon approval.
