The Recovery Kentucky model is broken into 5 Phases: Safe off the Streets (SoS), Motivational Track I (MTI), Motivational Track II (MTII), Phase I, and Phase II/Peer Mentor. During each Phase of the program clients are asked to participate in alcohol and drug education classes; participate in community meetings; hold themselves accountable for negative behaviors and breaking rules; attend self-help meetings; work a Twelve Step program; and complete written assignments. During some portions of the program clients are asked to “trudge” (walk) to classes off-site. “Trudging” represents a client going to equal lengths for their recovery as they did their addiction. **Accommodations can be made for clients unable to trudge**</p> <p><i>Recovery Kentucky has a partnership with Kentucky Housing and if applicable client’s will be required to follow HUD guidelines for housing and rent.</i></p> <p>Reentry Service Centers (RSCs): Some of the RSCs utilize a RKC model which is referenced above. However, most of the RSCs utilize the Therapeutic Community Model to treat clients with substance use disorder. The TC model is a peer driven program incorporating Cognitive Behavioral Therapy in conjunction with evidence-based curriculum. Participants engage in education regarding their substance use disorder and have the opportunity to learn, practice, and apply pro-social behaviors. The community itself, through self-help and mutual support, is the principal means for promoting personal change.</p>
Time Frame	<p>Recovery Kentucky Centers (RKC): The program can range from 6 to 18 months, however, DOC only requires completion through Phase I; which should typically take around 7 months to complete. Clients may choose to stay longer to complete the Phase II or Peer Mentor portion of the program.</p> <p>Reentry Service Centers (RSCs): The program is typically six (6) months in length and is based on the client’s individual progress and participation.</p>
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	<p>Applicant has evidence of a substance use disorder that requires treatment.</p> <p>Applicant shall be deemed appropriate for this level of care by clinical staff within the Division of Addiction Services.</p> <p>Must be medically and psychologically stable – applicable to RKC placement only.</p>

	<p>From incarcerated population: If an individual receives a recommendation of parole upon completion (PUC) of SAP or is determined eligible for HIP, they shall be assessed by a Branch Manager or Program Administrator within the Division of Addiction Services to determine the appropriate level of care. If it is determined that the individual is appropriate for community/RKC/RSC they shall be released to treatment in the community. Individuals who are enrolled in SAP at the time of their release can enter community RKC/RSC with recognition for the treatment already completed.</p> <p>From community population: The court or supervising probation/parole officer can refer a client to the community Social Service Clinicians (SSC) to determine the appropriate level of care. Applicant shall have a custody status of Level 1 (community) – applicable to RSC placement only. While enrolled in SAP a client may enroll in one (1) other evidence-based program. In addition anyone eligible to attend GED may do so and this will not count as the one additional program.</p>
