Addiction Services

Program Name	Recovery Kentucky Center (RKC) and Reentry Service Center (RSC)
Program Description	Recovery Kentucky Centers (RKC): The Recovery Kentucky model is a Peer-Driven model with the goal of changing how clients think, feel, and experience emotions in order to reduce substance use disorder and homelessness. The Recovery Kentucky model incorporates elements of Twelve Step Principles and Recovery Dynamics. The Recovery Kentucky model is broken into 5 Phases: Safe off the Streets (SoS), Motivational Track I (MTI), Motivational Track II (MTII), Phase I, and Phase II/Peer Mentor. During each Phase of the program clients are asked to participate in alcohol and drug education classes; participate in community meetings; hold themselves accountable for negative behaviors and breaking rules; attend self-help meetings; work a Twelve Step program; and complete written assignments. During some portions of the program clients are asked to “trudge” (walk) to classes off-site. “Trudging” represents a client going to equal lengths for their recovery as they did their addiction. **Accommodations can be made for clients unable to trudge** Recovery Kentucky has a partnership with Kentucky Housing and if applicable client’s will be required to follow HUD guidelines for housing and rent. Reentry Service Centers (RSCs): Some of the RSCs utilize a RKC model which is referenced above. However, most of the RSCs utilize the Therapeutic Community Model to treat clients with substance use disorder. The TC model is a peer driven program incorporating Cognitive Behavioral Therapy in conjunction with evidence-based curriculum. Participants engage in education regarding their substance use disorder and have the opportunity to learn, practice, and apply pro-social behaviors. The community itself, through self-help and mutual support, is the principal means for promoting personal change.
Time Frame	Recovery Kentucky Centers (RKC): The program can range from 6 to 18 months, however, DOC only requires completion through Phase I; which should typically take around 7 months to complete. Clients may choose to stay longer to complete the Phase II or Peer Mentor portion of the program. Reentry Service Centers (RSCs): The program is typically six (6) months in length and is based on the client’s individual progress and participation.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	Applicant has evidence of a substance use disorder that requires treatment. Applicant shall be deemed appropriate for this level of care by clinical staff within the Division of Addiction Services. Must be medically and psychologically stable – applicable to RKC placement only.
