

Addiction Services

Program Name	Recovery Kentucky Center (RKC) and Halfway House (HWH)
Program Description	Recovery Kentucky Centers (RKC): The Recovery Kentucky model is a Peer-Driven model with the goal of changing how clients think, feel, and experience emotions in order to reduce substance use disorder and homelessness. The Recovery Kentucky model incorporates elements of Twelve Step Principles and Recovery Dynamics. The Recovery Kentucky model is broken into 5 Phases: Safe off the Streets (SoS), Motivational Track I (MTI), Motivational Track II (MTII), Phase I, and Phase II/Peer Mentor. During each Phase of the program clients are asked to participate in alcohol and drug education classes; participate in community meetings; hold themselves accountable for negative behaviors and breaking rules; attend self-help meetings; work a Twelve Step program; and complete written assignments. During some portions of the program clients are asked to “trudge” (walk) to classes off-site. “Trudging” represents a client going to equal lengths for their recovery as they did their addiction. **Accommodations can be made for clients unable to trudge** <i>Recovery Kentucky has a partnership with Kentucky Housing and if applicable client’s will be required to follow HUD guidelines for housing and rent.</i> Halfway Houses (HWHs): Some of the HWHs utilize a RKC model which is referenced above. However, most of the HWHs utilize the Therapeutic Community Model to treat clients with substance use disorder. The TC model is a peer driven program incorporating Cognitive Behavioral Therapy in conjunction with evidence-based curriculum. Participants engage in education regarding their substance use disorder and have the opportunity to learn, practice, and apply pro-social behaviors. The community itself, through self-help and mutual support, is the principal means for promoting personal change.
Time Frame	Recovery Kentucky Centers (RKC): The program can range from 6 to 18 months, however, DOC only requires completion through Phase I; which should typically take around 7 months to complete. Clients may choose to stay longer to complete the Phase II or Peer Mentor portion of the program. Halfway Houses (HWHs): The program is typically six (6) months in length and is based on the client’s individual progress and participation.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	Applicant has evidence of a substance use disorder that requires treatment. Applicant shall be deemed appropriate for this level of care by clinical staff within the Division of Addiction Services. Must be medically and psychologically stable – applicable to RKC placement only.

	From incarcerated population: If an individual receives a recommendation of parole upon completion (PUC) of SAP or is determined eligible for HIP, they shall be assessed by a Branch Manager or Program Administrator within the Division of Addiction Services to determine the appropriate level of care. If it is determined that the individual is appropriate for community/RKC/HWH they shall be released to treatment in the community. Individuals who are enrolled in SAP at the time of their release can enter community RKC/HWH with recognition for the treatment already completed. From community population: The court or supervising probation/parole officer can refer a client to the community Social Service Clinicians (SSC) to determine the appropriate level of care. Applicant shall have a custody status of Level 1 (community) – applicable to HWH placement only. While enrolled in SAP a client may enroll in one (1) other evidence-based program. In addition anyone eligible to attend GED may do so and this will not count as the one additional program.

Program Name	Recovery Kentucky Center (RKC) and Halfway House (HWH) Mentor (SAP Mentor)
Program Description	Recovery Kentucky Centers (RKC): The clients who have completed all the requirements through Phase I with a Recovery Kentucky model program can apply and sign on for Peer Mentorship. The key role of Peer Mentors to act as mentors, role models, and teachers to the program participants. The Peer Mentors are trained and assigned to teach the Recovery Dynamics curriculum to the program participants. After 90 days, Peer Mentors are permitted to gain outside employment. <i>Recovery Kentucky has a partnership with Kentucky Housing and if applicable client's will be required to follow HUD guidelines for housing and rent.</i> Halfway House (HWHs): Those individuals who have completed all the requirements for an HWH can apply to stay for Peer Mentorship. They begin to give back to the community by acting as role models, mentors, and teachers to the other phases in the program. Peer Mentors for both RKC and HWHs are responsible for the following (but not limited to): ○ Model prosocial behaviors and attitudes; ○ Model success or failure through trial-and-error learning process; ○ Model support and guidance to peers and staff in community; ○ Model new behaviors, attitudes, and responsible living on a daily basis; ○ Model appropriate accountability to bring awareness to Criminal & Addictive Thinking Patterns and behaviors for self and peers; ○ Model leadership through tasks assigned to create clear and understandable expectations; Complete work in Hazelden “Now That You’re Sober”[®] workbook or other evidenced-based curriculum.
Time Frame	Recovery Kentucky Centers (RKC) and Halfway Houses (HWH): DOC requires a full six (6) month commitment to be eligible for good time.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	Must have completed all previous program requirements and applied for peer mentorship. Peer Mentor Agreement (and other applicable documentation) must be sent to DOCSAP.RKCRSCDocuments@ky.gov email, providing notification of client's intent to participate in SAP Mentor program. While enrolled in SAP Mentor a client may enroll in one (1) other evidence-based program. In addition, anyone eligible to attend GED may do so and this will not count as the one additional program.

Program Name	SAP – DOC Approved Program								
Program Description	A client on misdemeanor supervision, pre-trial diversion, probation, MRS (mandatory reentry supervision), or parole may be referred to a DOC Approved Provider for Substance Use Disorder Treatment. The goal of Approved Providers is to provide treatment for substance use disorder through a community provider that utilizes a level of care of 2 or higher upon the clinically appropriate referral from a Division of Addiction Services staff. Levels of treatment eligible include levels 2 and 3.								
Time Frame	Will vary based on clinical need, but may include multiple levels of care. Eligible clients will be reviewed by Division of Addiction Services staff to assist in identifying community providers and ensuring treatment is implemented and monitored. Participants remain in programming as clinically appropriate.								
Program Credit	Program Credit for this program will be determined by the levels of care completed as follows and for individuals on court ordered release, at the sentencing Judges discretion: - ASAM Levels 3 – 30 days of program good time credit upon completion - ASAM Levels 2 – 60 days of program good time credit upon completion - Client may receive credit for each level of care once per treatment episode - Addiction Services maintains the ability to grant credit at the discretion of the division if deemed appropriate.								
Admission Criteria	Participants must: - Be deemed appropriate for level of care by clinical staff within the Division of Addiction Services - Be on community supervision (parole, MRS, probation, diversion agreement) - Have an active “Authorization for disclosure of information” with provider and DOC (if the ROI is revoked or revised credit will be denied) - Be compliant with Conditions of Supervision (to include treatment recommendations as required by the sentencing authority, Court/Parole Board) Provider Must: - Be verified as a DOC Approved Provider of substance use disorder treatment.

Program Name	Community SAP - Comprehensive Outpatient Program
Program Description	Comprehensive Outpatient substance use disorder treatment program can be an initial entry point into treatment or accessed as a continuum of care for offenders determined to be in need of substance use disorder services. Participants receive weekly group treatment in an outpatient setting through an agreement with the Regional Community Mental Health Centers (CMHC). Participants receive evidenced based substance use disorder curriculum and must abide by all treatment program standards including submitting to random drug screening. Due to an enhanced need in central Kentucky, the department contracts with the Hope Center to provide Substance Use Disorder treatment services akin to those offered in the CMHC's. Eligible candidates include MRS, probationers, shock probationers, parolees, HIP, and pre-trial diversions. ICOTS, Women's Medical Releases, SOCD and Misdemeanor offenders upon approval.
Time Frame	This program is broken into three phases, moving from most intensive to least intensive. CMHC's provide two-hour sessions, at the following schedule: PHASE 1: 3 sessions per week for 12 weeks (36 sessions/72 hours) PHASE 2: 2 sessions per week for 8 weeks (16 sessions/32 hours) PHASE 3: 1 session per week for 4 weeks (4 sessions) Thus, CMHC participants generally complete in six months (56 sessions/112 hours) Hope Center provides three-hour session, at the following schedule: PHASE 1: 3 sessions per week for 8 weeks (24 sessions/72 hours) PHASE 2: 2 sessions per week for 5 weeks (10 sessions/30 hours) PHASE 3: 1 session per week for 3 weeks (3 sessions/9 hours) Thus, Hope Center participants generally complete in four months (37 sessions/111 hours) Participants in the program may be restarted as determined clinically appropriate.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	Offenders may be referred to Comprehensive Outpatient who present with a substance use disorder, which is causing multidimensional instability. Comprehensive Outpatient can be an entry point into treatment, a step down level of care, or a step up level of care. Comprehensive Outpatient would be considered for offenders who would likely benefit from structure and accountability. Offenders must be medically and mentally stable to attend treatment sessions in a group setting. From incarceration population: If an individual receives a recommendation of parole upon completion (PUC) of SAP or is determined eligible for HIP, they shall be assessed by the Division of Addiction Services to determine the appropriate level of care. If it is determined that the individual is appropriate for Comprehensive Outpatient and has a verified home placement, they shall be released to

	Comprehensive Outpatient treatment in the community. Individuals who are enrolled in SAP at the time of their release from a jail or institution can enter Comprehensive Outpatient with recognition for the weeks of treatment already completed. From community population: The court or supervising probation/parole officer can refer an offender to the community Social Service Clinicians (SSC) to determine the appropriate level of care.

Program Name	Community SAMAT (Supportive Assistance with Medication for Addiction Treatment)
Program Description	A client on misdemeanor supervision, pre-trial diversion, probation, MRS (mandatory reentry supervision), or parole may be eligible for SAMAT. Community SAMAT candidates may be referred to a medical provider for evaluation for FDA approved medication to treat Opioid Use Disorder and/or Alcohol Use disorder. SAMAT may prevent overdose, relapse, and recidivism for individuals with Opioid Use Disorder and/or Alcohol Use Disorder. Candidates are currently engaged in ASAM level of care and may benefit from the implementation of FDA-approved medication for addiction treatment, including Naltrexone (Vivitrol), Buprenorphine (Suboxone, Sublocade, Brixadi), or Methadone as prescribed by their medical provider. The goal of Community SAMAT is to facilitate a successful transition to a referred level of care for substance abuse treatment that utilizes medication for addiction treatment, counseling, drug screens, and NARCAN education upon the participant's referral from a social service clinician.
Time Frame	SAMAT candidates will be reviewed by a community Social Service Clinician as soon as possible to assist in identifying community providers and ensuring treatment is implemented and monitored. Participants remain in the SAMAT program approximately six months to maintain good standing.
Program Credit	This program receives 90 days program credit upon completion of 6 consecutive months of monthly documented SAMAT participation and progress in ASAM level of care. Continuation of medication after 6 months is not eligible for additional program credit.
Admission Criteria	Participants must: ○ Be identified as having an Opioid Use Disorder or Alcohol Use Disorder ○ If diagnosed with AUD only, Vivitrol is the only FDA approved medication available for PGTC. ○ Voluntarily agree to participate ○ Be on community supervision (parole, MRS, probation, misdemeanor probation, or diversion agreement) ○ Be on community supervision (parole, MRS, probation, diversion agreement) ○ Have a community medical provider supervising medication management and drug screens ○ Agree to provide documentation of one-time Narcan training. ○ Agree to stay in compliance with and meet all other requirements of supervision ○ Agree to be compliant with SSC referred ASAM level of care

Program Name	SHARE-CO (Supportive Housing for Adaptive Reentry – Co-occurring)	
Program Description	SHARE-CO is an evidenced based program for individuals with co-occurring disorders. This program assists offenders with mental illness, co-occurring mental illness, and substance use disorder (SUD). This program utilizes a combination of the Recovery Kentucky model of the peer-driven therapeutic community in conjunction with the living in balance curriculum. Clients in this program with severe SUD are also encouraged and allowed to attend Recovery Dynamics programming. Services for clients in this program are targeted to include alcohol and drug education classes; participate in community meetings; hold themselves accountable for negative behaviors and breaking rules; attend self-help meetings; work a Twelve Step program; and complete written assignments. This program also utilizes licensed mental health professionals to provide direct services and support. Additionally, this program has many resources that can provide onsite mental health counseling as well as referrals for outpatient psychiatric counseling as needed. This program also maintains smaller therapeutic community groups, providing a less intimidating and more personal format, which allows both staff and offenders to focus on the particular needs of the clients. During some portions of the program clients may be asked to “trudge” (walk) to classes off-site. “Trudging” represents a client going to equal lengths for their recovery as they did their addiction. **Accommodations can be made for clients unable to trudge** <i>Recovery Kentucky has a partnership with Kentucky Housing and if applicable client’s will be required to follow HUD guidelines for housing and rent.</i>	
Time Frame	SHARE-CO is a minimum of six (6) month with options for aftercare services. Completion is dependent on client needs and progress.	
Program Credit	This program receives 90 days program credit upon completion.	
Admission Criteria	Offenders may be referred to SHARE-CO if they: ○ Suffer from both Serious Mental Illness and a history of Substance Use Disorder ○ Meet requirements for residential level of care ○ Have the ability to participate in a pro-social therapeutic community model ○ Have no history of violence or present suicidal/homicidal ideations ○ Are stabilized through medication management or other mental health services

Program Name	SHARE-SMI (Supportive Housing for Adaptive Reentry – Serious Mental Illness)	
Program Description	SHARE-SMI is an evidenced based program for individuals with Serious Mental Illness who may not meet criteria for any Substance Use Disorders. This program utilizes a combination of the Recovery Kentucky model of the peer-driven therapeutic community in conjunction with the living in balance curriculum. Services for clients in this program are targeted to include participating in community meetings; hold themselves accountable for negative behaviors and breaking rules; and complete written assignments. In addition, SHARE-SMI provides referrals for primary health care, job training, vocational support services, educational services, and permanent housing. Offenders are given the opportunity to be referred for Targeted Case Management services to provide ongoing aftercare support once they transition back into the community. This program also utilizes licensed mental health professionals to provide direct services and support. Additionally, this program has many resources that can provide onsite mental health counseling as well as referrals for outpatient psychiatric counseling as needed. This program also maintains smaller therapeutic community groups, providing a less intimidating and more personal format, which allows both staff and offenders to focus on the particular needs of the clients. During some portions of the program clients may be asked to “trudge” (walk) to classes off-site. “Trudging” represents a client going to equal lengths for their recovery as they did their addiction. **Accommodations can be made for clients unable to trudge** <i>Recovery Kentucky has a partnership with Kentucky Housing and if applicable client’s will be required to follow HUD guidelines for housing and rent.</i>	
Time Frame	SHARE-SMI is a minimum of six (6) month with options for aftercare services. Completion is dependent on client needs and progress.	
Program Credit	This program receives 90 days program credit upon completion.	
Admission Criteria	Offenders may be referred to SHARE-SMI if they: ○ Suffer from Serious Mental Illness ○ Meet requirements for residential level of care ○ Have the ability to participate in a pro-social therapeutic community model ○ Have no history of violence or present suicidal/homicidal ideations ○ Are stabilized through medication management or other mental health services
