GOODWILL WORKS

Goodwill is dedicated to helping motivated job seekers who need help getting a foot in the door with employers or who may need a second chance to participate in the workforce.

Preparation and opportunity are the keys to success, and we offer a Work Ready Certificate to graduates of Goodwill's Soft Skills Academy. Currently, participants study and practice six concepts that significantly impact the ability to find and maintain employment: attitude, conflict resolution, dependability, safety, self-presentation, and team building.

Further, through partnerships with employers across the state – and by matching job seekers with long-term career coaches – Goodwill is connecting Kentuckians with meaningful opportunities to find a career path and climb the ladder out of poverty.

For more information, call **1-844-GWK-WORK (1-844-495-9675)** or contact the Goodwill

Moral Reconciliation Therapy (MRT) - This Evidence Based program combines group presentations and individual assignments, along with facilitator guidance when necessary. The program was designed in a criminal justice setting for offenders involved in the criminal justice system. MRT targets an offender's belief system and attempts to raise their level of moral reasoning in their decision-making process. The MRT program has been researched for over thirty years and has proven reduction in recidivism levels at multiple points of progress within the program, as well as after overall program completion. MRT is designed to achieve formal program completion after 12 in-group steps. The workbook for this program is entitled 'How to Escape Your Prison' and includes the use of a separate facilitator guide. Classes meet once or twice per week for 90 minute sessions per class. **This program received 90 days program credit upon completion.**

MRT Mentor - The MRT Mentoring program strives to ensure a higher success rate for those who have previously completed MRT. A Mentor within the MRT program will be held to a higher behavioral expectation than those participating in the MRT group. Mentorship is beneficial for both the offender serving as the mentor, as well as for the offenders participating in the MRT© program. As a mentor, this offender will be expected to revisit steps 1-4 from the offender's original 'How to Escape your Prison' workbook, along with completion of the 'Character Development' Workbook. Clients must have previously completed MRT for admission into the program. Classes meet once or twice per week for 90 minute sessions per class. **This program received 90 days program credit upon completion.**

MRT Thinking for Good - This Cognitive Behavioral program was developed to confront Anti-Social and Criminal Thinking errors. Completion entails 10 modules with a minimum of 10-12 group sessions utilizing the 'Thinking for Good' Workbook, and the completion of homework assignments prepared outside of group. Classes meet once or twice per week for 90 minute sessions per class. **This program received 60 days program credit upon completion.**

Parenting & Family Values (MRT Parenting) - This Cognitive-Behavioral program focuses on family values and individual priorities, and is appropriate for all parents, stepparents, and guardians. Completion of 12 modules and program attendance is required. Classes meet once or twice per week for 90 minute sessions per class. **This program received 90 days program credit upon completion.**

MRT Anger Management - This Cognitive-Behavioral program is designed to assist offenders in recognizing and overcoming anger. This program includes completion of 8 modules with a minimum of 8-10 group sessions utilizing the

‘Coping with Anger’ workbook, various supplemental materials, and the completion of homework assignments prepared outside of group. Classes meet once or twice per week for 90 minute sessions per class. **This program received 90 days program credit upon completion.**

MRT Staying Quit - This Cognitive-Behavioral program is designed to assist with relapse prevention by helping offenders to recognize risky situations, cravings, and triggers. This program requires completion of eight (8) modules over a minimum of 8-10 group sessions. Groups are open-ended and require the completion of the ‘Staying Quit’ workbook, as well as preparation of homework assignments outside of the group. Classes meet once or twice per week for 90 minute sessions per class. **This program received 60 days program credit upon completion.**

MRT Untangling Relationships - This Cognitive-Behavioral program focuses on providing treatment to offenders involved in addictive/co-dependent relationships – confronting the issues of manipulation and dependence. Targets domestic violence, unhealthy relationships, enabling, substance abusers and criminality. Offenders will be required to participate in a minimum of 12 group sessions, along with preparation of homework assignments outside of group. This program utilizes the ‘Untangling Relationships’ workbook. Classes meet once or twice per week for 90 minute sessions per class. **This program received 90 days program credit upon completion.**

PORTAL New Directions - This Life Skills program is designed to provide information and resources to address the most common reentry needs and barriers. Some barriers addressed in this program are housing, employment, transportation, money management, parenting, etc. Completion of this program is a minimum of 21 hours of group participation, and preparation and presentation of a Reentry/Maintenance plan in front of the group. PORTAL New Direction consists of 16-modules, facilitated no more than twice per week. **This program received 60 days program credit upon completion.**
