Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act (PREA) Audit for Eastern Kentucky Correctional Complex Summary Report initially started February 20, 2018, with a written notification from the American Correctional Association (ACA) that the Kentucky Department of Corrections scheduled a PREA Audit with an onsite audit date of April 23-25, 2018. The ACA notified PREA Certified Auditor Demetrius Henderson by e-mail of his appointment as the Lead PREA Auditor for the audit. The ACA scheduled a two-member team audit with Clayton Kellum, Certified PREA Auditor, serving as a team member.

The audit process started on February 23, 2018, with the PREA Lead Auditor observing the Kentucky's Department of Corrections website. The Lead Auditor completed a telephone call to the PREA Compliance Manager at Eastern Kentucky Correctional Complex. The PREA Compliance Manager mailed a hard drive (hereafter referred to as USB Flash Drive) to the Lead Auditor, which arrived around the beginning of April 2018. The Lead Auditor began the review of the Pre-Audit Questionnaire and the materials sent prior to the audit on-site visit. The Lead Auditor reviewed each item on the USB Flash Drive. The USB Flash Drive contained documents for the PREA audit including; daily facility count which identified the daily population for the 1st, 10th, and 20th day of the month for the past twelve months; check list files for each standard including copies of compliance documents. The USB Flash Drive also contained the Department and Facility Mission Statements; PREA Pre-audit report for Prisons/Jail Facilities confirming no detained inmates solely for immigration purposes and no youthful inmates; number of camera, and Floor Plans. The information collected from the USB Flash Drive was used to complete the PREA Compliance Audit Instrument Checklist of Policies/Procedures and Pre-Audit Auditor Compliance Tool prior to the site visit. The Kentucky Department of Corrections policies and procedures on eliminating sexual assaults, and zero tolerance of sexual abuse and sexual harassment were thoroughly defined.

The Lead Auditor made telephone contacts with the PREA Manager and State PREA Coordinator to coordinate the logistics of the site visit, planning interviews and observation on the units and program areas, and confirming the posting of notices for the PREA audit. The PREA posting was initiated through the American Correctional Association (ACA) to the facility being audited. The Lead Auditor confirmed that posting had accurate contact information.

The Auditors stayed in Moreland, Kentucky and were transported daily by the PREA State Coordinator. The Eastern Kentucky Correctional Complex on-site audit visit officially began at 8:00 a.m. on Monday, April 23, 2018. The visit started with an orientation and discussion on the intent of the audit, and a review of the agenda for the on-site visit. The primary discussion involved reviewing the facility and coordinating staff and inmate interviews. The number of interviews scheduled for staff and inmates was

based on the inmate population number. The required number of inmate interviews for Eastern Kentucky Correctional Complex was as follows: 20 random inmates and 20 specialized inmates. After the orientation, the Auditors separated and walked throughout observing the entire correctional facility. The review of the facility included observation of these areas:

1. Administrative
2. Central Control
3. Housing Unit Dorms 1,2,3,4,6,7 and 8

An exit meeting was held on Wednesday April 25, 2018 with the facility’s leadership staff. The Lead Auditor summarized the preliminary audit findings. During this process, specific feedback was provided including strengths and recommendations for improvement and corrective actions as it relates to PREA standards. The Auditors were impressed with the facility and the State of Kentucky Department of Correction’s commitment to the PREA standards and processes. Under the Warden’s leadership, Eastern Kentucky Correctional Complex is committed to making the facility safe from sexual assaults and sexual harassment.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Eastern Kentucky Correctional Complex (EKCC) was constructed in two (2) phases and houses minimum, medium, close and maximum custody inmates. The first inmates were received February 14, 1990. EKCC was designed to house 1,122 inmates but double bunking increased the institutional capacity to 1,722 making EKCC 53 % over its designed capacity. In 2018, to help meet the needs of the state, EKCC agreed to house an additional 200 inmates by double bunking Dorms 1 and 6 raising the current institutional capacity to 1,922. EKCC currently houses the largest inmate population in the state. EKCC's distinction from other Kentucky institutions is the design, number of inmates housed, and the inmates' custody level. EKCC's best security tool is the controlled movement. Inmates move from one place to another on the hour and half hour and is closely monitored providing inmates with fewer opportunities to pass contraband. Controlled movement allows EKCC to reduce the number of inmates moving at any given time; thus, enhancing the control staff have over the inmate population.

The purpose of the Eastern Kentucky Correctional Complex is two-fold. First, the institution has the responsibility of protecting the citizens of the Commonwealth by carrying out the mandates of the courts. This is accomplished by keeping inmates locked up and away from society. Since most inmates will eventually re-enter society, EKCC also have the responsibility to assist the inmate so that he can re-enter society as a useful citizen. In order to achieve the security aspect of this philosophy, constant supervision is afforded through continuous 24-hour supervision by work supervisors, correctional officers and other Eastern Kentucky Correctional Complex staff. Progressive methods of drug and alcohol detection are utilized to prevent abuse. They include urine samples, breathalyzer tests and cooperation of state and local police in the use of dogs. Shakedown and counts are also used to achieve a safe and secure environment.

The second aspect of the institutional philosophy is assisting offenders to re-enter society as useful and productive members. This is achieved through various programs and services including work programs, academic and vocational programs, and casework services which are needed by those men lacking in academic and social needs which are essential in today's society. Counseling programs, religious programs, and other self-help programs are available to those wishing to utilize them.

In 2017, EKCC installed a new Institutional Camera System. Costing at approximately \$400,000, at least 150 cameras have been installed to date.

EKCC utilizes resources designed to reduce the likelihood of recidivism. These resources include a structured work environment, academic and vocational education, religious programs and self-help programs. The self-help programs include six programs moderated by program staff and sixteen moderated by chapel/chapel volunteer staff. The chapel continues to receive donations of books and tapes from various ministries throughout the country and continues to receive donations of popular

publications such as Guideposts, Decision Magazine, and In Touch which are made available to the inmate population.

EKCC offers a variety of educational opportunities for inmates. There are five vocational programs offered including Carpentry, Masonry, Heating and Air Conditioning, Small Engine Repair, and Microsoft Office. The Adult Basic Education programming offers high school equivalency diploma (GED) literacy and life skills to students who have not earned a traditional high school diploma. In the main facility vocational and adult education classes are offered Monday through Friday from 8:15 a.m. to 10:30 a.m. and again from 12:30 p.m. to 2:30 p.m. Adult education classes are also offered two evenings a week for inmates who worked day jobs. At the Minimum-Security Unit adult education classes are offered two evenings per week. Additional programming within the school consists of evening college courses offered on the traditional semester basis and a National Career Readiness Certificate Program (NCRC) open to inmates that qualify for enrollment. EKCC's education department is recognized for its academic excellence and for consistency being a high performing school. EKCC's academic programming is held to the same high standards as the state of Kentucky's public educational programs.

EKCC houses three Kentucky Correctional Industry divisions: Wood Reclaim, Relabeling and Coupon Sorting. The Wood Reclaim Plant receives once-used lumber and this lumber is repurposed to be used again. The Relabeling Plant works with a company called Essex which buys merchandise from other companies that have overstock that send to the prison clothing for labels to be removed. The Coupon Plant provides coupon redemption services where inmate workers scan an average of 75,000 coupons per day. The structured work environment within these plants allow inmates to experience competitive work atmosphere that is very similar to working for a business in the private sector.

- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Eastern Kentucky Correctional Complex meets standard 115.13: Supervision and monitoring.

A review of the Facility's Pre-audit Question (PAQ) disclosed no judicial findings of inadequacy in the staffing plan, no findings of inadequacy from Federal investigative agencies, and no findings of inadequacy from internal or external oversight bodies.

A review of the Facility's annual planning document demonstrates the facility takes into consideration any other relevant factors in calculating adequate staffing levels and determining the need for video monitoring. The facility has ordered additional cameras to enhance monitoring in the dorms and bullpen areas to increase the safety and security of inmates.

The Lead Auditor reviewed a correspondence from the PREA Coordinator to the Warden confirming within the past 12 months the facility, the PREA Coordinator, assessed, determined, and documented that adjustments were not needed to the staffing plan, the facility's deployment of video monitoring systems and other monitoring technologies, and there are adequate resources available to ensure adherence to the staffing plan. The PREA Coordinator confirmed the facility has an adequate staffing plan.

Interview with Warden confirmed the Facility has adequate staffing levels to protect inmates against sexual abuse and the facility considers video monitoring as part of this plan to prevent inmate sexual harassment and abuse. The staffing plan documented, reviewed daily and located in the Captain's office. The Warden confirmed the Facility follows general acceptance staffing practices and takes into consideration the prevalence of substantiated and unsubstantiated incidents of sexual abuse in calculating adequate staffing levels and determining the need for video monitoring. The Warden stated the Facility reviews the inmate count when calculating supervisory staff.

The Auditor's on-site review of the facility confirm cameras are placed throughout the facility and adequate supervision was observed throughout the facility. Any blinds spots detected during the facility walk through were eliminated. The facility environment was clean and safe. Observation throughout the facility showed inmates constantly supervised by staff.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Eastern Kentucky Correctional Complex does not meet standard 115.15: Limits to Cross-Gender Viewing and Searches

Review of the Department's Sexual Abuse Prevention and Intervention Programs Policy 14.7 states strip searches shall be conducted by a staff member of the same gender as the inmate, except in exigent circumstances. The policy clearly defines exigent circumstances. The policy also states a transgender or intersex inmate shall not be searched or physically examined for the sole purpose of determining the inmate's genital's status. The policy states all strip searched under reasonable suspicion shall be documented and all body cavity searches shall require approval from the Warden or his/her designee. The policy also specifies all searches shall be carried out in a dignified manner, under sanitary

conditions, and officers shall refrain from making any threatening, insulting or suggestive remarks while conducting searches.

Review of the Department's Sexual Abuse Prevention and Intervention Programs Policy 14.7 states inmates shall be provided facilities that enable them to shower, perform bodily functions and change clothing without staff of the opposite gender viewing their breasts, buttocks, or genitalia except in exigent circumstances or when such viewing is incidental due to routine cell checks.

The Lead Auditor reviewed a document from the PREA Compliance Manager that stated no instances of cross-gender strip or cross-gender body cavity searches of inmates housed at Eastern Kentucky Correctional Complex for the past 12 months. The document also stated inmates' access regularly available programming has not been restricted to comply with this standard.

The Lead Auditor reviewed a document from the PREA Compliance Manager that stated Eastern Kentucky Correctional Complex is an all-male facility and does not housed female inmates. The Auditors observed on male inmates at Eastern Kentucky Correctional Complex.

In viewing the facility's housing units, the Auditor observed that showers and restrooms provided privacy for inmates. 10 out of 10 Security staff physically demonstrated to the Auditor the proper and respectful way of Pat Frisks and Pat Searches of the opposite gender, transgender, and intersex inmates. Security staff assigned to the units were able to demonstrate the process of where they would be located when inmates are showering or performing bodily functions. The Auditors' on-site observation confirmed shower curtains allows inmates to shower, perform bodily functions on the units, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia. However, an Auditor observed on the segregated housing unit, potential inmate exposure of body parts when showering.

All security staff interviewed were able to state they received training on the proper and respectful way of conducting pat searches on inmates All security staff interviewed were able to verbalize the agency policy on conducting Pat Frisks and Pat Searches on cross-gender inmates, transgender, inmates and intersex inmates. The staff verbalized strip searches or strip and frisk searches are conducted by an officer of the same sex as the inmate being searched, and staff knew the facility prohibits staff from searching or physically examining transgender and intersex inmates for the sole purpose of determining their genital status.

All inmates interviewed (with the exception of one inmate) were able verbalized a confident sense of privacy and informed the auditor that anytime the opposite gender is approaching the unit he/she announces his/her presence before stepping on the unit. All inmates interviewed stated at no time is the opposite gender viewing or performing searches or pat downs.

Corrective Actions:
