PRE-AUDIT

Kentucky DOC (KY DOC) PREA Compliance Manager, C.A. Wilkerson contacted the South Dakota Department of Corrections (SD DOC) to conduct a PREA audit of its Roederer Correctional Complex (RCC) as a part of the Midwest PREA Audit Consortium.

The SD Audit Team would consist of SD DOC PREA Coordinator, Ken VanMeveren, who would conduct the audit and Mike Dufree State Prison PREA Compliance Manager (PCM) Becc Coyle who would assist with the on-site staff / inmate interviews.

The RCC PREA Audit initially started on January 26th. 2015, when the RCC housing units posted the PREA Audit Advance Notice to the inmates that a PREA Auditor would be on site March 10th, 11th and 12th.

On Friday, February 13th, RCC PREA Compliance Manager (PCM) Angelina Williams and the SD Audit Team started working out the details of the on-site Audit and a schedule for the PREA Pre-Audit Questionnaire and associated documentation.

RCC Pre-Audit Questionnaire and associated documentation from PCM Williams was received in the mail on Friday, February 20th.

On March 1st, the initial review of the PREA Pre-Audit Questionnaire and associated documentation was completed.

From Monday, March 2nd thru Friday, March 6th PCM Williams and the SD Audit Team exchanged questions, additional information and explanations for the Pre-Audit Questionnaire and documentation.

The on-site audit started on Tuesday, March 10th with introductions of the SD Audit Team with the RCC Senior Staff, including Warden Ravonne Sims, KY DOC Program Coordinator Joseph Martin, KY DOC PREA Coordinator C.A. Wilkerson, RCC PREA Compliance Manager Angelina Williams and others.

After the introductions, PCM Williams conducted a facility tour. The tour included all areas of the facility; the Identification Department, Assessment Center, Housing Units, Medical area, Chapel, Kitchen, Recreation, outside minimum unit, chapel and various work areas.

That afternoon the SD Audit Team began the staff interviews including senior staff, investigators, medical/mental health staff, intake staff, incident review team, first responders, contractors, volunteers and random staff.

The second day, the SD Audit Team started early in the morning to catch the overnight staff for interviews and to interview more random staff. Once staff interviews were completed, the SD Audit Team started the scheduled inmate interviews. This continued through the afternoon.

The third day of the audit started with revisiting some areas to address questions from a review of information to date. Final staff interviews from these areas and questions / explanations from senior staff. After lunch we had the Audit Closing Briefing with senior RCC staff.

DESCRIPTION OF FACILITY CHARACTERISTICS:

The Roederer Correctional Complex is situated approximately 3 miles south of LaGrange, Kentucky and approximately 20 miles north of Louisville, Kentucky.

The physical plant consists of a total of one thousand two (1002) beds. Seven hundred thirty (730) medium security beds are within the fenced perimeter. One hundred (100) of these medium custody inmates are permanently assigned inmates, which provide support services for the institution. Six hundred thirty (630) medium security beds are utilized to house inmates entering the system as part of the Assessment Center for the Department of Corrections. There are currently two hundred seventy-two (272) minimum custody beds located outside the fence.

Roederer Correctional Complex has three (3) distinct purposes:

- The Assessment and Classification Center processes all incoming male felons with the exception of those sentenced to death row. In excess of 7,000 are processed by this institution per year. The Assessment Center is also responsible for all sentence calculations of felons in Controlled Intake (currently 1,600) and for classifying felons for the Class D Program (approximately 4,000 per year).
- Roederer Correctional Complex assigns permanent inmates to provide support services for the institution including one hundred (100) inmates who work in the Maintenance Department, Kitchen, Laundry, Legal Office, Grievance Office, etc. Seventy-two (72) minimum custody inmates help maintain the 3,000 acre farm. The permanent inmate population at this institution totals 172 at full capacity.
- The Substance Abuse Treatment program is a 200-bed intensive in-patient treatment unit. Treatment is provided to a mixed population of incarcerated felons and offenders on parole supervision. Treatment is facilitated through inmate elders (former program graduates), treatment staff, security staff, community mentors and volunteers. Clients are prepared for transition into the community.
